America's Romance with the English Garden - Thomas J. Mickey 2013-04-17

Named one of "the year's best gardening books" by *The Spectator* (UK, Nov. 2014) The 1890s saw a revolution in advertising. Cheap paper, faster printing, rural mail delivery, railroad shipping, and chromolithography combined to pave the way for the first modern, mass-produced catalogs. The most prominent of these, reaching American households by the thousands, were seed and nursery catalogs with beautiful pictures of middle-class homes surrounded by sprawling lawns, exotic plants, and the latest garden accessories—in other words, the quintessential English-style garden. *America's Romance with the English Garden* is the story of tastemakers and homemakers, of savvy businessmen and a growing American middle class eager to buy their products. It's also the story of the beginnings of the modern garden industry, which seduced the masses with its images and fixed the English garden in the mind of the American consumer. Seed and nursery catalogs delivered aspirational images to front doorsteps from California to Maine, and the English garden became the look of America.

Love in a Mist - Sara Sartagne 2020-09-16

Ella Sanderson manages the farms and estate at Ashton Manor. She's an old-fashioned girl who knows what she likes. And she hates the ultra-modern garden designed by horticulture's bad boy, Connor McPherson which will destroy the place that brought her solace and potentially

empty the estate's coffers. Plus, Connor is just the type she's learned to mistrust. Bright blue eyes and Irish charm may have captivated her employer Lady Susan—but not her! Ella can't overrule Lady Susan's wishes for the garden, but she can just... not help. Connor McPherson didn't want the commission, but as the garden will host his best friend's wedding, he couldn't refuse it. If the wettest English weather on record hasn't completely blown his chances of completing the build for the big day, he's also battling the snooty estate manager who couldn't be less enthusiastic. When mounting problems force them to work together, the stage is set for fireworks between the hot-tempered Irishman and the cool, contained estate manager. But Connor starts to realise that beneath her buttoned-up exterior, Ella has a passion equal to his own and a secret she's hidden for years. As Ella fights to get the garden she hates built in time for the wedding she'd rather not attend and safeguard the manor from unwelcome publicity, she's increasingly drawn to the tempestuous designer. Who, she discovers, has his own secrets to protect... Meet old friends from *The Garden Plot* in the next in the series of the *English Garden Romance* series. Fans of Jill Mansell and Katie Fforde will enjoy this HEA romance with a hint of spice!

The Private Gardens of England - Tania Compton 2015-10-15

The *Sunday Times* Gardening Book of the Year Described by *Vogue* as 'the revelatory garden book for our age' and a 'splendid new book' (Sebastian Shakespeare, *Daily Mail*), *The Private Gardens of England* is a glorious celebration of

Downloaded from
legacy.opendemocracy.net on 2021-10-23
by guest

the art of gardening through some of the country's hidden horticultural jewels. Thirty-five English private gardens, thoughtfully selected by the writer and designer Tania Compton, are vividly described in the words of their owners, who bring an astonishing sense of intimacy to their own creations as well as their collaborations with some of the leading garden designers of today. From the Bannermans' romantic Cornish castle to the windswept shores of Howick in Northumberland via Jasper Conran in Somerset and Tom Stuart-Smith in Hertfordshire, an eclectic range of gardens is revealed. The traditional English garden is seen through the fresh eyes of plantswomen such as Mary-Anne Robb at Cothay Manor and Arabella Lennox-Boyd at Gresgarth Hall, alongside Hilborough House in Norfolk and Ferne Park in Dorset that recently only existed as fields. The historic landscape gardens of Boughton House and St Paul's Walden Bury are explored alongside the contemporary and conceptual at Plaz Metaxu in Devon. From the private walled garden at Petworth to the wildflower-strewn meadows of Spye Park, each garden is a testament to the thriving art of English gardening. With contributions from the country's best garden photographers, *The Private Gardens of England* reveals gardening at its highest level. It will inform and inspire anyone with a love of gardening, beauty and excellence. 'The photographs are take-your-breath-away spellbinding . . . The minute level of detail here will satisfy real gardeners, elevating this book far above its competition.' Sarah Feeley, *English Garden* 'Captures a brilliant moment in our history, where plantsmanship, good design and love of plants have all come together . . . compelling format . . . the photography and production are superb.' Kathryn Bradley-Hole, *Country Life* One of Christopher Woodward's Books of the Year in the *Evening Standard* [The English Garden](#) - William Mason 1783

Green Desire - Rebecca Weld Bushnell
2018-07-05

For Rebecca Bushnell, English gardening books tell a fascinating tale of the human love for plants and our will to make them do as we wish. These books powerfully evoke the desires of gardeners: they show us gardeners who, like

poets, imagine not just what is but what should be. In particular, the earliest English garden books, such as Thomas Hill's *The Gardener's Labyrinth* or Hugh Platt's *Floraes Paradise*, mix magical practices with mundane recipes even when the authors insist that they rely completely on their own experience in these matters. Like early modern "books of secrets," early gardening manuals often promise the reader power to alter the essential properties of plants: to make the gillyflower double, to change the lily's hue, or to grow a cherry without a stone. *Green Desire* describes the innovative design of the old manuals, examining how writers and printers marketed them as fiction as well as practical advice for aspiring gardeners. Along with this attention to the delights of reading, it analyzes the strange dignity and pleasure of garden labor and the division of men's and women's roles in creating garden art. The book ends by recounting the heated debate over how much people could do to create marvels in their own gardens. For writers and readers alike, these green desires inspired dreams of power and self-improvement, fantasies of beauty achieved without work, and hopes for order in an unpredictable world—not so different from the dreams of gardeners today.

A Love Story Journal for Couples - Endless Journals 2019-01-25

A Love Story Journal For Couples is the ideal journal for couples to express their unique love story together. This 250 page Fun Journal Couples Activity Book is intended to capture memories, thoughts, future dreams and stories that make up your unique and unforgettable love story. Valentine gift for your family and friends.

Love-Ism Volume Iii - Don Coorough 2013-08

Love-ism Volume III: Sitting in an English Garden-a novel takes you to multiple worlds during multiple time periods. In this story, we encounter a man's experiences in Southern California during May of 1972, in Amsterdam, Netherlands during a day in 2005, and in a place outside of time and space in a fictitious English garden. The book's world combines hippies, anti-Vietnam War demonstrations, out-of-body experiences, dream sequences, psychedelic trips on LSD, a visit to an Amsterdam koffiesshop, a budding romance between an expatriated American and a native Dutch woman, and timeless encounters with John Lennon and George Harrison. This book will take you on a ride wilder than Billy Pilgrim's in

Slaughterhouse Five and more surreal than Alice in Wonderland or Through the Looking Glass.

Destined to be a timeless classic, this book is a highly experimental example of storytelling which expands previous notions of the novel.

Embroideries from an English Garden - Carol Andrews 2012-08

A colorful collection of 15 projects aimed at embroiderers of all levels of experience Here is a celebration of colorful projects in surface embroidery celebrating the seasonal flowers and fruits of the English garden. The book combines surface techniques with traditional designs in an exciting way, producing depth and other realistic effects which will delight and instruct embroiderers of all levels of experience. Full instructions, working diagrams, and color illustrations are used to explain the projects, while a separate section on stitches and techniques provides additional support.

The History Of the English Garden - Susanne Busch 2006-08-08

Seminar paper from the year 2001 in the subject English Language and Literature Studies -

Culture and Applied Geography, grade: 2,0, Dresden Technical University, course:

Englishness, language: English, abstract: In no other country in the world are more gardens open to the general public than in England.

There is both a huge variety of styles and a big selection of plants. The list of international wellknown gardens is long. Gardens like Sissinghurst and Stourhead show the special

character and greatness of the English Garden; however, each garden has its own flair and expresses the sometimes quite eccentric personality of the owner or creator. Besides, in England a person who renders gardening a great service gains honour and fame. For many gardening is more a prestigious rather than plainly a leisure activity. The art of the garden plays an important role in English society in general. The garden authority with the most influence is the "Royal Horticultural Society", which has nearly 250,000 members. The garden festivals they arrange are popular social events. Moreover, the National Trust is a famous and very important institution concerning conservation work. The full name stands for the principles of this charity: "The National Trust for Places of Historic Interest and Natural Beauty". One aim of their work is to care for over 230 gardens in Great Britain. Apart from this, Britain has a very favourable climate. Frost-free zones for tropical plants as well as cold and windy weather can be found in only one county - e.g. in Cornwall. That makes it possible to get so different impressions of a landscape in a small part of the country and the climate meets the requirements for the 120,000 different species of plants growing in British gardens. The vividness of the English garden history in the present art of garden is remarkable. Many ideas were taken over from former garden styles like planting lavender, rosemary and ivy which were all brought to England by the Romans and can be find in all gardens today. Maybe the typical English garden like the continental people might see it is the English Landscaped Garden, which is the English contribution to the garden history. The recent head gardener of the Treliwick Gardens (National Trust), Barry Champion, may answer the question why the English people of all nations are famous for their love of gardens. He thinks that there is a difference in the art of gardening for example between the Germans and the English. [...]

Love from Kew - Sophie Shillito 2021-02-14

Bringing together messages from vintage Kew postcards with new prose reflections, Love from Kew is a one-of-a-kind look at the enduring needs for human connection--with each other as much as the natural world. In 2020, the United Kingdom recognized the 150th anniversary of

the official introduction of postcards. At the peak of their popularity in the early twentieth century, more than two million postcards a day were mailed in the UK. One could view postcards as the texts or tweets of their day: brief communiques that provide glimpses into the lives of others, with stories that are often as funny or poignant as they are cryptic. These messages were often sent to family or friends back home from a site of special importance--like, for example, the Royal Botanic Gardens, Kew. Love from Kew is a valentine to these missives of the past, placing vintage Kew postcards--and the messages written on them--alongside new prose reflections from multi-genre writer Sophie Shillito. The decades-old correspondence and Shillito's wonderstruck contemporary reflections offer a meditation on how these Kew postcards speak to the eternal human need for both personal connection and communion with the natural world. In today's world of environmental precarity and increased isolation, these themes are just as relevant as they were when these antique postcards were first penned. Love from Kew is a fascinating and heartfelt blend of social and visual history, observed through the singular lens of Kew Gardens.

[Love in an English Garden](#) - Victoria Connelly 2017-03-14

The Jacobs family has lived at Orley Court for generations. But when Vanessa Jacobs's husband dies and leaves the property to her, she finds costs spiralling out of control. In order to stay in their beloved home, she and her daughters will have to sell part of it off--a decision that drives a wedge between Vanessa and her live-in mother-in-law. The new owners of the north wing are Laurence Sturridge and his father, Marcus. Laurence wants to escape the constant pressure of his corporate job in London, while Marcus longs to heal from the grief of losing his wife. Could the beauty of Orley Court offer them a fresh outlook on life? As the two families embark on a challenging new chapter over the course of a glorious English summer, secrets are revealed and relationships tested. But as Orley Court begins to weave its magic over them, will it be love, above all, that brings the two families together?

The Joy of Gardening - Vanessa Berridge 2014-04-07

These gardening facts and anecdotes are ideal for anyone who finds solace in their garden "To nurture a garden is to feed not just the body, but the soul." --Alfred Austin This pocket-sized miscellany, packed with quirky facts, quotes, handy hints, and surprising stories is the perfect pick-me-up for anyone who knows the incomparable joy of gardening.

English Garden - Ursula Buchan 2017-10-05
Visit some of the best English gardens without moving from your armchair with this best-selling classic which features over 350 colour photographs. Gardening writer Ursula Buchan has combined forces with garden photographer Andrew Lawson to explore the English garden and capture its richness and diversity, explaining the historical trends and the work of garden makers of the past that have shaped the English gardens we see today. Exploring many garden styles including formality, the landscape tradition, the Arts and Crafts style, the cottage garden and recent phenomena such as New Naturalism, the book discusses themes such as colour, water, ornament and foreign influences, as well as such defining characteristics as the very English urge to grow flowers and the nation's love of roses.

[The Garden](#) - Jane Fearnley-Whittingstall 2003
The unique style of the English garden is admired and copied all over the world. This book shows how the gardens of each period reflect the political, social and cultural life, how they affected architecture, clothes and manners, and how ideas and plants from other continents were embraced to form the art of English garden making. The contributions and personalities of individual men and women are analysed and celebrated. The author reveals how each period was influenced by a love or hate relationship with nature, alternatively keeping it at bay or taming it, manipulating, romanticising or celebrating it.

Walter Crane 2022-08-15

DigiCat Publishing presents to you this special edition of "A Floral Fantasy in an Old English Garden" by Walter Crane. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

The Story of the English Garden - Ambra Edwards 2018-09-01

The Story of the English Garden is the National Trust's accessible history of the nation's gardens, sumptuously illustrated and artfully curated. From tiny medieval gardens to vast Georgian parks, from Victorian glasshouses crammed with exotic specimens to the elegant outdoor 'rooms' of the Edwardians and the functional, ecologically aware gardens of today, this book explores the love affair between the English and their gardens for over 500 years. It's a fascinating story about passion - and power and politics too. The book is beautifully illustrated throughout and includes new photography of some of the most influential gardens in the world, including Sissinghurst. Drawn from the National Trust's extensive archives, The Story of the English Garden is the definitive guide to Europe's greatest collection of historic gardens - a rich celebration of World Heritage sites, rare and exotic plants and groundbreaking architectural design.

[An Economic History of the English Garden](#) - Roderick Floud 2019-11-07

'Roderick Floud's ground-breaking study of the history, money, places and personalities involved in British gardens over the past 350 years gives fascinating insight into why gardening is part of this country's soul.' Michael Heseltine, Deputy Prime Minister (1996-1997) 'Thousands of books have been written about the history of British gardens but Roderick Floud, one of Britain's most distinguished economic historians, asks new and important questions: how much did

gardens cost to build and maintain, and where did the money come from? Superbly researched, it is full of information which will surprise both economists and gardeners. The book is fun as well as edifying: Floud shows us gardens grand and humble, and introduces us gardeners, plantsmen and technologies in wonderful varieties.' Jane Humphries, Centennial Professor, London School of Economics At least since the seventeenth century, most of the English population have been unable to stop making, improving and dreaming of gardens. Yet in all the thousands of books about them, this is the first to address seriously the question of how much gardens and gardening have cost, and to work out the place of gardens in the economic, as well as the horticultural, life of the nation. It is a new kind of gardening history. Beginning with the Restoration of Charles II in 1660, Roderick Floud describes the role of the monarchy and central and local government in creating gardens, as well as that of the (generally aristocratic or plutocratic) builders of the great gardens of Stuart, Georgian and Victorian England. He considers the designers of these gardens as both artists and businessmen - often earning enormous sums by modern standards, matched by the nurserymen and plant collectors who supplied their plants. He uncovers the lives and rewards of working gardeners, the domestic gardens that came with the growth of suburbs and the impact of gardening on technical developments from man-made lakes to central heating. AN ECONOMIC HISTORY OF THE ENGLISH GARDEN shows the extraordinary commitment of money as well as time that the English have made to gardens and gardening over three and a half centuries. It reveals the connections of our gardens to the re-establishment of the English monarchy, the national debt, transport during the Industrial Revolution, the new industries of steam, glass and iron, and the built environment that is now all around us. It is a fresh perspective on the history of England and will open the eyes of gardeners - and garden visitors - to an unexpected dimension of what they do.
