Openness Unhindered - Rosaria Champagne Butterfield 2015-06-01

Terms like same-sex marriage, sexual orientation, gender identity, and gay Christian are part of daily discourse; yet enormous controversy surrounds them. They are the stuff of news headlines and vitriolic social media posts. But they also reflect stirrings of the heart in real people with real questions and concerns. Rosaria Champagne Butterfield, once a leftist professor in a committed lesbian relationship and now a confessional Christian, but always the thoughtful and compassionate professor, has written a followup to *The Secret Thoughts of an Unlikely Convert*. This book answers many of the questions people pose when she speaks at universities and churches, questions not only about her unlikely conversion to Christ but about personal struggles that the questioners only dare to ask someone else who has traveled a long and painful journey. Dr. Butterfield not only goes to great lengths to clarify some of today's key controversies, she also traces their history and defines the terms that have become second nature today—even going back to God's original design for marriage and sexuality as found in the Bible. She cuts to the heart of the problems and

points the way to the solution, which includes a challenge to the church to be all that God intended it to be, and for each person to find the true freedom that is found in Christ. --

Studies in the Psychology of Sex v6 - Havelock Ellis 2015-11-07

A man's sexual nature, like all else that is most essential in him, is rooted in a soil that was formed very long before his birth. In this, as in every other respect, he draws the elements of his life from his ancestors, however new the recombination may be and however greatly it may be modified by subsequent conditions. A man's destiny stands not in the future but in the past. That, rightly considered, is the most vital of all vital facts. Every child thus has a right to choose his own ancestors. Naturally he can only do this vicariously, through his parents. It is the most serious and sacred duty of the future father to choose one half of the ancestral and hereditary character of his future child; it is the most serious and sacred duty of the future mother to make a similar choice.[1] In choosing each other they have between them chosen the whole ancestry of their child. They have determined the stars that will rule his fate. In the past that fateful determination has usually

been made helplessly, ignorantly, almost unconsciously. It has either been guided by an instinct which, on the whole, has worked out fairly well, or controlled by economic interests of the results of which so much cannot be said, or left to the risks of lower than bestial chances which can produce nothing but evil. In the future we cannot but have faith—for all the hope of humanity must rest on that faith—that a new guiding impulse, reinforcing natural instinct and becoming in time an inseparable accompaniment of it, will lead civilized man on his racial course. Just as in the past the race has, on the whole, been moulded by a natural, and in part sexual, selection, that was unconscious of itself and ignorant of the ends it made towards, so in the future the race will be moulded by deliberate selection, the creative energy of Nature becoming self-conscious in the civilized brain of man. This is not a faith which has its source in a vague hope. The problems of the individual life are linked on to the fate of the racial life, and again and again we shall find as we ponder the individual questions we are here concerned with, that at all points they ultimately converge towards this same racial end. Since we have here, therefore, to follow out the sexual relationships of the individual as they bear on society, it will be convenient at this point to put aside the questions of ancestry and to accept the individual as, with hereditary constitution already determined, he lies in his mother's womb.

"I've not finished yet Melissa..." she says... "Because I was thinking about her while I was out this afternoon... and just thinking about her made my pussy all hot & wet... to see her right now... like I've done a few times before too... and I might be back later... much later... unless she wants me to spend the night with her of course. So you think about that while I'm gone. Think about us making out... think about us 69-ing... think about me licking and fingering her hot blonde pussy all night. And you know what? I love her pussy... and I love her too... yeah ... you fucking heard me... and if you get lonely tonight... well... you can call up one of the sluts that fingered you earlier today, can't you! So fuck you Melissa... fuck you and fuck everything... you're nothing but a cheap fucking slut anyway!" "Right, you little bitch... you're fucking grounded!" I screamed at her.

"Grounded? Fucking grounded? What the hell? I'm not twelve Melissa... and YOU can't fucking ground me! Ok bitch!" And after that little speech, and before I could even say anything else, Emz promptly turned around and stormed off... slamming the door behind her. She was wearing a really short denim skirt, which would have looked great on me, but it was way too short for my bitch... together with a cropped top and the ever-so-cute (and ever-so expensive) ankle boots I bought her the other week....." . . .
