Exploring the Dimensions of Human Sexuality - Jerrold S. Greenberg 2007

Exploring The Dimensions Of Human Sexuality, Third Edition, Has Been Extensively Updated To Include Information And Statistics About Recent Developments. This Text Continues To Encourage Students To Explore The Varied Dimensions Of Sexuality And To See How Each Affects Their Personal Sexuality, Sexual Health, And Sexual Responsibility. All Aspects Of Sexuality-- Biological, Spiritual, Psychological, And Sociocultural--Are Presented Factually And Impartially.

Confusion of Tongues: the Primacy of Sexuality in

Freud, Ferenczi and Laplanche - Philippe van Haute 2004

Confusion of Tongues describes the genesis of Freud's clinical anthropology. A careful reading of Freud's early texts and letters to Fliess illustrates how Freud abandons his seduction theory of the neuroses in favor of a sexual biology. The meaning and the implications of this 'biological turn' are made clear through an analysis of Freud's Three Essays on the Theory of Sexuality, first published in 1905. This 'biological turn' leads to three mutually dependent claims that are fundamental to Freud's project of a clinical anthropology: the primacy of (infantile) sexuality,

*Downloaded from
legacy.opendemocracy.net
on 2020-11-10 by guest*

the discontinuity between the world of the adult and the world of the child, and the continuity between 'normality' (psychic health) and pathology. In the later editions of *Three Essays*, Freud increasingly stresses the continuity between infantile and adult sexuality, thus undermining the radical character of his previous claims. *Confusion of Tongues* shows that the introduction of the Oedipus complex plays a crucial role in this evolution. The book also attempts to resolve the resulting impasse through a confrontation of Freud's work with the work of Ferenczi and Laplanche. For both Ferenczi and Laplanche, Freud's clinical anthropology gets its foundation from his theory of sexual trauma. However, van Haute and Geysken's careful reading of their texts makes clear that neither Ferenczi nor Laplanche succeed in providing a new theoretical foundation for Freud's original claim that sexuality is the weak spot in human nature that predisposes us to psychopathology.

Confusion of Tongues therefore argues that the shibboleth of psychoanalysis is not so much the primacy of sexuality, but the discontinuity between the world of the adult and the world of the child. Philippe van Haute is a professor of philosophical anthropology at the University of Nijmegen (The Netherlands). He is the president of the Center for Philosophical Anthropology and Psychoanalysis (University of Nijmegen/University of Leuven) and a practicing member of the Belgian School for Psychoanalysis.

The Meaning of Sex - Dennis P. Hollinger 2009-06

An ethicist provides an engaging exploration of the meaning of sex and articulates a Christian ethic for addressing a host of sexual issues facing readers today.

Psychology of the Unconscious - Carl Gustav Jung 1957

Psychology of the Unconscious - C. G. Jung 2012-03-06

Most influential work of Swiss

psychiatrist breaks with Freudian tradition to focus on role of dreams, mythology, and literature in defining patterns of psyche. Landmark case study; influential in Jung's redefinition of libido.

Ace - Angela Chen 2020-09-15

An engaging exploration of what it means to be asexual in a world that's obsessed with sexual attraction, and what the ace perspective can teach all of us about desire and identity.

What exactly is sexual attraction and what is it like to go through life not experiencing it? What does asexuality reveal about gender roles, about romance and consent, and the pressures of society? This accessible examination of asexuality shows that the issues that aces face—confusion around sexual activity, the intersection of sexuality and identity, navigating different needs in relationships—are the same conflicts that nearly all of us will experience. Through a blend of reporting, cultural criticism, and memoir, *Ace* addresses the misconceptions

around the “A” of LGBTQIA and invites everyone to rethink pleasure and intimacy.

Journalist Angela Chen creates her path to understanding her own asexuality with the perspectives of a diverse group of asexual people. Vulnerable and honest, these stories include a woman who had blood tests done because she was convinced that “not wanting sex” was a sign of serious illness, and a man who grew up in a religious household and did everything “right,” only to realize after marriage that his experience of sexuality had never been the same as that of others.

Disabled aces, aces of color, gender-nonconforming aces, and aces who both do and don't want romantic relationships all share their experiences navigating a society in which a lack of sexual attraction is considered abnormal. Chen's careful cultural analysis explores how societal norms limit understanding of sex and relationships and celebrates the breadth of sexuality and queerness.

Religion and Lust - Jr James Weir 2023-09-04

In preparing *The Psychical Correlation of Religious Emotion and Sexual Desire* for its second edition, the author has incorporated in it a considerable amount of additional evidence in support of his theory. He has carefully verified all references; he has endeavored to eliminate all unnecessary material; and, finally, he has changed the style of the work by dividing it into three parts, thus greatly simplifying the text. He feels under many obligations to his critics, both to those who thought his little book worthy of commendation, and to those who deemed his premises and conclusions erroneous. He feels grateful to the former, because they have caused him to believe that he has added somewhat to the literature of science; he thanks the latter, because in pointing out that which they considered untrue, they have forced him to a new and more searching study of the questions involved, thereby strengthening his belief in the

truthfulness of his conclusions. To the second edition of *The Psychical Correlation of Religious Emotion and Sexual Desire*, the author has seen fit to add certain other essays. In preparing these essays for publication, he has borrowed freely from his published papers, therefore, he desires to thank the publishers of the *New York Medical Record*, *Century Magazine*, *Denver Medical Times*, *Charlotte Monthly* and *American Naturalist* for granting him permission to use such of his published material (belonging to them) as he saw fit. The author asks the indulgence of the reader for certain repetitions in the text. These have not been occasioned by any lack of data, but occur simply because he believes that an argument is rendered stronger and more convincing by the frequent use of the same data whenever and wherever it is possible to use them. When this plan is followed, the reader, so the author believes, becomes familiar with the author's line of thought, and is,

Downloaded from
legacy.opendemocracy.net
on 2020-11-10 by guest

consequently, better able to comprehend and appreciate his meaning. Finally, the author has been led to the publication of these essays by a firm belief in the truthfulness of the propositions advanced therein. He may not live to see these propositions accepted, yet he believes that, in the future, perhaps, in worthier and more able hands, they will be so weightily and forcibly elaborated and advanced that their verity will be universally acknowledged.

Sexual Ethics - Stanley James Grenz 1997-01-01

In this biblically grounded study, Stanley Grenz synthesizes theology, ethics, and current medical research to offer an evangelical perspective on the profound role that sexuality does, and should, play in our lives today. He calls for Christians to live a biblical sexual ethic in the contemporary world, at the same calling on the church to recognize that its mandate includes being a reconciling community, one that proclaims God's grace to all.

The Encyclopædia of Sexual Behaviour - Albert Ellis
2013-10-22

The Encyclopædia of Sexual Behaviour, Volume Two is an encyclopedia of sexual behavior and covers topics ranging from the linguistic aspects of sex to sex life in Latin America, sex in the literature, and sexual love. Laws on marriage and family and on sex crimes are also discussed, along with sexual perversions and the art of loving. Comprised of 52 chapters, this volume first deals with Judaism's attitudes and teachings on sex, particularly with regard to the sexuality of women, nudity, and prostitution. The reader is then introduced to the connection between language and sex; sex life in regions such as Latin American, the Orient, and the Soviet Union; and the portrayal of sex in literature. Subsequent chapters explore sexual love as opposed to altruistic love; marriage and family living; menopause and the menstrual cycle; movement and feeling in sex; the interrelationship of

Downloaded from
legacy.opendemocracy.net
on 2020-11-10 by guest

music and sex; and the effects of nutrition and health on sexuality. Other chapters focus on phallicism and sexual symbolism; planned parenthood around the world; the psychology of pornography; human reproduction; and sex in relation to race and Protestantism. This book will be of interest to psychologists and psychiatrists.

Sex Drive - Susan Lyons 2009
Baby, Let's Go When Dr. Theresa Fallon meets a long, lean stranger in business class, she's suddenly ready for anything. There's something about Damien Black that makes her want to surrender immediately. . . Which is why she accepts Damien's spontaneous offer of a sizzling getaway. All in the name of research, of course. And once the pretty professor slips between the sheets with this hard-bodied man of mystery, she discovers the meaning of the term erotic pleasure. . . Praise for Susan Lyons and her novels. . . "Full of delicious sensuality. . .hard to put down." --Romantic Times on

She's On Top, four and half star review "Hot in Here is a fantastic tale that goes from a spark to an inferno. . .very spicy." --Coffee Time Romance

Social Psychology and Human Sexuality - Roy F. Baumeister 2001

Presents a selected group of influential articles dealing specifically with the social aspects of sexuality, topics covered include differences between male and female sexuality, virginity, harassment, rape and coercion and jealousy.

Meanings of Life - Roy F. Baumeister 1991-01-01

Who among us has not at some point asked, what is the meaning of life?' In this extraordinary book, an eminent social scientist looks at the big picture and explores what empirical studies from diverse fields tell us about the human condition. MEANINGS OF LIFE draws together evidence from psychology, history, anthropology, and sociology, integrating copious research findings into a clear and conclusive discussion of how

people attempt to make sense of their lives. In a lively and accessible style, emphasizing facts over theories, Baumeister explores why people desire meaning in their lives, how these meanings function, what forms they take, and what happens when life loses meaning. It is the most comprehensive examination of the topic to date.

Exploring the Dimensions of Human Sexuality - Jerrold Greenberg 2010-03-10

Exploring the Dimensions of Human Sexuality, Fourth Edition addresses all aspects of sexuality—biological, spiritual, psychological, and sociocultural—and presents the information both factually and impartially. Throughout the text, students will find an emphasis on health and well-being based on the assumption that we are all sexual beings and that sexuality should be viewed in its totality. Students are encouraged to explore the varied dimensions of human sexuality and see how each affects their own personal sexuality, sexual health, and

sexual responsibility.
Avatars of the Libido -
Wojciech Majka 2007

Male Sexuality - Michael J. Bader 2009

At first glance the sexual male seems easy to understand, but beneath the surface lie complexities that disrupt lives and relationships. Respected psychologist Michael Bader takes an honest look at the nuances of male sexuality, addressing issues such as sexual boredom, internet sex, and sexual fantasies that can leave women bewildered and men ashamed. Illustrated with engaging examples from his practice, *Male Sexuality* gives readers, both women and men, deeper understanding of male behavior. Through increased awareness of the psychology behind the sex, Bader aims to enhance individual self-esteem and improve communication in relationships.

Libido - Alphonso Lingis 1985
Alphonso Lingis's engaging book studies the phenomenological and postphenomenological theories

of sexuality of six contemporary French philosophers: Jean-Paul Sartre, Maurice Merleau-Ponty, Emmanuel Levinas, Jean-François Lyotard, Gilles Deleuze, and Félix Guattari. After centuries of philosophical silence on the matter, these writers, during the last forty years, have undertaken the first extended exploration of human sexuality in Western philosophical literature. Lingis presents the arguments developed by the six philosophers, critically assesses them, and offers his own explanation of how the libidinal body can be characterized, what the libidinal drive is, and what alterity commands in the erotic imperative.

Psychology of the Unconscious

- C. G. Jung 2023-11-14

"This book became a landmark, set up on the spot where two ways divided. Because of its imperfections and its incompleteness it laid down the program to be followed for the next few decades of my life." Thus wrote C. G. Jung about

his most famous and influential work, the one that marked the beginning of his divergence from the psychoanalytic school of Freud. In this book Jung explores the fantasy system of Frank Miller, the young American woman whose account of her poetic and vivid mental images helped lead him to his redefinition of libido while encouraging his explorations in mythology.

Published in 1912 as *Wandlungen und Symbole der Libido*, this is a key text for the study of the formation of Jung's ideas and for understanding his personal and psychological condition during this crucial time. Miller's fantasies, with their mythological implications, supported Jung's notion that libido is not primarily sexual energy, as Freud had described it, but rather psychic energy in general, which springs from the unconscious and appears in consciousness as symbols. Jung shows how libido organizes itself as a metaphorical "hero," who first battles for deliverance from the "mother," the symbol of the unconscious,

*Downloaded from
legacy.opendemocracy.net
on 2020-11-10 by guest*

in order to become conscious, then returns to the unconscious for renewal. Jung's analytical commentary on these fantasies is a complex study of symbolic parallels derived from mythology, religion, ethnology, art, literature, and psychiatry, and foreshadows his fundamental concept of the collective unconscious and its contents, the archetypes.

Psychology of the Unconscious - Carl Gustav Jung 1957

The Textbook of Clinical Sexual Medicine - Waguih William IsHak 2017-05-30

“The Textbook of Clinical Sexual Medicine utilizes the biopsychosocial approach to inform physicians, practitioners, residents, trainees, and students about the latest science has to offer today for the evaluation and treatment of sexual dysfunctions especially the utilization of the full armamentarium of assessment methods and treatment interventions in order to

restore of sexual health and enhance quality of life.” Louis Ignarro, Ph.D., Nobel Laureate
This textbook is a comprehensive resource covering sexual disorders in depth, from etiology, pathophysiology, phenomenology, treatment, to prognosis. The book highlights aspects the biological and psychosocial factors predisposing, precipitating, and perpetuating sexual dysfunction, and the importance of integrating biological and psychosocial treatments. Specialized chapters cover specific common medical complaints, including erectile, ejaculatory, and orgasmic disorders in the male; desire, arousal and orgasmic disorders in the female; and an integrated approach to the couple. With its focus on educational tools including over 100 figures, easy-to-use DSM-5 criteria table, and quick-guide appendices, this textbook is specially designed to educate readers on the psychiatric evaluation, treatment, and

*Downloaded from
legacy.opendemocracy.net
on 2020-11-10 by guest*

management of a wide range of sexual disorders. The Textbook of Clinical Sexual Medicine is a vital resource for medical students, residents, fellows, graduate students, psychiatrists, psychologists, women's health specialists, urologists, endocrinologists, general practitioners, social workers, and all medical professionals and trainees working with patients suffering from sexual disorders.

Sexual Desire - Roger Scruton
2015-06-15

A dazzling treatise, as erudite and eloquent as Simone de Beauvoir's *The Second Sex* and considerably more sound in its conclusion - TLS "He is an eloquent and practised writer" - *The Independent* (UK) When John desires Mary or Mary

desires John, what does either of them want? What is meant by innocence, passion, love and arousal, desire, perversion and shame? These are just a few of the questions Roger Scruton addresses in this thought-provoking intellectual adventure. Beginning from purely philosophical premises, and ranging over human life, art and institutions, he surveys the entire field of sexuality; equally dissatisfied with puritanism and permissiveness, he argues for a radical break with recent theories.

Upholding traditional morality - though in terms that may shock many of its practitioners - his argument gravitates to that which is candid, serene and consoling in the experience of sexual love.
