Living in Love and Faith: The Course - 2020-11-09

Living in Love and Faith: The Course aims to help Christians think more deeply about what it

means to be human. It provides a structured and accessible way for local groups to engage in and reflect on Living in Love and Faith, a major exploration of Christian teaching and learning about identity, sexuality, relationships and marriage. The five sessions of the course each address a key question: • What does it mean to learn together as followers of Jesus Christ? • How does our identity in Christ relate to sex and gender? • What kinds of relationships does God call us to? • Where do our bodies and sex fit in to all of this? • How do diversity and difference affect our life together as a church? Each session includes an opening reflection about learning together, followed by teaching, time for discussion and Bible study. The sessions end with an invitation to reflect on our learning, bringing it to God in prayer. As well as providing notes for those leading groups, the course also signposts the relevant sections of the Living in Love and Faith book as well as recommending films, podcasts and other digital resources

available.

The Four Loves - C S Lewis 2021-04-03

We hear often that love is patient and kind, not envious or prideful. We hear that human love is a reflection of divine love. We hear that God is love. But how do we understand its work in our lives, its perils and rewards? Here, the incomparable C. S. Lewis examines human love in four forms: affection, the most basic, general, and emotive; friendship, the most rare, least jealous, and, in being freely chosen, perhaps the most profound; Eros, passionate love that can run counter to happiness and poses real danger; charity, the greatest, most spiritual, and least selfish. Proper love is a risk, but to bar oneself from it-to deny love-is a damning choice. Love is a need and a gift; love brings joy and laughter. We must seek to be awakened and so to find an Appreciative love through which "all things are possible."

The Ethical Slut, Third Edition - Janet W. Hardy
2017-08-15

The classic guide to love, sex, and intimacy beyond the limits of conventional monogamy has been fully updated to reflect today's modern attitudes and the latest information on nontraditional relationships. "One of the most useful relationship books you could ever read, no matter what your lifestyle choices. It's chock-full of great information about communication, jealousy, asking for what you want, and maintaining a relationship with integrity."—Annie Sprinkle, PhD, sexologist and author of Dr. Sprinkle's Spectacular Sex For 20 years The Ethical Slut—widely known as the "Poly Bible"—has dispelled myths and showed curious readers how to maintain a successful polyamorous lifestyle through open communication, emotional honesty, and safer sex practices. The third edition of this timeless guide to the ethics of relationships, communication, and sex has been revised to include: • Interviews with poly millennials (young people who have grown up without the

prejudices their elders encountered regarding gender, orientation, sexuality, and relationships) • Tributes to polyamory pioneers • Tools for conflict resolution and instructions on how to improve interpersonal dynamics • New sidebars on topics such as asexuality, sex workers, LGBTQ terminology, and ways polys can connect and thrive The authors also include new content addressing nontraditional relationships beyond the polyamorous paradigm of "more than two": couples who don't live together, couples who don't have sex with each other, nonparallel arrangements, couples with widely divergent sex styles, power disparities, and cross-orientation relationships, while utilizing nonbinary gender language and new terms that have come into common usage since the last edition.

NICOMACHEAN ETHICS - Aristotle
2017-04-20

◆ EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has

rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the

activities, as in the case of the sciences just mentioned.◆

[The Resurrection of the Son of God](#) - Tom Wright
2012-06-07

N.T. Wright takes us on a fascinating journey through ancient beliefs about life after death, from the shadowy figures who inhabit Homer's Hades, through Plato's hope for a blessed immortality, to the first century, where the Greek and Roman world (apart from the Jews) consistently denied any possibility of resurrection. We then examine ancient Jewish beliefs on the same subject, from the Bible to the Dead Sea Scrolls and beyond. This sets the scene for a full-scale examination of early Christian beliefs about resurrection in general and that of Jesus in particular, beginning with Paul and working through to the start of the third century. Wright looks at all the evidence, and asks: Why did the Christians agree with Jewish resurrection belief while introducing into it - across the board - significant modifications?

To answer this question we come to the strange and evocative Easter stories in the gospels and asks whether they can have been late inventions. Wright seeks the best historical conclusions about the empty tomb and the belief that Jesus really did rise bodily from the dead, recognizing that it was this belief that caused early Christians to call Jesus 'Son of God'. In doing so, they posed a political challenge as well as a theological one. These challenges retain their power in the twenty-first century.

Love Unites Us - Kevin M. Cathcart 2014-04-01
Firsthand accounts from the attorneys and advocates who brought the historic cases and fought to secure the freedom to marry for same-sex couples. The June 2015 decision in *Obergefell v. Hodges* was a sweeping victory for the freedom to marry, but it was one step in a long process. *Love Unites Us* is the history of activists' passion and persistence in the struggle for marriage rights for same-sex couples in the United States, told in the words of those who

waged the battle. Launching the fight for the freedom to marry had neither an obvious nor an uncontested strategy. To many activists, achieving marriage equality seemed far-fetched, but the skeptics were proved wrong in the end. Proactive arguments in favor of love, family, and commitment were more effective than arguments that focused on rights and the goal of equality at work. Telling the stories of people who loved and cared for one another, in sickness and in health, cut through the antigay noise and moved people—not without backlash and not overnight, but faster than most activists and observers had ever imagined. With compelling stories from leading attorneys and activists including Evan Wolfson, Mary L. Bonauto, Jon W. Davidson, and Paul M. Smith, *Love Unites Us* explains how gay and lesbian couples achieved the right to marry. “An exceptional piece of work by courageous and innovative leaders.” —Eric H. Holder Jr., 82nd US attorney general “Captures the amazing story of the fight for marriage

equality—in California and around the country. A remarkable journey recounted with truth and eloquence.” —Gavin Newsom, governor of California

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a

trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been

effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Communities in Action - National Academies of Sciences, Engineering, and Medicine
2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of

inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and

structural barriers that need to be overcome. *How Marriage Became One of the Sacraments* - Philip L. Reynolds 2016-06-30

An indispensable guide to how marriage acquired the status of a sacrament. This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law, and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith.

The Cyclopædia, Or, Universal Dictionary of Arts, Sciences, and Literature - Abraham Rees 1805

The Transformation of Intimacy - Anthony Giddens 2013-04-23

The sexual revolution: an evocative term, but what meaning can be given to it today? How does 'sexuality' come into being and what connections does it have with the changes that have affected personal life on a more general plane? In answering these questions, Anthony

Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture. The emergence of what the author calls plastic sexuality - sexuality freed from its intrinsic relation to reproduction - is analysed in terms of the long-term development of the modern social order and social influences of the last few decades. Giddens argues that the transformation of intimacy, in which women have played the major part, holds out the possibility of a radical democratization of the personal sphere. This book will appeal to a large general audience as well as being essential reading for students and professionals.

Living in Love and Faith - The Church of England 2020-11-09

Issues of gender and sexuality are intrinsic to people's experience: their sense of identity, their lives and the loving relationships that shape and sustain them. The life and mission of the Church of England - and of the worldwide Anglican Communion - are affected by the deep, and

sometimes painful, disagreements about these matters, divisions brought into sharper focus because of society's changing perspectives and practices, especially in relation to LGBTBI+ people. *Living in Love and Faith* sets out to inspire people to think more deeply both about what it means to be human, and to live in love and faith with one another. It tackles the tough questions and the divisions among Christians about what it means to be holy in a society in which understandings and practices of gender, sexuality and marriage continue to change. Commissioned and led by the Bishops of the Church of England, the *Living in Love and Faith* project has involved many people across the Church and beyond, bringing together a great diversity and depth of expertise, conviction and experience to explore these matters by studying what the Bible, theology, history and the social and biological sciences have to say. After a Foreword from the Archbishops of Canterbury and York, the book opens with an invitation from

the Bishops of the Church of England to embark on a learning journey in five parts: Part One sets current questions about human identity, sexuality, relationships and marriage in the context of God's gift of life. Part Two takes a careful and dispassionate look at what is happening in the world with regard to identity, sexuality, relationships and marriage. Part Three explores current Christian thinking and discussions about human identity, sexuality, and marriage. In the light of the good news of Jesus Christ, how do Christians understand and respond to the trends observed in Part Two? Part Four considers what it means for us as individuals and as a church to be Christ-like when it comes to matters of identity, sexuality, relationships and marriage. Part Five invites the reader into a conversation between some of the people who have been involved in writing this book who, having engaged with and written Parts One to Four, nevertheless come to different conclusions. Amid the biblical,

theological, historical and scientific exploration, each part includes Encounters with real, contemporary disciples of Christ whose stories raise questions which ask us to discern where God is active in human lives. The book ends with an appeal from the Bishops to join them in a period of discernment and decision-making following the publication of *Living in Love and Faith*. The *Living in Love and Faith* book is accompanied by a range of free digital resources including films, podcasts and an online library, together with *Living in Love and Faith: The Course*, a 5-session course which is designed to help local groups engage with the resources, also published by Church House Publishing.
