The Perfect Business? Anti-Trafficking and the Sex Trade along the Mekong - Sverre Molland 2012-09-10

For those at the high end of the trafficking chain, the sex trade is an alluring and lucrative business: the supply of girls is constant, the costs of operations are low, and interference from law enforcement is weak to non-existent. Anti-trafficking organizations and governments commonly appropriate such market metaphors of supply and demand as they struggle with the moral-political dimensions of a business involving trade, labor, prostitution, migration, and national borders. But how apt are they? Is the sex trade really the perfect business? This provocative new book examines the social

worlds and interrelationships of traffickers, victims, and trafficking activists along the Thai-Lao border. It explores local efforts to reconcile international legal concepts, the bureaucratic prescriptions of aid organizations, and global development ideologies with on-the-ground realities of sexual commerce. Author Sverre Molland provides an insider's view of recruitment and sex commerce gleaned from countless conversations and interviews in bars and brothels—a view that complicates popular stereotypes of women forced or duped into prostitution by organized crime. Molland's fine-grained ethnography shows a much more varied picture of friends recruiting friends, and families helping relatives. A recruiter rationalizes her act as a benefit or favor to a village friend; relationships between prostitutes and bar

owners are cloaked in kin terms and familial metaphors. Sex work in the Mekong region follows patron-client cultural scripts about mutual help and obligation, which makes distinguishing the victims from the traffickers difficult. Molland's research illuminates the methods and motivations of recruiters as well as the economic incentives and predicaments of victims. *The Perfect Business?* is the first book to go beyond the usual focus on migrants and sex commerce to explore the institutional context of anti-trafficking. Its author, himself a former advisor for a United Nations anti-trafficking project, raises crucial questions about how an increasingly globalized development aid sector responds to what might more accurately be described as an extraterritorial development challenge of human mobility. His book will offer insights to students and scholars in anthropology, gender studies, and human geography, as well as anyone interested in one of the most controversial issues of development

policy.

Sin City North - Holly M. Karibo 2015-08-31

The early decades of the twentieth century sparked the Detroit-Windsor region's ascendancy as the busiest crossing point between Canada and the United States, setting the stage for socioeconomic developments that would link the border cities for years to come. As Holly M. Karibo shows, this border fostered the emergence of illegal industries alongside legal trade, rapid industrial development, and tourism. Tracing the growth of the two cities' cross-border prostitution and heroin markets in the late 1940s and the 1950s, *Sin City North* explores the social, legal, and national boundaries that emerged there and their ramifications. In bars, brothels, and dance halls, Canadians and Americans were united in their desire to cross racial, sexual, and legal lines in the border cities. Yet the increasing visibility of illicit economies on city streets—and the growing number of African American and French

Canadian women working in illegal trades—provoked the ire of moral reformers who mobilized to eliminate them from their communities. This valuable study demonstrates that struggles over the meaning of vice evolved beyond definitions of legality; they were also crucial avenues for residents attempting to define productive citizenship and community in this postwar urban borderland.

Mothers, Mothering and Sex Work - Jaremko Rebecca Bromwich 2015-07-01

experiential narratives. Notable among these are two modern masterpieces from literary legends: "Voices," a short story by Alice Munro and excerpts from Maya Angelou's autobiography *Gather Together in my Name*. In the spirit of the adage "nothing about us without us," *Mothers, Mothering and Sex Work* brings together unique and controversial viewpoints defying conventional wisdom to provide fresh insights into sex workers and their rights. Beginning with the political, legal and social context of sexuality and gender in Canada, the book's focus widens to explore issues affecting sex workers worldwide.

Sex Work and the City - Yasmina Katsulis
2009-09-15

A gateway at the U.S.-Mexico border, Tijuana is a complex urban center with a sizeable population of sex workers. An in-depth case study of the trade, *Sex Work and the City* is the first major ethnographic publication on

contemporary prostitution in this locale, providing a detailed analysis of how sex workers' experiences and practices are shaped by policing and regulation. Contextualizing her research within the realm of occupational risk, Yasmina Katsulis examines the experiences of a diverse range of sex workers in the region and explores the implications of prostitution, particularly regarding the spheres of class hierarchies, public health, and other broad social effects. Based on eighteen months of intensive fieldwork and nearly 400 interviews with sex workers, customers, city officials, police, local health providers, and advocates, *Sex Work and the City* describes the arenas of power and the potential for disenfranchisement created by municipal laws designed to regulate the trade. Providing a detailed analysis of this subculture's significance within Tijuana and its implications for debates over legalization of "vice" elsewhere in the world, Katsulis draws on powerful narratives as workers describe the

risks of their world, ranging from HIV/AIDS and rape (by police or customers) to depression, work-related stress, drug and alcohol addiction, and social stigma. Insightful and compelling, *Sex Work and the City* captures the lives (and deaths) of a population whose industry has broad implications for contemporary society at large.

The Sexual Politics of Border Control - Billy Holzberg 2022-03-16

The Sexual Politics of Border Control conceptualises sexuality as a method of bordering and uncovers how sexuality operates as a key site for the containment, capture and regulation of movement. By bringing together queer scholarship on borders and migration with the rich archive of feminist, Black, Indigenous and critical border perspectives, it highlights how the heteronormativity of the border intersects with the larger dynamics of racial capitalism, imperialism and settler colonialism; reproductive inequalities; and the containment

of contagion, disease and virality. Transnational in focus, this book includes contributions from and about different geopolitical contexts including histories of HIV in Turkey; the politics of reproduction in Palestine/Israel; settler colonialism and anti-Blackness in the United States; the sexual geographies of the Balkan and Southern Europe; the intimate politics of marriage migration between Vietnam and Canada; and sex work in Australia, the United States, France and New Zealand. This collection constitutes a key intervention in the study of border and migration that highlights the crucial role that sexual politics play in the reproduction and contestation of national border regimes. The chapters in this book were originally published as a special issue of *Ethnic and Racial Studies*. **Sex as a Political Condition** - Carlos Nicolas Flores 2015

Sexuality, Women, and Tourism - Susan Frohlick
2013

This book is the first to focus on why and how foreign Western women engage in cross-border sexual and intimate relations as tourists travelling, or temporarily dwelling, in a Central American country. The book combines descriptions of women's travels and sexual relations across racial and class boundaries with feminism, postcolonial theory, and poststructuralist theories of gender and sexuality, to show how tourism as a wide range and set of desires serves as a central shaping force in the formation of women's sexual subjectivities in contemporary life in postindustrial capitalism. In doing so it offers new insights into how tourist women express

heterosexuality shaped by gender, race, class, and identities.

The Sexuality of Migration - Lionel Cantu
2009-02

Winner of the 2010 Distinguished Book Award from the American Sociological Association, Sociology of Sexualities Section Winner of the 2010 Distinguished Book Award in Latino Studies Honorable Mention from the Latin American Studies Association The Sexuality of Migration provides an innovative study of the experiences of Mexican men who have same sex with men and who have migrated to the United States. Until recently, immigration scholars have left out the experiences of gays and lesbians. In fact, the topic of sexuality has only recently been addressed in the literature on immigration. The

Sexuality of Migration makes significant connections among sexuality, state institutions, and global economic relations. Cantú; situates his analysis within the history of Mexican immigration and offers a broad understanding of diverse migratory experiences ranging from recent gay asylum seekers to an assessment of gay tourism in Mexico. Cantú uses a variety of methods including archival research, interviews, and ethnographic research to explore the range of experiences of Mexican men who have sex with men and the political economy of sexuality and immigration. His primary research site is the greater Los Angeles area, where he interviewed many immigrant men and participated in organizations and community activities alongside his informants. Sure to fill gaps in the field, *The Sexuality of Migration* simultaneously complicates a fixed notion of sexual identity and explores the complex factors that influence immigration and migration experiences.

Entry Denied - Eithne Luibhéid 2002

Lesbians, prostitutes, women likely to have sex across racial lines, "brought to the United States for immoral purposes, " or "arriving in a state of pregnancy" -- national threats, one and all. Since the late nineteenth century, immigrant women's sexuality has been viewed as a threat to national security, to be contained through strict border-monitoring practices. By scrutinizing this policy, its origins, and its application, Eithne Luibheid shows how the U.S. border became a site not just for controlling female sexuality but also for contesting, constructing, and renegotiating sexual identity. Initially targeting Chinese women, immigration control based on sexuality rapidly expanded to encompass every woman who sought entry to the United States. The particular cases Luibheid examines -- efforts to differentiate Chinese prostitutes from wives, the 1920s exclusion of Japanese wives to reduce the Japanese-American birthrate, the deportation of a Mexican woman on charges of lesbianism, the

role of rape in mediating women's border crossings today -- challenge conventional accounts that attribute exclusion solely to prejudice or lack of information. This innovative work clearly links sexuality-based immigration exclusion to a dominant nationalism premised on sexual, gender, racial, and class hierarchies.

Border Bodies - Bernadine Marie Hernández

"In this study of sex, gender, sexual violence, and power along the border, Bernadine Hernández brings to light under-heard stories of women who lived in a critical era of American history. Border Bodies - Bernadine Marie Hernández
2022-03-10

In this study of sex, gender, sexual violence, and power along the border, Bernadine Marie Hernández brings to light under-heard stories of women who lived in a critical era of American history. Elaborating on the concept of sexual capital, she uses little-known newspapers and periodicals, letters, testimonios, court cases, short stories, and photographs to reveal how sex, violence, and capital conspired to govern not only women's bodies but their role in the changing American Southwest. Hernández focuses on a time when the borderlands saw a rapid influx of white settlers who encountered elite landholding Californios, Hispanos, and Tejanos. Sex was inseparable from power in the borderlands, and women were integral to the stabilization of that power. In drawing these stories from the archive, Hernández illuminates contemporary ideas of sexuality through the lens of the borderland's history of expansionist, violent, and gendered conquest. By extension, Hernández argues that Mexicana,

Border-Line Personalities - Michelle Herrera Mulligan 2009-03-17

A collection of essays from some of the best writers in America, about what it means to be a fully functional, and sometimes fully dysfunctional, 21st-century, born-in-the-USA Latina Tired of the trite cultural clichés by which the media has defined Latinas, the editors of this collection of personal essays by both established and emerging authors, have gathered them with the intention of representing their varied experiences, through hilarious anecdotes from each of their colorful lives. While there is no one Latina identity, the editors believe that by offering a glimpse into these writers' dynamic lives, they will facilitate a better understanding of their unique challenges and their dreams, and most important, their oftentimes shared

histories. The contributors to this collection mirror the compassionate pleas Latinas usually reserve for each other over conversations in dark bars and late night gatherings. "Do they have to think that just because I'm a Latina that I can speak Spanish, curl my hair, paint my toe nails, and dance a rumba--all at the same time?" This, along with other interesting questions, results in a spectacular line up that has Latinas musing on their battling the world, the men that have done them wrong, and of course the mothers who, more often than not, just never understood that their daughters were more Americanas than not.

Love in the Drug War - Sarah Luna 2020-04-14
Sex, drugs, religion, and love are potent combinations in la zona, a regulated prostitution zone in the city of Reynosa, across the border from Hidalgo, Texas. Mexico to Reynosa to become sex workers and American missionaries who moved from the United States to forge a fellowship with those workers. Luna examines the entanglements, both intimate and financial, that define their lives. Using the concept of *obligar*, she delves into the connections that tie sex workers to their families, their clients, their pimps, the missionaries, and the drug dealers—and to the guilt, power, and comfort of faith. Love in the

Drug War scrutinizes not only la zona and the people who work to survive there, but also Reynosa itself—including the influences of the United States—adding nuance and new understanding to the current US-Mexico border crisis.
