THE INDIAN SOCIETY: Thoughts on our Past, Present and Future from Advaita Vedanta Subhash Chandra Gahlawat 2020-07-13 From the time of 19th century, British employed people passing out from Oxford and Cambridge University to study the thousands of year old Sanskrit texts

of India and interpret them in a way that the Indian people never become one. Inspired by the new set of values and might of British Empire these people, also considered as Orientalist, started the work of reading Sanskrit texts and present them in a way which makes people feel that British ways are better than those scriptures. While the prime aim of these interpretations was to hide the robbery of Indian resources, some considered it as reality and helped the British. This help became so vital for the British that a nation which was considered as the golden bird (सुवर्ण पक्षी) on earth and even after centuries of invasions and loot still contributing 20-24% of world GDP became one of the poorest nations of the world contributing 1-2% of world GDP with frequent incidents of riots, famine etc. Somewhere one orientalist identified it and in his old age realized that he wasted all his life and knowledge in just showing that the 3,000 year-old Indian Scriptures (as per his idea on the date though they are even older) are inferior to present British knowledge system. The name of this orientalist was Max Muller and he tried to reverse the damage by sharing the need of Indian Knowledge system in those texts to make our inner life perfect, more comprehensive and universal. But the damage was already done and in the last 150 years, many Muller's of a young age are produced by our education system instead of Muller's who turned wise. Therefore, to throw better light on Indian Society which was missed by Orientalist and present-day young Muller's, this book is developed by using the philosophy of Jagadguru Adi Shankracharya, i.e. philosophy of Advaita Vedanta, which forces us to look for knowledge which is inside human rather than what knowledge a man possesses. It is considered as the true form of Vidya and under present circumstances, it is the most vital need of Indian Society, especially our Administrators who are supposed to serve the people of India as an Iron Pillar. It is vital that they know about the past, present and future of Indian Society and serves it with excellence, as Krishna said, "एकता एव ब्रह्म", i.e. Unity (or

Gendered Spaces Daphne Spain 2000-11-09 In hundreds of businesses, secretaries -- usually women -- do clerical work in "open floor" settings while managers -- usually men -- work and make decisions behind closed doors. According to Daphne Spain, this arrangement is but one example of the ways in which physical segregation has reinforced women's inequality. In this important new book, Spain shows how the physical and symbolic barriers that separate women and men in the office, at home, and at school block women's access to the socially valued knowledge that enhances status. Spain looks at first at how nonindustrial societies have separated or integrated men and women. Focusing then on one major advanced industrial society, the United States, Spain examines changes in spatial arrangements that have taken place since the mid-nineteenth century and considers the ways in which women's status is associated with those changes. As divisions within the middle-class home have diminished, for example, women have gained the right to vote and control property. At colleges and universities, the progressive integration of the sexes has given women students greater access to resources and thus more career options. In the workplace, however, the traditional patterns of segregation still predominate. Illustrated with floor plans and apt pictures of homes, schools, and work sites, and replete with historical examples, *Gendered Spaces* exposes the previously invisible spaces in which daily gender segregation has occurred -- and still occurs.

Moving for Marriage Shruti Chaudhry 2021-10-01 Shortlisted for the 2023 BASAS Book Prize presented by British Association for South Asian Studies Based on ethnographic fieldwork in a village in the north Indian state of Uttar Pradesh, Moving for Marriage compares the lived experiences of women in "regional" marriages (that conform to caste and community norms within a relatively short distance) with women in "cross-regional" marriages (that traverse caste, linguistic, and state boundaries and entail long-distance migration within India). By demonstrating how geographic distance and regional origins make a difference in these women's experiences, Shruti Chaudhry challenges stereotypes and moral panics about cross-regional brides who are brought from far away. Indeed, Moving for Marriage highlights the ways in which the post-marital experiences of both categories of wives in this study—their work and social relationships, their sexual lives and childbearing decisions, and their ability to access support in everyday contexts and in the event of marital distress—are shaped by factors such as caste, class/poverty, religion, and stage in the life-course. In focusing on this Global South context, Chaudhry makes novel arguments about the development of intimacy within marriages that are inherently unequal and even violent, thereby offering an alternative to Euro-American understandings of intimacy and women's agency.

Sex Ratio Patterns in the Indian Population Satish Balram Agnihotri 2000-05-15 In this unique book, Dr Agnihotri provides an entirely fresh perspective on the perplexing puzzle of the low and declining proportion of women in the Indian population—927 to 1000—strikingly below the world average of 990 to 1000. The analytical backdrop of the study draws substantially from Amartya Sen`s entitlement framework, cooperative conflict model and capabilities approach to well being. Tracing out the contours of low and high FMR, the study identifies groups (scheduled castes), regions (north-western India) and economic/cultural factors (female work force participation/kinship) that particularly put the girl child at risk as also maps underdeveloped regions which are characterised by high male infant mortality.

LIFE SCUFFLES OF SLUM DWELLERS A geographic Study of Gurgaon Dr. Virender Singh
2020-11-12 1.1 General Background The word 'slum' has a slangy connotation in British society from where this word is thought to be originated. In the eastern end of London, this word means 'room,' and it evolved over time to mean 'back slum' giving the sense of 'back alley, street of poor people' (Etymological Dictionary). The Slum is variously named, often interchangeably used, in different parts of the globe viz. shanty town, favela, rookery, gecekondu, skid row, barrio, ghetto, bidonville, taudis, bandas de miseria, barrio marginal, morro, loteamento, barraca, musseque, tugurio, solares, mudun safi, karyan, medina achouaia, brarek, ishash, galoos, tanake, baladi, trushebi, chalis, katras, zopadpattis, bustee, estero, looban, dagatan, umjondolo, watta, udukku, and chereka bete (UN-Habitat, 2003). Below are some of the definitions of slum given by some eminent social scientists working in the field of slums. Merriam Websters' American Dictionary defines slums as "a densely populated usually urban area marked by crowding, dirty run-down housing, poverty, and social disorganization" whereas the Oxford Dictionary defines slums to be a "squalid and overcrowded urban street or district inhabited by very poor people" and it also tells that the slums consists of type of "houses or buildings unfit for human habitation". A Gender Atlas of India Radha Kumar 2018 *A Gender Atlas of India* is a seminal body of work which comprehensively maps and grades India's performance from 2001 to 2016 on issues of concern for women. Taking into account 8 overall indicators and 28 sub-indicators, it looks at how India is performing on various aspects, including sex ratio, women's education, employment, health, political participation and representation; and prevention of crimes against women. Unlike previous attempts, this book examines the change in India's performance over a 15-year period, compares the situation of women in India to that in its neighborhood and internationally, and rates each Indian state and union territory individually. The findings in this book are both provocative and incentivizing for policymakers--they show that where the central and state governments share concerns India's performance on gender has improved, but where they diverge women's condition has deteriorated even further.

research in courtrooms, community, and kinship spaces, the author outlines the transformations in material culture and political economy that have led to renewed negotiations on the institution of marriage in North India, especially in legal spaces. Tracing organically evolving notions of sexual consent and legal subjectivity, *Courting Desire* underlines how non-normative decisions regarding marriage become possible in a region otherwise known for high instances of honor killings and rigid kinship structures. Aspirations for consensual relationships have led to a tentative attempt to forge relationships that are non-normative but grudgingly approved after state intervention. The book traces this nascent and under-explored trend in the North Indian landscape.
