No, forgiveness doesn't mean that you condone what they did to harm you. What it actually means is that you no longer have to be burdened by that hurt. Until you forgive them, they'll be occupying space in your mind period. Don't let them live in your head rent-free like that! They're taking up space that you could devote to something nourishing like your friendships or getting to know someone new. Let yourself have whatever feelings you do and try to let them move through you. It's normal to feel angry or depressed or hopeless at times. When the feelings come, see if you can feel them and move on. It's healthy and normal to have big feelings after a breakup. When you're ready, open yourself up to new relationships. It may take a bit of time or it may not. It can sometimes be a mistake to get into another relationship immediately following a breakup. But we won't judge! You shouldn't feel bad for looking for another partner right away nor should you feel pressured into entering another relationship before you're ready.

Getting Played - Mohosho Pofane 2021-01-04

Bob Marley once said the biggest coward is a man who awakens a woman's love with no intention of marrying her. But what about a woman who awakens a man's love with intentions of marrying him? Well, that's a topic for another book! Love is a beautiful thing. It's a risk that most of us take over and over again with the hope of finding the perfect partner whom we're willing to spend the rest of our lives with. Someone who will make the love journey worthwhile. While we're searching, we end up in toxic situations, being played or ghosted, as a result end up looking at the whole notion of love differently. Some people give in to the cruelty and play the game too, while others keep hoping for a good partner on try over and over again. It's often said that the world does not reward those who play by the rules (which is arguably true), so wouldn't it be great if we knew the difference between people who come to us to

play and those who come with genuinely good intentions? We all know the feeling of being played in dating. You were misled by someone who seemed to be into you. There were no warning signs that someone was about to flip the script but just as you were letting your guard down and starting to get excited about the promise of a long term relationship, the person you were dating totally flakes. They pull away. They dump you. They ghost. At the end of the day leaving you feeling like a fool for believing in something that clearly was not real. So how can we avoid getting played or made to feel like a fool in dating? First understand what it means when someone plays you. Essentially they have tricked you into giving up something that you would normally never give up unless you were guaranteed to get something in turn. This could be sexy time, money, time, or intimacy. But a player makes you believe in the promise of a return on your investment. They make you feel like you can trust them, when in fact they are completely untrustworthy. Thing is, most girls secretly wish they had a male best friend. One who would tell them all about boys, their conversations, their daily plans about women, everything. However, those are rare to find because under normal circumstances, your male best friend is only hanging around because he's patiently hoping that one day you'll give in and he'll hit it. That's if the two of you haven't made that 'mistake' already. It's through our friends of opposite the sex that we get the kind of information contained in this book. Although most content in this book is more oriented to the females: take this book as your companion who is not patiently waiting to sleep with you. After all, it is the ultimate guide to a healthy relationship. All I'm saying is, we need to start treating others like we'd want them to treat us. We need to have compassion and respect for the feelings of others. When I wrote this book, I thought of all the people who are going to fall victims to someone who behaves the way my friends and I did long ago. I thought to myself, "what if it's my own daughter?", what if it's my nephew or someone I love?" Then I decided that since I may not be there to guide them or give them a little pep talk about men, I might as well write a book, something they can keep referring to every time things get out of control. I'm not saying the book will completely

help, but it's always good to know the truth, the decision is always yours!
Enjoy

Are you guilty of ignoring the signs? Not sure if your relationship is growing into a mighty oak or dying on the vine? Thinking about calling it quits, but you're not convinced it's a terrible mistake that will leave you crying into a bathtub of ice cream? Just plain confused about where it's all going? Broken Love: Stop Ignoring the Signs Your Relationship Is Likely Over teaches any nervous lover how to recognize "relationship

rot," and what you can do once your significant other has passed their expiration date. There are dozens (if not hundreds) of subtle cues telling you when it's time to pack your stuff (or to update your online dating profile). Is the most stressful moment in your day the second you put your keys in the door after work, because you know your hubby, girlfriend, or live-in sexbunny is going to shoot a rocket-launcher full of drama at your face the moment the door opens? Do you notice that every single time they talk about their future, your name doesn't seem to come up very much? Have you been feeling a sour sinking sensation in your stomach, like you just ate a whole turkey stuffed with sour candy? These markers are just a few of the road signs on the way to Break-Up City. Still not sure if it's over? Then it's time to pick up this book and find out - let author Joshua Michaels be the microscope you slide over your semi-functional relationship. Don't be afraid of reality, but make sure you're actually seeing it.
