The 48 Laws of Power - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Contract, Status, and Fiduciary Law - Paul B. Miller 2016

Bringing together leading theorists to analyse critically important philosophical questions at the intersection of contract and fiduciary law, this book demonstrates that the popular characterisations of the relationship between them are overly simplistic. By considering how both laws interact, and not just how they differ, it offers new insights into a range of topics including status relationships, voluntary undertakings and duties of loyalty.

Excellence in Ministry - Michael L. Sherer 1987-01-01

**Excellence in Ministry** - Robb Thompson 2003

Why am I here? Is there a purpose for my life? Are these questions stirring within you? Dr. Robb Thompson has discovered a dynamic key that will revolutionize your life: 'The single most important factor that defines your future is the relationships you embrace.' This book will enable you to recognize the right relationships that will unlock the door to your purpose and your future!

Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2 - SK Jindal 2011-01-31

This book published in two volumes. Both volume divided in twenty three sections, all sections and chapters are most important. The Textbook of Pulmonary and Critical Care Medicine also offers a unique exposure to

the problems in many parts of the world. Tuberculosis, the “number one” treatable condition has been extensively covered; and special topics such as multi-drug resistance, directly observed therapy, TB prevention, nonpharmacologic approaches and extrapulmonary tuberculosis are particularly relevant. Many countries are facing a growing burden of noncommunicable respiratory diseases. They have become the second leading cause of death after injuries, and their impact on indirect costs such as loss of work and home productivity is enormous. These problems are addressed and measures of prevention such as smoking cessation are included. Other special challenges including topics such as indoor and outdoor air pollution, climate change, poisoning with pesticides, snakebite toxicity, pulmonary manifestations of tropical infections and industrial accidents such as the tragedy seen in Bhopal, Madhya Pradesh, with methyl isocyanate, have been well covered. However, as globalization flattens the playing field, and countries leap to industrialization, cultural beliefs, natural resources, climate and geography have slowed the pace of development in many parts of the world. Poverty leads to malnutrition, homelessness, lack of education, and poor access to health care. Overcrowded cities and rural underdevelopment are other challenges that impact health in the various parts of the world. Moreover, epidemics of HIV, drug abuse and smoking addiction take a greater toll on the population. Yes, the world is flat, but the terrain is filled with mountains and valleys and local problems demand local solutions. And these local problems need to be explored and presented with a scholarly perspective. The Textbook of Pulmonary and Critical Care Medicine has successfully incorporated these sociodemographic factors into the subject matter. The text is well-written and the chapters are carefully referenced with subjects found in all traditional pulmonary and critical care textbooks, e.g. airway diseases, interstitial lung disease, pleural disease, pulmonary neoplasia, pulmonary infection, sleep and critical care. There are several nontraditional sections as well that are practical and especially helpful to the practicing physician. These include a section on the symptom approach to lung disease, an overview of the pharmacologic agents used to treat lung disease, and a comprehensive review of methods in lung diagnosis from the simple history and physical examination to the latest complex tools of interventional pulmonology. The textbook is especially unique because of the abundance of illustrations, flow charts and tables. There are many radiographic and pathologic reproductions that are especially helpful.

*Criticality in neural network behavior and its implications for computational processing in healthy and perturbed conditions* - Axel Sandvig 2023-02-03

*Persuade* - Scott Hogle 2018-01-01

Becoming successful in business requires that you win with others relationally before you can persuade them financially. It is not enough to sell your product - you must sell yourself. Customers must buy what you are saying before they buy what you are selling. *Persuade* is a success playbook filled with skills that will help you connect quicker, communicate confidently, and close more sales. But *Persuade* is not your typical business book. It is filled with stories of life and love, family and friends, and success strategies that will help you serve more, sell more, and succeed more.

If your success is dependent on your ability to build relationships and increase revenue, you will find this book invaluable. *Persuade* will help you grow in your confidence to communicate, connect, and successfully persuade customers through the stages of the sale.

Top salespeople become the best because they learn from the best. The author includes insightful intelligence from sellers and executives at Facebook, Google, iHeart Radio, Amazon, New York Life, Hawaiian Airlines, Dell EMC, Microsoft Xbox, Clear Channel Airports, and Zillow who share stories & case studies on how they deploy the powers of persuasion discovered in *Persuade*.
