Book Review Digest - 1978

Excerpts from and citations to reviews of more than 8,000 books each year, drawn from coverage of 109 publications. Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language. Reviews of the following types of books are excluded: government publications, textbooks, and technical books in the sciences and law. Reviews of books on science for the general reader, however, are included. The reviews originate in a group of selected periodicals in the humanities, social sciences, and general science published in the United States, Canada, and Great Britain. - Publisher.

Sexuality and the Elderly - Bonnie L. Walker 1997-05-12

This literature review was undertaken in order to determine what caregivers needed to know about elderly sexuality, to determine the needs of elderly people related to their sexuality, and to determine how caregivers could best assist them in meeting those needs. In selecting materials to be annotated for this book, the first priority was given to empirical studies. Also included were articles by prominent practitioners and researchers interested in elderly sexuality, literature reviews, and books written for the lay population which are often cited in the professional literature. In addition to seeking knowledge about elderly sexuality and understanding attitudes about sexuality, this literature review sought information about measurement issues and measurement instruments frequently used in research within elderly populations. Also of interest were investigations of educational and training programs involving caregivers.

Psychological Experiments on the Internet - Michael H. Birnbaum 2000-04-18

Until recently, most psychological research was conducted using subject samples in close proximity to the investigators--namely university undergraduates. In recent years, however, it has become possible to test people from all over the world by placing experiments on the internet. The number of people using the internet for this purpose is likely to become the main venue for subject pools in coming years. As such, learning about experiments on the internet will be of vital interest to all research psychologists. *Psychological Experiments on the Internet* is divided into three sections. Section I discusses the history of web experimentation, as well as the advantages, disadvantages, and validity of web-based psychological research. Section II discusses examples of web-based experiments on individual differences and cross-cultural studies. Section III provides readers with the necessary information and techniques for utilizing the internet in their own research designs. Innovative topic that will capture the imagination of many readers. Includes examples of actual web based experiments

Women's Minds/women's Bodies - Joan H. Rollins 1996

Women's Minds/Women's Bodies: The Psychology of Women in a Biosocial Context by Joan H. Rollins is a scholarly yet intriguingly readable new book that integrates pertinent material from psychology, sociology, biology, economics, and political science to the psychology of women within a feminist empiricist framework. Comprehensive and interdisciplinary, *Women's Minds/Women's Bodies* provides a balanced presentation of the broad spectrum of theory and research in the subject area no matter how controversial. Treated holistically, the subject matter illustrates how the topics presented have relevance and meaning for the challenges women face in today's world while experiential accounts of individual women throughout the book are used to complete and humanize the picture painted by quantitative data.

The Love Surgeon - Sarah B. Rodriguez 2020-07-17

Dr. James Burt believed women's bodies were broken, and only he could fix them. In the 1950s, this Ohio OB-GYN developed what he called "love surgery," a unique procedure he maintained enhanced the sexual

responses of a new mother, transforming her into "a horny little house mouse." Burt did so without first getting the consent of his patients. Yet he was allowed to practice for over thirty years, mutilating hundreds of women in the process. It would be easy to dismiss Dr. Burt as a monstrous aberration, a modern-day Dr. Frankenstein. Yet as medical historian Sarah Rodriguez reveals, that's not the whole story. *The Love Surgeon* asks tough questions about Burt's heinous acts and what they reveal about the failures of the medical establishment: How was he able to perform an untested surgical procedure? Why wasn't he obliged to get informed consent from his patients? And why did it take his peers so long to take action? *The Love Surgeon* is both a medical horror story and a cautionary tale about the limits of professional self-regulation.

Immortal Films - Barbara Klinger 2022-11-15

Casablanca is one of the most celebrated Hollywood films of all time, its iconic romance enshrined in collective memory across generations. Drawing from archival materials, industry trade journals, and cultural commentary, Barbara Klinger explores the history of *Casablanca*'s circulation in the United States from the early 1940s to the present by examining its exhibition via radio, repertory houses, television, and video. By resituating the film in the dynamically changing industrial, technological, and cultural circumstances that have defined its journey over eight decades, Klinger challenges our understanding of its meaning and reputation as both a Hollywood classic and a cult film. Through this single-film survey, *Immortal Films* proposes a new approach to the study of film history and aesthetics and, more broadly, to cinema itself as a medium in constant interface with other media as a necessary condition of its own public existence and endurance.
