Women in Jamaican Music -

Heather Augustyn 2020-05-21

As the ubiquitous Jamaican musician Bob Marley once famously sang, "half the story has never been told." This rings

particularly true for the little-known women in Jamaican music who comprise significantly less than half of the Caribbean nation's musical landscape. This book covers

the female contribution to Jamaican music and its subgenres through dozens of interviews with vocalists, instrumentalists, bandleaders, producers, deejays and supporters of the arts. Relegated to marginalized spaces, these pioneering women fought for their claim to the spotlight amid oppressive conditions to help create and shape Jamaica's musical heritage.

The True History of

Paradise - Margaret Cezair-Thompson 2010-11-25

From the acclaimed author of *THE PIRATE'S DAUGHTER* comes a story of three women born into the divided, troubled paradise of Jamaica. Easter, 1981. With Jamaica in a state of emergency, the Landing family gathers to bury one of its own. For Monica Landing, who had not spoken to her daughter for fifteen years, the death of Lana is the cruellest kind of loss. For Lana's youngest sister, Jean, it is an incomprehensible tragedy. All she knows is that her beloved homeland holds no future for

her. But flight means crossing a landscape where soldiers turned executioners and armed gangs rule. It means making her way through the memories that engulf her, with perhaps the only man she has ever loved by her side. *THE TRUE HISTORY OF PARADISE* captures the grace, beauty and brutality that are indelible parts of the Jamaican experience.

Family Structure in Jamaica

- Judith Blake 1980

This book illustrates the connections among innovation, policy and law and shows the ways in which the law can work as a key instrument of innovation policy. A cross-disciplinary study, it considers the ways in which the law has accommodated innovation, and the ways in which a legal framework for facilitating and managing new technologies has developed. As well as canvassing broad theoretical issues, the book presents a number of case studies relating to intellectual property, competition and trade and government sponsorship and

entrepreneurship. Innovation, Policy and Law examines issues in public and industrial policy from the viewpoint of legal studies. It will therefore be of interest to readers in science and technology studies as well as legal professionals and those in government, the public sector and industry.

Jane's Career - Herbert George De Lisser 1971

The first West Indian novel to feature a Black protagonist, de Lisser captures the hope and struggle of a young woman leaving home for the first time. "Jane," he continued impressively after a pause, "Kingston is a very big an' wicked city, an' a young girl like you, who de Lord has blessed wid a good figure an' a face, must be careful not to keep bad company." Preparing to send young Jane off to the Jamaican capital, village elder Daddy Buckram attempts to offer her advice on how to keep herself safe from Satan and sinners alike. Despite his serious tone and gloomy portrait of urban life, all Jane can think of is the wonder and

excitement waiting for her in Kingston. Raised in the countryside, brought up in a conservative Christian family, Jane sees her new job as a means of achieving independence and establishing her own identity as a proud black woman, of forging her own path in a new, modern Jamaica. In spite of her dreams, however, Jane finds herself subjected to the cruelties of her employer Mrs. Mason, who threatens to send a letter to her parents alleging all sorts of imagined misdeeds. Through it all, she tries to maintain a sense of pride, hopeful that hard work -- and even romance -- will set her free.

The Last Warner Woman - Kei Miller 2012-03-07

"Miller is a name to watch."-- The Independent "This is magical, lyrical, spellbinding writing."--Granta Adamine Bustamante is born in one of Jamaica's last leper colonies. When Adamine grows up, she discovers she has the gift of "warning": the power to protect, inspire, and terrify.

But when she is sent to live in England, her prophecies of impending disaster are met with a different kind of fear--people think she is insane and lock her away in a mental hospital. Now an older woman, the spirited Adamine wants to tell her story. But she must wrestle for the truth with the mysterious "Mr. Writer Man," who has a tale of his own to share, one that will cast Adamine's life in an entirely new light. In a story about magic and migration, stories and storytelling, and the New and Old Worlds, we discover it is never one person who owns a story or has the right to tell it. Born in Kingston, Jamaica, in 1978, Kei Miller is the author of *The Same Earth*, winner of the Una Marson Prize for Literature; and *Fear of Stones*, which was shortlisted for the Commonwealth Writers' Prize for Best First Book. His most recent poetry collection has been shortlisted for the Jonathan Llewellyn Rhys Prize, the Bocas Prize for Caribbean Literature, and the Scottish Book of the Year Award. In

2008 he was an International Writing Fellow at the University of Iowa. Miller currently divides his time between Jamaica and Scotland.

How to Say Babylon - Safiya Sinclair 2023-10-03

A Read with Jenna Today Show Book Club Pick! With echoes of *Educated* and *Born a Crime*, *How to Say Babylon* is the stunning story of the author's struggle to break free of her rigid Rastafarian upbringing, ruled by her father's strict patriarchal views and repressive control of her childhood, to find her own voice as a woman and poet. Throughout her childhood, Safiya Sinclair's father, a volatile reggae musician and militant adherent to a strict sect of Rastafari, became obsessed with her purity, in particular, with the threat of what Rastas call Babylon, the immoral and corrupting influences of the Western

world outside their home. He worried that womanhood would make Safiya and her sisters morally weak and impure, and believed a woman's highest virtue was her obedience. In an effort to keep Babylon outside the gate, he forbade almost everything. In place of pants, the women in her family were made to wear long skirts and dresses to cover their arms and legs, head wraps to cover their hair, no make-up, no jewelry, no opinions, no friends. Safiya's mother, while loyal to her father, nonetheless gave Safiya and her siblings the gift of books, including poetry, to which Safiya latched on for dear life. And as Safiya watched her mother struggle voicelessly for years under housework and the rigidity of her father's beliefs, she increasingly used her education as a sharp tool with which to find her voice and break free. Inevitably, with her rebellion comes clashes with her father, whose rage and paranoia explodes in increasing violence. As Safiya's voice grows, lyrically and poetically,

a collision course is set between them. How to Say Babylon is Sinclair's reckoning with the culture that initially nourished but ultimately sought to silence her; it is her reckoning with patriarchy and tradition, and the legacy of colonialism in Jamaica. Rich in lyricism and language only a poet could evoke, How to Say Babylon is both a universal story of a woman finding her own power and a unique glimpse into a rarefied world we may know how to name, Rastafari, but one we know little about.

A Girl Called Anne - Melita Samuels 2008-11-12

The book entitled "A Girl Called Anne", is suitable for all ages. While it sets out to be an inspiration to its readers, it manages to capture the imagination and gives an insight into a real Jamaican family life. The story is based on the life of a Jamaican girl, living in rural Jamaica in the

20th century. This touching story tells how unforeseen circumstances and challenges can adversely affect a child's life. As the story unfolds, the reader gets a closer look at family life in rural Jamaica, West Indies, some unfamiliar customs and behaviours that are therefore explained in the Glossary. The story is told through humour, historical facts, childhood memories, love scenes, and some scenes that may cause one to ponder how all these lead eventually to self actualization. Conversely, it is a clear indication of how strength of character, and determination are enabling factors in overcoming challenges and are contributors to happiness and prosperity in the end. "A Girl Called Anne", is a fascinating story which ensures the reader is gripped to the finish. The language is simple and, is easily understood. It is a book that a reader will definitely want to own.

W. Frazier 2010-09-01

Offers important new perspectives on the African diaspora in North America. Drawing on the work of social scientists from geographic, historical, sociological, and political science perspectives, this volume offers new perspectives on the African diaspora in the United States and Canada. It has been approximately four centuries since the first Africans set foot in North America, and although it is impossible for any text to capture the complete Black experience on the continent, the persistent legacy of Black inequality and the winds of dramatic change are inseparable parts of the current African diaspora experience. In addition to comparing and contrasting the experiences and geographic patterns of the African diaspora in the United States and Canada, the book also explores important distinctions between the experiences of African Americans and those of more recent African and Afro-Caribbean immigrants.

My Mother who is Me -

Jacqueline Bishop 2006

Reggae Routes - Kevin O'Brien Chang 1998

Jamaican music can be roughly divided into four eras, each with a distinctive beat - ska, rocksteady, reggae and dancehall. Ska dates from about 1960 to mid-1966, rocksteady from 1966 to 1968, while from 1969 to 1983 reggae was the popular beat. The reggae era had two phases, 'early reggae' up to 1974 and 'roots reggae' up to 1983. Since 1983 dancehall has been the prevalent sound. The authors describe each stage in the development of the music, identifying the most popular songs and artists, highlighting the significant social, political and economic issues as they affected the musical scene. While they write from a Jamaican perspective, the intended audience is 'any person, local or foreign, interested in an intelligent discussion of reggae music and Jamaica.'

Skin-lightening is currently one of the most common forms of potentially harmful body modification practices in the world and African women are among some of the most widely represented users of skin-lightening products. The overall objective of this book is to provide up-to-date evidence-based recommendations for reducing the global burden of cosmetic skin bleaching and preventing injuries related to skin bleaching in sub-Saharan Africa and Africans in diaspora. The book aims to: offer an appraisal of all relevant literature on cosmetic bleaching practices to-date, focusing on any key developments; identify and address important medical, public health issues as well as historical, genetic, psychosocial, cultural, behavioural, socioeconomic, political, institutional and environmental determinants; provide guideline recommendations that would

help attenuate the burden and possibly eliminate the injuries related to skin bleaching; discuss potential developments and future directions.

How to Love a Jamaican -

Alexia Arthurs 2018-08-09

'In this thrilling debut collection Alexia Arthurs is all too easy to love.' - Zadie Smith
Tenderness and cruelty, loyalty and betrayal, ambition and regret - these are the tensions at the heart of Alexia Arthurs' debut book about Jamaican immigrants and their families back home. Some stories ask big questions about the things that define a person, others explode small moments of deep significance and lasting effect. Sweeping from close-knit island communities to the streets of New York City, How to Love a Jamaican offers a portrait of a nation, a people, and a way of life. Vibrant, lyrical and intimate, this collection of eleven short stories shows Alexia Arthurs to be one of the most dynamic and exciting young authors writing today. It includes the story 'Bad Behavior', for which

Rungs on My Ladder -

Eleanor Riley 2021-01-08

This collection of compelling autobiographical scenes in Eleanor Riley's life, encased in her Memoir, "Rungs on My Ladder" speak to the fact that in every human being there is a void that can only be filled by God and brings together a significant tender message of hope, determination and faith from her pen to her readers. Rungs on My Ladder pushes past the baseline expectations of memoir as a genre and creates and celebrates an amalgamation of lucid scenes of Eleanor's life and situates victim-hood as a conduit to triumph over circumstances that would normally break the weak and down trodden. The memoir overflows with the trait that is Eleanor's hallmark...honesty.

Codeswitching on the Web -

Lars Hinrichs 2006-09-28

Based on a corpus of private email from Jamaican university students, this study explores the discourse functions of Jamaican Creole in computer-mediated communication. From this participant-centered perspective, it contributes to the longstanding theoretical debates in creole studies about the creole continuum. The book will likewise be useful to students of computer-mediated communication, the use and development of non-standardized languages, language ecology, and codeswitching. The central methodological issue in this study is codeswitching in written language, a neglected area of study at the moment

since most literature in codeswitching research is based on spoken data. The three analytical chapters present the data in a critical discussion of established and more recent theoretical approaches to codeswitching. Fields that will benefit from this book include interactional sociolinguistics, creole studies, English as a world language, computer-mediated discourse analysis, and linguistic anthropology.

Noises in the Blood - Carolyn Cooper 1995-02-08
The language of Jamaican popular culture—its folklore, idioms, music, poetry, song—even when written is based on a tradition of sound, an orality that has often been denigrated as not worthy of serious study. In *Noises in the Blood*, Carolyn Cooper critically examines the

dismissed discourse of Jamaica's vibrant popular culture and reclaims these cultural forms, both oral and textual, from an undeserved neglect. Cooper's exploration of Jamaican popular culture covers a wide range of topics, including Bob Marley's lyrics, the performance poetry of Louise Bennett, Mikey Smith, and Jean Binta Breeze, Michael Thelwell's novelization of *The Harder They Come*, the Sistren Theater Collective's *Lionheart Gal*, and the vitality of the Jamaican DJ culture. Her analysis of this cultural "noise" conveys the powerful and evocative content of these writers and performers and emphasizes their contribution to an undervalued Caribbean identity. Making the connection between this orality, the feminized Jamaican "mother tongue," and the characterization of this culture as low or coarse or vulgar, she incorporates issues of gender into her postcolonial perspective. Cooper powerfully argues that these contemporary vernacular forms

must be recognized as genuine expressions of Jamaican culture and as expressions of resistance to marginalization, racism, and sexism. With its focus on the continuum of
