

Untangling The Sexual Revolution

Rethinking Our Sexual Ethics

Retelling U.S. Religious History - Thomas A. Tweed 2023-09-01

This collection marks a turning point in the study of the history of American religions. In challenging the dominant paradigm, Thomas A. Tweed and his coauthors propose nothing less than a reshaping of the way that American religious history is understood, studied, and taught. The range of these essays is extraordinary. They analyze sexual pleasure, colonization, gender, and interreligious exchange. The narrators position themselves in a number of geographical sites, including the Canadian border, the American West, and the Deep South. And they discuss a wide range of groups, from Pueblo Indians and Russian Orthodox to Japanese Buddhists and Southern Baptists.

Sourcebook of Family Theory and Research - Vern L. Bengtson 2005

This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research."

Sex, Law and the Politics of Age - Ishita Pande 2020-07-16

An innovative study of the establishment of 'age' as a political category in late colonial India.

Undoing Slavery - Kathleen M. Brown 2023-02

Undoing Slavery excavates cultural, political, medical, and legal history to understand the abolitionist focus on the body on its own terms. Motivated by their conviction that the physical form of the human body was universal and faced with the growing racism of eighteenth- and nineteenth-century science, abolitionists in North America and Britain focused on undoing slavery's harm to the bodies of the enslaved. Their pragmatic focus on restoring the bodily integrity and wellbeing of enslaved people threw up many unexpected challenges. This book explores those challenges. Slavery exploited the bodies of men and women differently: enslaved

women needed to be acknowledged as mothers rather than as reproducers of slave property, and enslaved men needed to claim full adult personhood without triggering white fears about their access to male privilege. Slavery's undoing became more fraught by the 1850s, moreover, as federal Fugitive Slave Law and racist medicine converged. The reach of the federal government across the borders of free states and theories about innate racial difference collapsed the distinctions between enslaved and emancipated people of African descent, making militant action necessary. Escaping to so-called "free" jurisdictions, refugees from slavery demonstrated that a person could leave the life of slavery behind. But leaving behind the enslaved body, the fleshy archive of trauma and injury, proved impossible. Bodies damaged by slavery needed urgent physical care as well as access to medical knowledge untainted by racist science. As the campaign to end slavery revealed, legal rights alone, while necessary, were not sufficient either to protect or heal the bodies of African-descended people from the consequences of slavery and racism.

Ethics - Michel Foucault 2000

Volume 1 in the ESSENTIAL WORKS OF FOUCAULT series and originally published by Allen Lane in 1997, a collection of articles, interviews and lectures on the subject of ethics, written by the twentieth century French philosopher, Michel Foucault and translated into English.

[Straight](#) - Hanne Blank 2012-01-31

It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how

Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, Straight provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

Data Feminism - Catherine D'Ignazio 2020-03-17

A new way of thinking about data science and data ethics that is informed by the ideas of intersectional feminism. Today, data science is a form of power. It has been used to expose injustice, improve health outcomes, and topple governments. But it has also been used to discriminate, police, and surveil. This potential for good, on the one hand, and harm, on the other, makes it essential to ask: Data science by whom? Data science for whom? Data science with whose interests in mind? The narratives around big data and data science are overwhelmingly white, male, and techno-heroic. In *Data Feminism*, Catherine D'Ignazio and Lauren Klein present a new way of thinking about data science and data ethics—one that is informed by intersectional feminist thought. Illustrating data feminism in action, D'Ignazio and Klein show how challenges to the male/female binary can help challenge other hierarchical (and empirically wrong) classification systems. They explain how, for example, an understanding of emotion can expand our ideas about effective data visualization, and how the concept of invisible labor can expose the significant human efforts required by our automated systems. And they show why the data never, ever “speak for themselves.” *Data Feminism* offers strategies for data scientists seeking to learn how feminism can help them work toward justice, and for feminists who want to focus their efforts on the growing field of data science. But *Data Feminism* is about much more than gender. It is about power, about who has it and who doesn't, and about how those differentials of power can be challenged and changed.

The Gender Knot - Johnson 2007-09

Sport, Gender and Development - Lyndsay M.C. Hayhurst 2021-12-10

The ebook edition of this title is Open Access, thanks to Knowledge Unlatched funding, and freely available to read online. *Sport, Gender and Development* brings together an exploration of sport feminisms to offer new approaches to research on Sport for Development and Peace (SDP) in global and local contexts.

Undoing Gender - Judith Butler 2004-10-22

Undoing Gender constitutes Judith Butler's recent reflections on gender and sexuality, focusing on new kinship, psychoanalysis and the incest taboo, transgender, intersex, diagnostic categories, social violence, and the tasks of social transformation. In terms that draw from feminist and queer theory, Butler considers the norms that govern—and fail to govern—gender and sexuality as they relate to the constraints on recognizable personhood. The book constitutes a reconsideration of her earlier view on gender performativity from *Gender Trouble*. In this work, the critique of gender norms is clearly situated within the framework of human persistence and survival. And to “do” one's gender in certain ways sometimes implies “undoing” dominant notions of personhood. She writes about the “New Gender Politics” that has emerged in recent years, a combination of movements concerned with transgender, transsexuality, intersex, and their complex relations to feminist and queer theory.

Gender Trouble - Judith Butler 2011-09-22

Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as “performativity theory,” as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

Animals in Our Midst: The Challenges of Co-existing with Animals in the Anthropocene - Bernice Bovenkerk 2021-04-29

This Open Access book brings together authoritative voices in animal and environmental ethics, who address the many different facets of changing human-animal relationships in the Anthropocene. As we are living in complex

times, the issue of how to establish meaningful relationships with other animals under Anthropocene conditions needs to be approached from a multitude of angles. This book offers the reader insight into the different discussions that exist around the topics of how we should understand animal agency, how we could take animal agency seriously in farms, urban areas and the wild, and what technologies are appropriate and morally desirable to use regarding animals. This book is of interest to both animal studies scholars and environmental ethics scholars, as well as to practitioners working with animals, such as wildlife managers, zookeepers, and conservation biologists.

Tongue Tied - Stella Harris 2018-09-11

You can't get what you unless you ask for it! "My favorite thing when I'm working with clients is when their eyes go wide with the 'ah-ha' moment that they really can have the sex life of their dreams. It's my hope that with this book, you can as well."--Stella Harris Sex is still a touchy subject despite recent sex-positive advances. We live in a culture that vilifies people who are sexually adventurous and frames our kinks as shame-inducing perversions. Many people have never been able to talk openly about sex with their partner(s). But, you can get what you want out of the bedroom--if you ask for it. Why should anyone settle for mediocre sex?! Whether addressing sexual frustration with your partner, trying out new fantasies, or negotiating the terms of a BDSM scene, Stella Harris believes that communication skills are vital to sexual fulfillment. *Tongue Tied* gives readers straightforward advice on how to conquer their fears, identify their needs, and feel positively empowered. Harris charmingly takes readers through all aspects of communication, from basic interpersonal skills to negotiation advice for expert-level kink play. Learn how to have fun, embrace silly moments, support your loved ones, and take personal responsibility for your desires. An incredible guide full of exercises, tools, and personal examples, *Tongue Tied* is a must-read for people of every experience level and relationship status.

Recapture the Rapture - Jamie Wheal 2021-04-27

"A highly personal, richly informed and culturally wide-ranging meditation on the loss of

meaning in our times and on pathways to rediscovering it." —Gabor Maté, MD, author of *In The Realm of Hungry Ghosts: Close Encounters With Addiction* A neuroanthropologist maps out a revolutionary new practice—Hedonic Engineering—that combines the best of neuroscience and optimal psychology. It's an intensive program of breathing, movement, and sexuality that mends trauma, heightens inspiration and tightens connections—helping us wake up, grow up, and show up for a world that needs us all. This is a book about a big idea. And the idea is this: Slowly over the past few decades, and now suddenly, all at once, we're suffering from a collapse in Meaning. Fundamentalism and nihilism are filling that vacuum, with consequences that affect us all. In a world that needs us at our best, diseases of despair, tribalism, and disaster fatigue are leaving us at our worst. It's vital that we regain control of the stories we're telling because they are shaping the future we're creating. To do that, we have to remember our deepest inspiration, heal our pain and apathy, and connect to each other like never before. If we can do that, we've got a shot at solving the big problems we face. And if we can't? Well, the dustbin of history has swallowed civilizations older and fancier than ours. This book is divided into three parts. The first, *Choose Your Own Apocalypse*, takes a look at our current Meaning Crisis--where we are today, why it's so hard to make sense of the world, what might be coming next, and what to do about it. It also makes a case that many of our efforts to cope, whether anxiety and denial, or tribalism and identity politics, are likely making things worse. The middle section, *The Alchemist Cookbook*, applies the creative firm IDEO's design thinking to the Meaning Crisis. This is where the book gets hands on--taking a look at the strongest evolutionary drivers that can bring about inspiration, healing, and connection. From breathing, to movement, sexuality, music, and substances--these are the everyday tools to help us wake up, grow up, and show up. AKA--how to blow yourself sky high with household materials. And the best part? They're accessible, by anyone anywhere, no middleman required. Transcendence democratized. The final third of the book, *Ethical Cult Building*, focuses on the

tricky nature of putting these kinds of experiences into gear and into culture—because, anytime in the past when we've figured out combinations of peak states and deep healing, we've almost always ended up with problematic culty communities. Playing with fire has left a lot of people burned. This section lays out a roadmap for sparking a thousand fires around the world--each one unique and tailored to the needs and values of its participants. Think of it as an open-source toolkit for building ethical culture. In *Recapture the Rapture*, we're taking radical research out of the extremes and applying it to the mainstream--to the broader social problem of healing, believing, and belonging. It's providing answers to the questions we face: how to replace blind faith with direct experience, how to move from broken to whole, and how to cure isolation with connection. Said even more plainly, it shows us how to revitalize our bodies, boost our creativity, rekindle our relationships, and answer once and for all the questions of why we are here and what do we do now? In a world that needs the best of us from the rest of us, this is a book that shows us how to get it done.

The Rights of Women - Erika Bachiochi
2021-07-15

Erika Bachiochi offers an original look at the development of feminism in the United States, advancing a vision of rights that rests upon our responsibilities to others. In *The Rights of Women*, Erika Bachiochi explores the development of feminist thought in the United States. Inspired by the writings of Mary Wollstonecraft, Bachiochi presents the intellectual history of a lost vision of women's rights, seamlessly weaving philosophical insight, biographical portraits, and constitutional law to showcase the once predominant view that our rights properly rest upon our concrete responsibilities to God, self, family, and community. Bachiochi proposes a philosophical and legal framework for rights that builds on the communitarian tradition of feminist thought as seen in the work of Elizabeth Fox-Genovese and Jean Bethke Elshtain. Drawing on the insight of prominent figures such as Sarah Grimké, Frances Willard, Florence Kelley, Betty Friedan, Pauli Murray, Ruth Bader Ginsburg, and Mary Ann Glendon, this book is unique in its treatment

of the moral roots of women's rights in America and its critique of the movement's current trajectory. *The Rights of Women* provides a synthesis of ancient wisdom and modern political insight that locates the family's vital work at the very center of personal and political self-government. Bachiochi demonstrates that when rights are properly understood as a civil and political apparatus born of the natural duties we owe to one another, they make more visible our personal responsibilities and more viable our common life together. This smart and sophisticated application of Wollstonecraft's thought will serve as a guide for how we might better value the culturally essential work of the home and thereby promote authentic personal and political freedom. *The Rights of Women* will interest students and scholars of political theory, gender and women's studies, constitutional law, and all readers interested in women's rights.

Insatiable Wives - David J. Ley 2012-01-16

"This enlightening work investigates the history, incidence, and causes of a unique sexual lifestyle pursued by increasing numbers of couples. The most common terms used to describe it are 'hotwife/cuckold lifestyle.' This sexual practice, a form of sexual nonmonogamy, is distinguished from swinging and polyamory in that the husband rarely seeks sexual contact outside the marriage except for participation in group sex with his wife and other men, while the wife is permitted, and often encouraged, to pursue unrestrained sexual encounters with other men. The author includes interviews and comments from couples living the lifestyle throughout the United States and presents the stories in an attempt to determine the history of this sexual practice and evolutionary underpinnings of this uncommon and socially taboo behavior in an effort to make it more comprehensible to those engaged in the lifestyle and those who are just curious." -- page 4 of cover.

Sexuality and Its Discontents - Jeffrey Weeks
2002-05-03

Few topics evoke so much anxiety and pleasure, pain and hope, discussion and silence as sexuality. Throughout the Christian era it has been a major moral preoccupation. Since the eighteenth century it has also been the focus of 'scientific' exploration and political activity. But, despite this obsessive concern, we are still as

baffled as our predecessors about the 'true' meaning of sex. In this book Jeffrey Weeks unravels the dense web of historical, theoretical and political forces that have culminated in the contemporary crisis of sexual meanings and values. The book begins with a powerful evocation of our present discontents and their potent signs: the rise of the New Right, the retreat of progressive forces and a wave of moral panics around sex. It argues that this crisis is rooted in a tradition which has ascribed an inflated importance to sexuality, whilst claiming a privileged access to truth. The author then examines radical debates of recent years, and asks whether they contain the potentiality for taking us beyond the existing boundaries of sexuality. From this analysis emerges a controversial 'radical pluralist' approach to sexuality built on an acceptance of diversity and choice. By linking our present discontents to a clear understanding of the past, Jeffrey Weeks presents a rational, optimistic and challenging vision of a realizable future.

Re-thinking Sexualities in Africa - Signe Arnfred 2004

"This volume sets out to investigate critically existing lines of thought about sexuality in Africa, while also creating space for alternative approaches"--P. [4] of cover.

The Kaleidoscope of Gender - Catherine G. Valentine 2019-03-07

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. The

Kaleidoscope of Gender: Prisms, Patterns, and Possibilities provides an accessible, timely, and stimulating overview of the cutting-edge literature and theoretical frameworks in sociology and related fields in order to understand the social construction of gender. The kaleidoscope metaphor and its three themes—prisms, patterns, and possibilities—unify topic areas throughout the book. By focusing on the prisms through which gender is shaped, the patterns which gender takes, and the possibilities for social change, the reader gains a deeper understanding of ourselves and our relationships with others, both locally and globally. Editors Catherine Valentine, Mary Nell Trautner, and the work of Joan Spade, focus on the paradigms and approaches to gender studies that are constantly changing and evolving. The Sixth Edition includes incorporation of increased emphasis on global perspectives, updated contemporary social movements, such as #BlackLivesMatter and #MeToo, and an updated focus on gendered violence. Free online resources are available at The SAGE Gender and Sexuality Resource Center. This site is intended to provide you with an array of multimedia resources to enhance your studies of gender and sexuality.

Rethinking the Urban Agenda - John H. Mollenkopf 2001

This volume takes up the challenge provided by a changing of the guard in New York City government - the election of a new mayor and City Council - to outline a new conceptual and political road map for New York City's future and, in many respects, for the future of urban America.
