Secrets to Becoming a Wiser, More Confident and Happier You - Faithaline Hippolyte

2018-01-09

DISCOVER: How to draw more meaning and a level of spirituality into your life, right where you are, and in spite of your busy schedule Time to Stop the Craze For many of us, freedom is a constant struggle as we battle the assault of demands from our families, friends, workplaces and even ourselves. Drowning in our to-do lists, we go through life at breakneck speed, deep down suspecting that if we don't stop the craziness soon, we'll inevitably smash into something. We know that we need a kind of freedom. We long for some level of spirituality, of meaning, of sacredness in our lives. But we're too busy, and don't know where to start. We don't necessarily want another book from an expert, who will give us all the technical terms and theories. We don't want or need complicated; our lives and brains are quite full enough, thank you. And what's more, we really don't have the time to sift through a massive textbook-style tome to find the supposed golden nuggets hidden within its many pages. We just want something simple, practical, and that won't take a whole lot of time. Yet, something that is

meaningful, and something that works. So what does it mean to become a Wiser, More Confident and Happier Me? Well first of all it means becoming myself, or my true self. And becoming myself means becoming conscious, or more conscious. Becoming conscious of what? Of the things that are happening in my life, and taking a little time to ponder on these circumstances, so that I can gain insight - insight into myself - my life. This insight will make me wiser. This wisdom will make me more confident. This confidence will make me happier. However, in order to gain those insights which will get me to my happy place, I'll need to slow down for a bit. Finding a Better, Simpler Way You see, the secrets to success are inside you, and they're also screaming out within the circumstances of your life. But in order to obtain their insights, you have to be paying attention. You have to be listening to your life. That's where this book comes in: Secrets to Becoming a Wiser, More Confident and Happier You: ALL IN JUST 10 MINUTES A DAY! In this 21-day journey, the author Faithaline Hippolyte, (who's not a mystic living in the mountains, but is a regular wife and mother), takes your hand and shows you how - all in just 10 minutes a day! And thankfully, no pilgrimage to a special place is necessary; the secrets are all found in your everyday circumstances. Think of this as your little happiness project; or your 10 minute mindfulness adventure; or your confident woman devotional. However you choose to look at it, you will learn how to regularly gain insight from the everyday circumstances of your life, making you a wiser, more confident and happier woman. Therefore you'll be able to live the let-go life, and for example, not have a meltdown whenever it rains on your parade; because you know that the situations in your life have a deeper meaning and purpose, and are not just freak occurrences. The Confidence Myth - Helene Lerner
2015-03-02

Not only do we need more female leaders at the top, but we need more women at all levels of business, government, and nonprofits to step up—there's no time to waste. The problem, says Helene Lerner, isn't so much that women lack confidence but that they misunderstand what confidence really is. True confidence isn't fearlessness; it's having the courage to jump in even when your knees are shaking. Any woman who waits until she feels 100 percent confident before offering a big idea or asking for a raise or promotion will never get anywhere. Drawing on her own and other female leaders' experiences, as well as on her survey of over 500 working women, Lerner lays out practical strategies for beating this confidence myth and overcoming obstacles like gender bias. The book features dozens of Confidence Sparks, simple but powerful exercises and techniques that can catapult anyone's career to the next level.

Getting It Right - Zhanna Kussainova
2017-12-05

Do you love yourself? You need to employ self-confidence and trust in your ability and self THE MOST because this is what will keep you moving as a woman. Letting doubt into your life would introduce fear also which would do nothing but hold you stand still at a point. A successful woman is not afraid of challenges and doesn't doubt the potentials she carries; therefore don't let doubt find its way into your head because when it does, it will call in fear and fear will lead to failure. Try your best to be confident. Self-control starts by taking responsibility for your emotions, thoughts, and personal achievements in life. You take charge of your emotions by accepting responsibility for your actions, failures, and raising yourself from the ground to the top. You will always be responsible for every action you take in life, and it will also determine where your future lies and who you will become. Confident women not only admit their flaws, but they also applaud them, take it up, and overcome it. Women are known to be problem solvers and multitasking beings; these characteristics of women gives them the edge to overcome their challenges. They know exactly where their strengths lie, what they want, their beauty, and where they can improve their life. Gorgeous women love themselves for the intrinsic features they possess; they care less of what people say about them, their family background, the society, and what the world say about them. The confident mother sets a goal and achieves it; she helps her family attain stability while taking charge of her life. Women who are courageous make the right decision

most of the time. The self-assured woman listens to people's opinion while combining it with her opinion. The confident woman is the desire of every man, and she is the hope of humanity in this fast-changing world. I have been to over 48 countries, speaking and listening to women. I have been with mothers, teenage ladies, and underage ladies and I could tell what they are made of.

Empowering Women - Louise Hay 1999-08-04
Women have struggled for a long time to have more dominion over their own lives. Louise L. Hay, author of *You Can Heal Your Life*, *The Power Is Within You*, and *Life: Reflections on Your Journey*, shows you how to become a strong and powerful being. She emphasizes that no matter what your past was like, you can learn to empower yourself and rise to the top. Some of the points Louise makes are: Developing self-worth and self-esteem are the most powerful tools women can have, a modern woman has the whole world in front of her—she can rise as high as her belief in herself; joy and happiness are always within you; you do not have to feel incomplete without a man by your side; and your most important relationship is with yourself.
[Self Motivation Book for Women: How to Motivate Yourself and Become Confidence in Every Situation](#) - David Wilson 2019-03-19
Have you ever wondered just exactly what your purpose in life is? Do you struggle with getting out of bed to face yet another soul-draining day? Would you like to live life with passion and verve? While societal perception may make us believe that women have more freedom now than at any other point in the past, the truth might be the opposite. With soul-killing, dead-end jobs and repetitive daily cycles of boring tasks, it's easy to feel like a hamster on a wheel, working hard but never getting ahead.
