Problems of Youth Unemployment - 1980

Re-Defining Success: - James D Morrison, MSL 2013-08-13

Life is just like walking through the rain—whether you dance through it (and have fun) or just try to avoid the puddles—you still get wet. Your life has a God-authored plan that can be exciting or can be drudgery—it all depends on how you choose to see each circumstance in your day. Each day, you can be surrounded by circumstances that test who you say you are. Those are circumstances that test your character. Circumstances like financial hardship, failed relationships, unexpected opportunities, unplanned success, or a blow to your self-esteem. Circumstances as trivial as an argument with your spouse, or as difficult as an argument with your spouse. You might think that God has deserted you when you have difficult circumstances in life, but you can find that He is closer than ever before. Re-Defining Success: Finding New Hope lets you know that you aren't the only one who has fouled up in some aspect of life and that you can come out of the situation that you are in stronger and smarter than you were yesterday. Instead of wondering about your future, take this opportunity to step out in faith and begin to learn God's plan for you. As you make a new start in your life, you have the chance to make changes in the person you are and to live in the plan He has for you. Re-Defining Success: Finding New Hope can help you see a larger picture for your life and be encouraged that these circumstances are life-challenges which have a reason.

Journey Through the Video Game World - Ashad Mukadam 2014-11-27

In February 2013, Ronald Charlton was laid off from his job at Pacific IT and Consulting in Calgary, Alberta, Canada. Soon after, he decided to start playing video games, initially as a way to just let out some steam. However, it is now August, and he has still not stopped playing. He only seems to get off of the couch when he goes to eat, sleep, and work out. This is now starting to affect the relationships he has with his parents, Monica and Harold, and his brother Mitch, and especially with his girlfriend, Dawna Langston. Then, on a rainy day in August 2013, a major thunderstorm hits Calgary. Ronald, who has been playing throughout the storm, is just about to hit a new high score on his video game when lightning strikes the console, causing an electrical current to travel down the wire to his controller, which then surrounds him, and transports hi to the video game world. He soon finds out from the government of the video game world, commonly called The VGG, that he must physically play and complete a number of games in a certain order only known to them in order to get home. Ronald, along with his guide Pixie, then embark on a journey to return Ronald home. Will he make it back to the real world, or is Ronald doomed to stay in the video game world forever?

The Diverse Worlds of Unemployed Adults - Mark E. Havitz 2006-01-01

Multi-method research study shows why leisure activities are as important for the unemployed as they are for the employed. Can someone who is unemployed experience leisure, or does that seem like a contradiction in terms? If unemployed people can experience leisure, how might it mitigate the negative effects of unemployment? And what form, then, would that leisure take? The relationship between leisure and unemployment has not received the attention it merits, especially in North America. Because research on leisure and unemployment must cross over areas of study, as well as theoretical perspectives, it can often seem conflicting and inconclusive. Yet the need for an understanding of that relationship remains. This groundbreaking book addresses that need. Mark E. Havitz, Peter A. Morden, and Diane M. Samdahl describe the sometimes surprising results of their multi-method study of the effects of unemployment on leisure, lifestyle, and well-being within Canada, and integrate those results with literature collected worldwide into a comprehensive picture. Using in-depth interviews, quantitative experience sampling, and standardized questionnaire data, this fascinating book provides ample evidence that the lived experiences of the unemployed are incredibly diverse, and the need for leisure is as intense for them as for the employed. The authors also pinpoint changes in public policy and social service agency management at local, provincial, and federal levels that will better serve unemployed people and their dependents, and enable them to use leisure activities to

improve their lives.

Experiencing Long-Term Unemployment in Europe - Christian Lahusen 2016-10-12

This book examines the everyday-life patterns of young adults under circumstances of vulnerability and precariousness. Its main focus is on the web of social relations that structure the everyday life of young people, for instance by providing resources and tools of solving problems, exerting pressures and voicing expectations, and shaping the person's self-conception, identity, and well-being. Based on more than 120 in-depth interviews with young long-term unemployed in six European countries, this book puts social support and the young jobless' webs of social relations at center stage. It expands knowledge by raising awareness of the multidimensionality and complexity of the social conditions of young jobless, drawing, on the one hand, a more differentiated picture of unemployment, vulnerability and social exclusion amongst young people and, on the other hand, taking a close look at the social reality of young adults' unemployment in different European cities.

New Voices from Iceland - Dóra S. Bjarnason 2004

This book presents a study of the perspectives and experiences of 36 disabled young adults, some of their parents, teachers and friends, on coming of age as a disabled person in Iceland. The young people of the study belong to the first generation of disabled children and youth to grow up with normalization and inclusion in school and society as the law of the land. The aim is to describe, explore and interpret the social construction of disabled adulthood within culture and society, and to describe how inclusive and exclusionary processes within families, school and society impact young disabled persons' claims to adulthood. The study is located within disability studies, and within a social constructivist, interpretive framework, involving interviews and document analysis. This volume focuses on the emergence of young disabled adulthood and on how families, general or segregated special education and special or generic support systems and relationships impact that process. The lesson learned from this book apply to the disabled everywhere.
