Managing a Long Distance Relationship - Joy Deborah Adewuyi
2020-12-30

Many people repel long-distance love relationships for several reasons, one of which emanates from the popular cliché 'out of sight is out of mind'. The fears of uncertainties and concerns about the low likelihood of success long-distance relationships are further amplified by tales of heartbreaks or unpleasant experiences shared by couples in long-distance relationships. Although it is advisable that couples guide against long-distance separation in their relationship, the demands of life sometimes present situations where temporal geographical separations become inevitable for couples. Hence, there is a need to help couples overcome setbacks and other challenges associated with long distance, and equip them with pragmatic principles and strategies to grow in love and intimacy while going through such phases. Having personally encountered the highs and lows of long-distance relationship, our goal is to help other long-distance relationship couples to 'stay in mind while

they are temporarily out of sight'. This book is directed at helping couples in long-distance relationships to successfully navigate the hurdles and challenges peculiar to the journey. Many people think that love is all that matters. We thought so too, but realized along the path that although love is important, love is helpless when it lacks the requisite knowledge. Love without knowledge is helpless. Just like a plant obtains its nourishment for survival and sustenance, relationships too need nourishment. Many relationships, which started with promising hopes and great energy, started declining and withering when long-distance sets in. This is a common case of many great friendships that started off on campus, but gradually collapsed after graduation. Our long-distance relationship (LDR) experience has taught us that a good relationship, either long-distance or short, needs some essential elements, of which understanding is also non-negotiable. I usually tease my wife that our courtship qualifies for a certificate degree in Long-Distance Relationship (LDR). First, it was a four-year long courtship (not the longest out there though), and was long-distance for the most part. As you would discover in the course of this book, about 90% of our courtship period was long-distance. My first proposal to Joy was done over a phone call and a follow-up love letter (email actually), and our traditional wedding was done on Skype because we were on different continents when the time was ripe for the wedding. Despite the ups and downs and the emotional hysteresis in our long-distance relationship, we sailed successfully and anchored our ship at the conjugal bliss border on the fourth year of courtship.

How to Make a Long Distance Relationship Last - Tony Wiilliam
2017-07-16

Everything would be fine if we lived in the same town/state/country, is the common reason many men and women give for a long distance relationship not working out. Yes, distance can put an enormous strain on a relationship, but claiming that "distance" is the only reason a relationship didn't work out, or cannot work is putting your hands over your ears and shouting, "Land" because the truth is, it's too much to handle. I've met many men and women who won't try long distance

relationships because according to them "long distance relationships just don't work." That simply isn't true! Long distance relationships Can and do work if the two individuals involved want it to. In my opinion, the question is not "do long distance relationships work?" But rather "Do both of you want to make it work?" If you both want to make it work, distance is just another obstacle that two people who truly love each other can easily overcome if they really want to. These simple to follow tips will help your long distance relationship not only survive distance, they'll also help you lay a strong foundation for a relationship that is fun, fulfilling and successful last? The internet highway has changed the way we live and the way we love. It has changed the way we socialize, and it has also increased the likelihood of finding love over the internet. Conversations are easy to strike up with regularity, and it's easy to discover that you have strong feelings for someone who lives hundreds or thousands of miles away from you! Many people are choosing to have long distance relationships. Long distance relationships might feel wonderful at first. However, they come with their own set of unique challenges as well. Many couples are blind-sided by the impact a long distance relationship can have on their daily life. This person can now feel so close to you because of the internet and yet in reality, remain so far away. The paradox is weighty. The more prepared you are to handle the situation, the better equipped you both will be to make decisions along the way that will benefit you and your special someone, and possibly make it a safer and enjoyable experience.

The Long-distance Relationship - Priya Ramesh Swaminathan
2018-12-18

It is often said that distance makes the heart grow fonder. Couples these days are a busy lot, working in different time zones, continents or worlds apart! Often, they meet virtually and celebrate important occasions together, online. Daily communication means snatches of time, peppered with "Getting late." "See you soon." "Love you." "Hugs'n'kisses. Bye." The lack of physical presence soon starts taking a toll on both partners, who may be bored, exhausted, insecure or looking out for greener pastures, all the while pretending to be there for each other. Soon, the 3 a.m.

friend disappears! A casualty of a long-distance relationship! Patience, perseverance, trust and loyalty go a long way in such cases where partners can't be together for varied reasons. This novel deals with the complexity of human relationships and a long-distance relationship. Do follow Parikrama and Pranay's eventful journey and see how it goes.... Kindly consider purchase of a copy and peruse it at leisure! Your invaluable feedback is eagerly awaited, dear readers! Thanks in anticipation. Priya

About the Expert Bethany Wilson is a December 2010 graduate from Berea College in Berea, Kentucky. She obtained her Bachelor of Arts degree in Child Development. During her entire time in college she was engaged, her and her fiancé Josh decided to give a long distance relationship a go. From the beginning of her college career throughout the completion and still to this day they are together. With nearly three hundred miles between her and Josh they had to get creative in order to keep the

relationship alive. When they first began the relationship after Bethany got to college they would talk on the phone for hours each day about a little bit of nothing but that gradually got tiresome. Bethany and Josh had to find new things to keep their relationship interesting. At first they started using webcam communications but that was short lived because the college cut the bandwidth that was allowed to the students making it almost impossible to webcam one another. They tried almost all of the techniques that are mentioned in this book. There were many different things that was brought up by other people trying to make them break up, but that never worked because Bethany and Josh have a bond stronger than words of others. Now that Bethany is out of college, she and Josh is no longer on a long distance relationship status because they are just a few minutes apart and are looking forward to their future and in the process of planning their wedding. Their long distance relationship helped them both mature and develop the ways that the communicate to the point that they both seem as if they are ten years older than they really are in the case of communication strategies. When things would seem dire within the relationship they would sit down and talk it out either on the internet, phone, or text messaging and get past the situation. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
