*Hypnotize Your Wife Live a Better Life [Or Your Girlfriend for That Matter]* - The Nameless Hypnotist 2015-02-23

People have been conditioned to believe certain things about the way relationships should operate. Sometimes gender roles are blurred. In recent times this seems to be more evident, doesn't it? My beliefs, now, are that gender roles should be very specific and quite clearly defined. I believe that men are the stronger sex. I believe that men tend to be more logical thinkers. I believe girls should be subservient; that is: prepared to obey their man unquestioningly and are, by nature, the weaker sex. I also believe when a girl knows her place and a man knows his place in a relationship that the relationship functions better and both sexes are happier. When a girl is docile; that is, ready to accept control or instruction; submissive, she knows instinctively that the relationship is solid and that she will be rewarded for her submissiveness. This causes her to lose her depression, her fear, and her feelings of uncertainty and constant confusion and lack of safety. These are positive benefits that have been forgotten by girls, which, when reminded, and rekindled, prove their significance and relevance to the girl's happiness. The more your girl accepts your control and instruction the more happy both of you will be, let me assure you. This is something most men and girls get excited about when they adhere to their respective gender roles. In many ways this book will teach you a relationship system that utilizes conversational hypnosis; so that, as a man, you can define your relationship in this way, so you are happy and your wife or girlfriend is happy too. It is your responsibility to learn this information and even more your responsibility to implement it; that is, training your wife or girlfriend to be servient. Follow these instructions carefully and your

wife or girlfriend will be the perfect little girl you've always hoped her to be. I promise. Grab Your Copy Now! Do not think twice; I promise it works!
