Iron Men, Wooden Women Margaret S. Creighton 1996-05 From the voyage of the Argonauts to the Tailhook scandal, seafaring has long been one of the most glaringly male-dominated occupations. In this groundbreaking interdisciplinary study, Margaret Creighton, Lisa Norling, and their co-authors explore the relationship of gender and seafaring in the Anglo-American age of sail. Drawing on a wide range of American and British sources—from diaries, logbooks, and account ledgers to songs, poetry, fiction, and a range of public sources—the authors show how popular fascination with seafaring and the sailors' rigorous, male-only life led to models of gender behavior based on "iron men" aboard ship and "stoic women" ashore. Yet *Iron Men, Wooden Women* also offers new material that defies conventional views. The authors investigate such topics as women in the American whaling industry and the role of the captain's wife aboard ship. They explore the careers of the female pirates Anne Bonny and Mary Read, as well as those of other women—"transvestite heroines"—who dressed as men to serve on the crews of sailing ships. And they explore the importance of gender and its connection to race for African American and other seamen in both the American and the British merchant marine. Contributors include both social historians and literary critics: Marcus Rediker, Dianne Dugaw, Ruth Wallis Herndon, Haskell Springer, W. Jeffrey Bolster, Laura Tabili, Lillian Nayder, and Melody Graulich, in addition to Margaret Creighton and Lisa Norling.

Attached Amir Levine 2012-01-05 "Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

The Spanish Love Deception Elena Armas 2022-02-08 A wedding. A trip to Spain. The most infuriating man. And three days of pretending. Or in other words, a plan that will never work. Catalina Martín, finally, not single. Her family is happy to announce that she will bring her American boyfriend to her sister's wedding. Everyone is invited to come and witness the most magical event of the year. That would certainly be tomorrow's headline in the local newspaper of the small Spanish town I came from. Or the epitaph on my tombstone, seeing the turn my life had taken in the span of a phone call. Four weeks wasn't a lot of time to find someone willing to cross the Atlantic-from NYC and all the way to Spain-for a wedding. Let alone, someone eager to play along with my charade. But that didn't mean I was desperate enough to bring the 6'4 blue eyed pain in my ass standing before me, Aaron Blackford. The man whose main occupation was making my blood boil had just offered himself to be my date. Right after inserting his nose in my business, calling me delusional, and calling himself my best option. See? Outrageous. Aggravating. Blood boiling. And much to my total despair, also right. Which left me with a surly and extra large dilemma in my hands. Was it worth the suffering to bring my colleague and bane of my existence as my fake boyfriend to my sister's

With the bat of her lashes and quick whip of that sharply pointed tongue Tessa can knock grown men to their knees.
