Wordplay and the Discourse of Video Games - Christopher A. Paul 2012-03-15

In this timely new book, Christopher Paul analyzes how the words we use to talk about video games and the structures that are produced within games shape a particular way of gaming by focusing on how games create meaning, lead to identification and division, persuade, and circulate ideas. Paul examines the broader social discourse about gaming, including: the way players are socialized into games; the impact of the lingering association of video games as kid's toys; the dynamics within specific games (including Grand Theft Auto and EA Sports Games); and the ways in which players participate in

shaping the discourse of games, demonstrated through examples like the reward system of World of Warcraft and the development of theorycraft. Overall, this book illustrates how video games are shaped by words, design and play; all of which are negotiated, ongoing practices among the designers, players, and society that construct the discourse of video games.

Diving into Love - Kat Bellemore 2020-05-24
She already left one fiancé. She didn't need another. When Bree Garrett's former college roommate invites Bree to move to Starlight Ridge, a small tourist town on the Californian coast, she is all too happy to leave the deserts of New Mexico and the memories of

her former life. She only has three conditions: One- No one can find out about her fear of water—totally embarrassing when you live next to the ocean. Two- No seafood. She can't stomach it. Yeah, she sees the irony of points number one and two. Three- No blind dates. The last thing she needs is a relationship. Her ex-fiancé would agree. Easier said than done when the only job available is at a surf shop and the owner, Caleb, is under the impression that Bree has applied to be a scuba instructor, and not a cashier, as she had intended. Bree tries to clear up the misunderstanding, but it's hard when she seems to lose her voice—and her breath—every time Caleb is near. How could she not when he happens to be attractive, single and, as it turns out, also doesn't like seafood? Bree and Caleb struggle against the pull of the tide that seems determined to bring them together. But, despite their differences, maybe this is one battle that is okay to lose. *Diving into Love* is

the first book in the Starlight Ridge romance series. If you can't get enough of witty banter, moonlit strolls on the beach, and swoon-worthy kisses, you'll love this sweet romance. Buy *Diving into Love* and start this small-town romance series today!

We Were Gamers - Drew Kern
2023-07-16

I am Will. Wade and I recently graduated from college and found jobs in Chicago. We have been video gamers since the 6th grade, and we spent most of our weekends playing Friday and Saturday nights. Neither of us have ever actually had a

girlfriend, or even a real date. We had "set up" dates like when your mom sets you up for a "Fort Nightly" dance, but not even a real normal date to the movies. We moved into an apartment in Chicago and the landlord helped us move in. We were impressed that a 50-something guy could help move a couch up to the third floor. After a few weeks, he invited Wade and I up to his knocked-out penthouse with a deck overlooking the city. Our apartment looked like a college apartment... 7 coats of paint on the wood trim. His had new trim, it was tight. After a few beers, he asked us how we were doing and what we do on the weekends? We told him about the video games. He asked why we weren't dating in a city like this? We said we had not had any dates. He asked if we wanted to date? We said yes, but had no opportunities. Then he said something unexpected. He challenged us to use the skills we have learning gaming to find girlfriends in just 5 weeks. We asked how? He told us to meet
