As She Likes It - Penny Gay 2002-03-11

As She Likes It is the first attempt to tackle head on the enduring question of how to perform those unruly women at the centre of Shakespeare's comedies. Unique amongst both Shakespearian and feminist studies, As She Likes It asks how gender politics affects the production to the comedies, and how gender is represented, both in the text and on the stage. Penny Gay takes a fascinating look at the way Twelfth Night, The Taming of the Shrew, Much Ado About Nothing, As You Like It and Measure for Measure have been staged over the last half a century, when perceptions of gender roles have undergone massive changes. She also interrogates, rigorously but thoughtfully, the relationship between a male theatrical establishment and a burgeoning feminist approach to performance. As illuminating for practitioners as it will be enjoyable and useful for students, As She Likes It will be critical reading for anyone interested in women's experience of theatre.

For seventh-grader Mila, it starts with some boys giving her an unwanted hug on the school blacktop. A few days later, at recess, one of the boys (and fellow trumpet player) Callum tells Mila it's his birthday, and asks her for a "birthday hug." He's just being friendly, isn't he? And how can she say no? But Callum's hug lasts a few seconds too long, and feels...weird. According to her friend, Zara, Mila is being immature and overreacting. Doesn't she know what flirting looks like? But the boys don't leave Mila alone. On the bus. In the halls. During band practice—the one place Mila could always escape. It doesn't feel like flirting—so what is it? Thanks to a chance meeting, Mila begins to find solace in a new place: karate class. Slowly, with the help of a fellow classmate, Mila learns how to stand her ground and how to respect others—and herself. From the author of *Everything I Know About You*, *Halfway Normal*, and *Star-Crossed* comes this timely story of a middle school girl standing up and finding her voice.

Attached - Amir Levine 2012-01-05

"Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.
