Making the Most of Small Groups - Debbie Diller 2023-10-10

Author Debbie Diller turns her attention to small reading groups and the teacher's role in small-group instruction. Making the Most of Small Groups: Differentiation for All grapples with difficult questions regarding small-group instruction in elementary classrooms such as: How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements—comprehension, fluency, phonemic awareness, phonics, and vocabulary—the book provides practical tips, sample lessons, lesson plans and templates, suggestions for related literacy work stations, and connections to whole-group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations.

Fearless Negotiating - Michael C. Donaldson 2007-03-30

Never fear another negotiation! Powerhouse entertainment lawyer and negotiating guru Michael Donaldson has distilled a lifetime of negotiating success into a simple, straightforward plan to get you what you want, when you want it-without the angst. If you've ever been uncertain before a negotiation, felt beaten up after, or thought you could have and should have negotiated better, Fearless Negotiating shows you, step by step, how to erase your fears and preconceptions and tap into the master negotiator that lives within you. This short and compelling guide is an essential companion to achieving more rewarding, meaningful, and mutually satisfying business and personal relationships and outcomes. Donaldson introduces his remarkably effective Wish-Want-Walk Method, which has been successfully presented in seminars around the world: WISH-set a goal for the negotiation WANT-know where the market is most likely to push the results WALK-draw the line that you will not cross "Wish, Want, Walk" will be your guide, telling you when to start the bidding, when to quit while you're ahead, and when to cut your losses. Establishing these three points beforehand will make you more comfortable at the negotiating table, reduce your stress, and even help you predict the likely outcome. Donaldson also shows you how to make the most of your time between creating your Wish-Want-Walk plan and when you go into the negotiating session. He helps you get in touch with your inner, natural-born negotiator, making it easier to make opening offers, bargain with confidence, and seal the deal you want.

The World Book Dictionary - Clarence Lewis Barnhart 1990

Unexpected Jesus - Craig Hovey 2012-09-12

How can Christians live with a surprising God? How can we know and trust God without taming God or reducing God to an idol? Is knowing God the same thing as being open to God? Is God's freedom to act independently of our knowing him actually how we know him most genuinely and deeply? In Unexpected Jesus, Craig Hovey explores in depth the idea that the Christian gospel is a surprising encounter that calls for people to risk living with a God who shows up in unexpected ways. The Gospels often portray Jesus Christ as elusive and difficult to grasp. Hovey helps the reader to "un-expect" Jesus--to preserve Jesus's reality as a surprise rooted in the resurrection. As living and free, the joyous presence of Christ in the world is also unfathomable and uncontainable. Jesus's being free and surprising--unexpected--strengthens Christians' trust in God and helps them to live in God's world.

One Million Children - Robert E. Slavin 2001

This book presents the components of Success for All and Roots & Wings, two comprehensive restructuring programs for elementary schools designed to make the idea that all children can learn a practical, daily organizing principle, especially in schools serving students at risk. Success for All, first implemented in 1987, was created to show how schools could ensure that virtually all children could learn to read and write. It uses research-based curricular strategies, individual tutoring, and active family support. Roots & Wings, which began in 1991, extends similar principles to mathematics, social studies, and science. Nine chapters examine: (1) "One Million Children: Success for All" (an overview); (2) "Reading, Writing, and Language Arts Programs"; (3) "Tutoring Programs"; (4) "Prekindergarten and Kindergarten Programs"; (5) "Roots & Wings: Adding Social Studies, Science, and Mathematics to Success for All"; (6) "Family and Student Support"; (7) "Facilitators and the Change Process"; (8) "Research on Success for All and Roots & Wings"; and (9) "Success for All, Roots & Wings, and School Reform" (the implications of research for compensatory education, special education, and school reform in general). Appendixes to the first five chapters present sample lessons, activities, and checklists. (Contains 131 references.) (SM)

We're often searching for answers but what if the answers were in the questions we ask? What if the big answers were in the questions we don't dare ask? There are two people we need to ask. Ready? It's scary, I know. 1. Yourself 2. Others You might think asking others is hard but the true hard stuff, the real stuff, the oh-man-here-we-go level of awesome sauce begins with asking yourself. Here, let's do a quick survey and see if you're ready. ASK yourself these questions: 1. Are you ready for the next phase of your life to begin? 2. Have you been waiting for someone to reach out their hand and invite you to take things to the next level? 3. Do you know what you want? 4. Do you know when you want to get started with what you want? 5. Do you like sour cream on your burrito? 6. Are you too shy to ask for help? 7. Do you believe other people would like to help you if you ask them for help? 8. Did you know people like helping other people more than they like helping themselves? (PRO TIP: see questions #6 and #7) 9. Are you envisioning a burrito? What if your quick answer to the extremely important question #5 were as easy as the usually-more-difficult question #7? What if you could get more comfortable asking yourself the big questions? What if you could practice asking others for help and you got to the point where they starting asking you if they could help you? In best-selling author Bradley Charbonneau's latest book ASK, you'll uncover your answers to the questions you might want to maybe be asking yourself--and others. In this book, you'll discover: - How to ask for help without begging--and even turning around the tables so people get in line to help you - Why you first might just maybe want to ask yourself what your focus is at this point in your life - When to not ask anyone but yourself the question you most want the answer to - What to ask yourself each and every morning and evening - How to dig deep into your subconscious mind to get around that pesky conscious self
