Men, Women and Relationships - A Post-Jungian Approach - Phil Goss 2010-09-13

This book offers Jungian perspectives on social constructions of gender difference and explores how these feed into adult ways of relating within male-female relationships. Phil Goss places this discussion within an archetypal context drawing on the fairy tale Jack and the Beanstalk to consider the deep tension in western culture between the transcendent masculine and the immanent feminine. Offering both developmental and socio-cultural frameworks, areas of discussion include: the use of story and myth to understand gender Jungian and post-Jungian approaches: updating anima/animus working clinically with men, and with women the developmental pathways of gender difference power relations between men and women in the home. *Men, Women and Relationships - A Post-Jungian Approach* will be a valuable resource for all those with an interest in analytical psychology including psychotherapists, psychoanalysts and counsellors, as well as those in the broader fields of social work and education who have an interest in gender difference and identity.

Epigenetics and Dermatology - Qianjin Lu 2015-02-16

Epigenetics and Dermatology explores the role of epigenetics in the pathogenesis of autoimmune-related skin diseases and skin cancer. Leading contributors cover common and uncommon skin conditions in which extensive epigenetic research has been done. They explain how environmental exposures (chemicals, drugs, sunlight, diet, stress, smoking, infection, etc.) in all stages of life (from a fetus in-utero to an elderly person) may result in epigenetic changes that lead to development of some skin diseases in life. They also discuss the possibilities of new and emergent epigenetic treatments which are gradually being adopted in management of various skin diseases. Chapters follow a conventional structure, covering fundamental biology of the disease condition, etiology and

pathogenesis, diagnosis, commonly available treatments, and epigenetic therapy where applicable. Discusses the basic biology of skin diseases and skin cancers induced or aggravated by aberrant epigenetic changes Evaluates how to approach autoimmune-related skin diseases from a therapeutic perspective using the wealth of emergent epigenetic clinical trials Offers a coherent and structured table of contents with basic epigenetic biology followed by discussion of the spectrum of rheumatologic through neoplastic skin diseases, finally ending with a discourse on epigenetic therapy

Love in Later Life for Women - P. Santos David 2023-05-13

The population of older adults living longer and healthier lives is increasing. As age increases, the likelihood of single status increases. Without someone to offer peer intimacy, loneliness becomes a factor for decreased well-being. Research is needed to gain insight into later life romantic love and commitment to offer support for those seeking companionship, love, and intimacy to live more generative and robust later lives, ameliorating the physical and emotional effects of loneliness. Women are more likely to be alone in late life and research is needed to explore experiences with the phenomenon of love in later life from their perspective. This study employed a qualitative transcendental phenomenological methodology, gathering data from interviews, observations, and documentation in order to provide an interpretive description of all the women in the study with the shared experience of love and commitment to a new partner in later life.

Women and Men As Friends - Michael Monsour 2001-10

This monograph studies women and men as friends from a developmental perspective. *Women and Men as Friends* examines cross-sex friendships from early childhood through old age, then summarizes the findings and offers recommendations on how friendship between males and females can be encouraged

throughout the life span. In each chapter three themes are documented and applied to the corresponding stage of life: *Cross-sex friendships enrich an individual's social network in generic and unique ways. *Social and structural barriers interfere with the formation of cross-sex friendships in every stage of life. *Cross-sex friendships affect and are affected by an individual's ongoing social construction of self throughout the life cycle. The primary audience for the volume is scholars and students in personal relationship study (interpersonal communication, social psychology, sociology) with a secondary audience of scholars in family studies, developmental psychology, and clinical psychologists. The book can also be used as a supplemental text in graduate and undergraduate courses for the relevant disciplines.

Love Between Women - Bernadette J. Brooten 2009-02-15

Love Between Women examines female homoeroticism and the role of women in the ancient Roman world. Employing an unparalleled range of cultural sources, Brooten finds evidence of marriages between women and establishes that condemnations of female homoerotic practices were based on widespread awareness of love between women. "An extraordinary accomplishment. . . . A definitive source for all future discussion of homoeroticism and the Bible."—Mary Rose D'Angelo, Harvard Gay & Lesbian Review "[Brooten's] convincing

analysis . . . not only profoundly reshapes our understanding of the past, but it should also shape the way in which that past, particularly the early Christian texts with their immense normative weight, will be used for the future."—Anne L. Clark, Journal of Lesbian Studies "Love Between Women gives contemporary debates on sexuality a carefully delineated past. It boldly insists upon a different future, one informed by history but not tyrannized by it."—Susan Ackerman, Lambda Book Report "Fascinating, provocative and lucid. . . . Brooten has made a fundamental contribution to women's and gender studies, gay and lesbian studies, and classics."—Elizabeth A. Castelli, Women's Review of Books Winner of the Lambda Literary Award for Best Lesbian Studies Book, 1997

Women in Love (Romance Classic) - D. H. Lawrence 2019-12-18

Women in Love follows lives of the Brangwen sisters, Ursula a schoolteacher, and Gudrun a painter. They meet two men who live nearby, school inspector Rupert Birkin and Gerald Crich, heir to a coal-mine, and the four become friends. Ursula and Birkin begin a romantic friendship, while Gudrun and Gerald eventually begin a love affair. The emotional relationships thus established are given further depth and tension by an intense psychological and physical attraction between Gerald and Rupert. All four are deeply concerned with questions of society, politics, and the relationship between men and women. The novel ranges over the whole of British society before the time of the First World War and eventually concludes in the snows of the Tyrolean Alps.

Gender and Ageing - Sara Arber 2003

This book is a follow-up to Arber and Ginn's award winning Connecting Gender and Ageing (1995). It contains original chapters from eminent writers on gender and ageing, addressing newly emergent areas within gender and ageing, including gender identity and masculinity in later life. Early work on gender and ageing was dominated by a focus on older women. The present collection breaks with this tradition by emphasizing changing gender roles and relationships, gender identity and an examination of masculinities in midlife and later

life. A theme running through the book is the need to reconceptualize partnership status, in order to understand the implications of both widowhood and divorce for older women and men, as well as new forms of relationships, such as Living Apart Together (LAT-relationships). There is also an underlying focus on how socio-economic circumstances influence the experiences of ageing and the ways transitions are negotiated. Written with undergraduate students and researchers in mind, *Gender & Ageing* will be an invaluable text for those studying social gerontology, sociology of later life, gender studies, health and community care and social policy.

The Future of Marriage - Jessie Bernard 1972
When "The Future of Marriage" was published a decade ago it was immediately acclaimed as a classic contribution to the literature of marriage and of sex roles. In it, the eminent sociologist Jessie Bernard argued that in every marriage there are actually two marriages-his and hers- and that sociological data reveals that marriage is more beneficial for men than for women. In a new edition of this pioneering work, Bernard provides a fresh introduction and update showing what has changed and what has remained the same since her book was first published

Women, Identity and Private Life in Britain, 1900-50 - Judy Giles 1995

This title explores the meanings and experience of home and private life for women who grew up in England before 1950. It considers the extent to which class, suburbanization and historical moment as well as gender constructed women's understanding of domesticity, and discusses the part played by conceptions of home and private life in the shaping of identities. Oral narratives, fiction, autobiography and diaries are used in conjunction with psychoanalytic, linguistic and historical explanations of women's lives to map a psychological as well as a social history of women's relationship to the home in the early part of the 20th century.
