WHO report on global health worker mobility - World Health Organization 2023-07-12

The report presents two key indicators of estimating health worker mobility as reported by destination countries - the share of the foreign-trained and/or foreign-born health workers. The results presented in this report formulate new thinking around the interlinkages of monitoring Sustainable Development Goal (SDG) Indicator 3.c.1 on health worker density and distribution and health worker mobility and migration. This report provides the most comprehensive compendium of data on health workforce migration ever published, with data from 134 countries, areas and territories, covering all six WHO regions. This report stipulates [highlights/emphasizes?] the importance of accurately measuring and monitoring health worker mobility - as a lever of influence - in designing, implementing and assessing remedial policies aimed at addressing skills imbalances and future health systems performance development.

Amartya Sen's Work and Ideas - Bina Agarwal 2013-09-13

This unique volume is the first to examine Nobel Laureate Amartya Sen's ideas through the lens of gender. His humanitarian approach to economics has been crucial to the development of several aspects of feminist economics and gender analysis. This book outlines the range and usefulness of his work for gender analysis while also exploring some of its silences and implicit assumptions. The result is a collection of groundbreaking and insightful essays which cover major topics in Sen's work, such as the capability approach, justice, freedom, social choice, agency, missing women and development and well-being. Perspectives have been drawn from both developing and developed countries, with

most of the authors applying Sen's concepts to cultural, geographic and historical contexts which differ from his original applications. Significant highlights include a wide-ranging conversation between the book's editors and Sen on many aspects of his work, and an essay by Sen himself on why he is disinclined to provide a definitive list of capabilities. These essays were previously published in *Feminist Economics*.

A Study of Age Reporting in Selected Arab Censuses of Population - 2013 "The purpose of this report is to do the following: (1) provide an overview of census taking in the Arab region; and (2) assess the accuracy of age-sex reporting and the patterns of digit preference in recent censuses of population in selected Arab countries at the national and subnational levels"--Page1.

Mammals of Africa - Jonathan Kingdon 2013-05-23

Mammals of Africa (MoA) is a series of six volumes which describes, in detail, every currently recognized species of African land mammal. This is the first time that such extensive coverage has ever been attempted, and the volumes incorporate the very latest information and detailed discussion of the morphology, distribution, biology and evolution (including reference to fossil and molecular data) of Africa's mammals. With 1,160 species and 16 orders, Africa has the greatest diversity and abundance of mammals in the world. The reasons for this and the mechanisms behind their evolution are given special attention in the series. Each volume follows the same format, with detailed profiles of every species and higher taxa. The series includes some 660 colour illustrations by Jonathan Kingdon and his many drawings highlight details of morphology and behaviour of the species concerned. Diagrams, schematic details and line drawings of skulls and jaws are by Jonathan Kingdon and Meredith Happold. Every species also includes a detailed distribution map. Extensive references alert readers to more detailed information. Volume I: Introductory Chapters and Afrotheria (352 pages) Volume II: Primates (560 pages) Volume III: Rodents, Hares and Rabbits (784 pages) Volume IV: Hedgehogs, Shrews and Bats (800 pages) Volume V: Carnivores, Pangolins, Equids and Rhinoceroses (560 pages) Volume VI: Pigs, Hippopotamuses, Chevrotain, Giraffes, Deer and Bovids (704 pages)

Strategies of Sex and Survival in Female Hamadryas Baboons - Larissa Swedell 2015-10-15

This book describes the first field study focusing on the behavior of hamadryas females in the wild. In its attempt to rectify the male-biased view of hamadryas baboon behavior that has persisted over the decades,

this book suggests that female behavior contributes more to hamadryas social organization than has previously been assumed and that females may, in fact, be acting in their own best interests after all. For upper-level undergraduate courses on primate behavior and ecology.
