**Aging and Money** Ronan M. Factora 2021-02-24 This book aims to disseminate and share knowledge about financial exploitation of elders with the purpose of protecting those individuals in our society who are most vulnerable to financial abuse and mistreatment. It instructs practicing clinicians in identification of risk factors, recognition of signs, and implementation of screening methods to protect their patients. This updated edition expands upon and advances the earlier text by including the most recent research and methods used to assess risk of financial exploitation, as well as updates in how the law approaches such cases. It also highlights ways in which community awareness can aid in identifying those most at risk, effectively protecting the elderly community, advocating for those victimized, and pursuing perpetrators to the fullest extent of the law. Professionals from law enforcement, medical clinics, financial institutions, and the legal field are now tasked with acting on suspected situations thanks to increasing recognition of financial abuse and mistreatment of an aging population. This book also guides professionals on how to discuss this information with potential victims. This second edition of *Aging and Money* expands the knowledge base to highlight the perspectives of different disciplines including professionals in medicine, law, the financial industry, and social services who play an important role in investigating and preventing financial abuse of the elderly.

**Whatever It Is, I Don't Like It** Howard Jacobson 2012-03-06 It takes a particular kind of man to want an embroidered polo player astride his left nipple. Occasionally, when I am tired and emotional, or consumed with self-dislike, I try to imagine myself as someone else, a wearer of Yarmouth shirts and fleecy sweats, of windbreakers and rugged Tyler shorts, of baseball caps with polo players where the section of the brain that concerns itself with aesthetics is supposed to be. But the hour passes. Good men return from fighting Satan in the wilderness the stronger for their struggle, and so do I. The winner of the 2010 Man Booker Prize, Howard Jacobson, brims with life in this collection of his most acclaimed journalism. From the unusual disposal of his father-in-law's ashes and the cultural wasteland of Chitty Chitty Bang Bang to the melancholy sensuality of Leonard Cohen and desolation of Wagner's tragedies, Jacobson writes with all the thunder and joy of a man possessed. Absurdity piles upon absurdity, and glorious sentences weave together to create a hilarious, heartbreaking and uniquely human collection. This book is not just a series of parts, but an irresistible, unputdownable sum which triumphantly out-Thurbers Thurber.

**The Pregnant Widow** Martin Amis 2013-07-31 'A phenomenal writer' Sunday Times An intoxicating comedy about youth, the 1970s, the sexual revolution and its aftermath. Summer, 1970. Sex is very much on everyone's mind. Keith Nearing - a bookish twenty-year-old, in that much disputed territory between five foot six and five foot seven - is on holiday and struggling to twist the seventies's emerging feminism towards his own ends. Torn between three women, his scheming doesn't come off quite as he expects. 'Read it: it is hilarious, often wonderfully perceptive, uncompromisingly ambitious and written by a great master of the English language' Financial Times

**Flourishing in Life, Work and Careers** Ronald J. Burke 2015-02-27 Happiness in one aspect of our life can positively impact our satisfaction within other domains of our life. The opposite also rings true. Today's generation of working people have often been called the generation who want it all. But can we really

**The Death of Expertise** Thomas M. Nichols 2017 A cult of anti-expertise sentiment has coincided with anti-intellectualism, resulting in massively viral yet poorly informed debates ranging from the anti-vaccination movement to attacks on GMOs. As Tom Nichols shows in *The Death of Expertise*, there are a number of reasons why this has occurred-ranging from easy access to Internet search engines to a customer satisfaction model within higher education.

**Beyond the 4% Rule** Abraham Okusanya 2018-03-05 Cogent, comprehensive, and entertaining, joins the best yet written in the field!' - Bill Bengen, the father of the '4% rule.' 'An effervescent contribution to the growing decumulation literature.' - Gregg McClymont, Shadow Pensions Minister (2011-2015) 'Abraham has done a great job exploring how the retirement research can be applied to UK retirees' - Michael Kitces MSFS, CFP, Partner at Pinnacle Advisory Group Retirement income planning used to be so simple. Most people never had to worry about how to convert their retirement savings into income for the rest of their lives. Today's low annuity rates, closure of increasing numbers of defined benefit schemes and the Pension Freedoms, introduced by the UK Government in 2015, ripped up the retirement income planning rulebook. The book confronts the challenge of how to secure a sustainable income that lasts a lifetime from your portfolio. It delves into the detail of the various withdrawal strategies, asset allocation and the unavoidable question of how long before you pop your clogs. This book helps retirees and their advisers navigate the treacherous retirement income landscape, using sound empirical evidence and practical application.

**Not That Kind of Love** Clare Wise 2018-02-15 'A remarkable account of illness, loss and the power of sibling love' The Times 'Wise's reflections on compassion fatigue are worth the price of this book alone, but what you take away is something splendid and unwearied: a sibling's devotion that feels remarkably like what we mean when we talk of a stage of grace.' Telegraph 'Inspirational... profoundly uplifting' Daily Mail 'Heartbreaking and inspiring in equal measure' Express 'This is a fantastic book ... Remarkable' Lorraine Kelly \_\_\_\_\_ A moving, thought-provoking and surprisingly humorous book which is both a description of a journey to death and a celebration of the act of living. Based on Clare Wise's blog, which she started when she was first diagnosed with cancer in 2013, *Not That Kind of Love* charts the highs and lows of the last three years of Clare's life. The end result is not a book that fills you with despair and anguish. On the contrary, *Not That Kind of Love* should be read by everybody for its candour, and for its warmth and spirit. Clare is an astonishingly dynamic, witty and fun personality, and her positivity and energy exude from every page. As she becomes too weak to type, her brother - the actor Greg Wise - takes over, and the book morphs into a beautiful meditation on life, and the necessity of talking about death. As Greg Wise writes in the book: 'Celebrate the small things, the small moments. If you find yourself with matching socks as you leave the house in the morning, that is a cause for celebration. If the rest of the day is spent finding the cure for cancer, or brokering world peace, then that's a bonus.'

**High Quality Care for All** Secretary of State for Health 2008 This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

**Contemporary Health Studies** Louise Warwick-Booth 2021-04-20 *Contemporary Health Studies* provides an accessible introduction to current issues and key debates in understanding and promoting health. Its up-to-date, global focus places a strong emphasis on the social, political and environmental dimensions of health. Part One sets the scene by looking closely at the definition of 'health' and outlining the aims and purpose of health studies. Part Two explores the different disciplines that underpin health studies, such as sociology, psychology, anthropology and health

psychology, incorporating new theoretical frameworks to help readers understand health. Part Three applies this knowledge to address the determinants of health, including chapters on individual factors, the role of public health, the latest policy influences on health and the growing importance of the global context. Each chapter contains contemporary statistics and evidence alongside carefully developed learning features designed to highlight the fundamentals of each topic, to apply these to in-depth case studies – from global antibiotic resistance to the challenge and promise of digital data –, and to pose questions for reflection and debate. Contemporary Health Studies is an essential guide for undergraduate health students written by three authors who have a wealth of teaching experience in this subject area. Their book will inspire readers to consider the human experience of health within contemporary global society as it is mediated by individual, societal and global contexts.

*Blessed* Kate Bowler 2018-03 'Blessed' offers a comprehensive history of the rise of the American prosperity gospel. What began as diverse metaphysical, pentecostal, and self-help conceptions about the power of the mind became one of the most influential popular religious movements of the last century. The book follows how the movement took shape after World War II in pentecostal healing revivals and exploded onto the national scene through televangelists with big hair and bigger promises. It survived the scandals of the late 1980s and remade its image as a therapeutic and effective theology of modern living. Now thriving in the 21st century megachurch movement, the prosperity gospel reigns as a full-fledged cultural phenomenon.

**Superpower Struggles** J. Redwood 2005-03-22 Since the war in Iraq of 2003, relations between the USA and the EU have been strained and the UK has been increasingly regarded as the US Government's only dependable ally. In this new book John Redwood examines the growing conflicts between an EU flexing its muscles against the USA, and the dominance of the US global economy and military machine. He points to the phenomenal rise of China to say that whilst eyes are fixed on the EU superstate experiment the real events that will shape the world in the next 50 years are unfolding on the other side of the globe. To maintain a position of influence in the world, he writes that the UK must renegotiate with the EU and keep open its links to Asia and the USA: the true battle for supremacy will not be between the EU and the USA but between Asia and the USA, and it is already underway.

I'm Glad My Mom Died Jennette McCurdy 2022-08-09 \* #1 NEW YORK TIMES BESTSELLER \* #1 INTERNATIONAL BESTSELLER \* MORE THAN 2 MILLION COPIES SOLD! A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother's dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called "calorie restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, "Your eyelashes are invisible, okay? You think Dakota Fanning doesn't tint hers?" She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I'm Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called *iCarly*, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi ("Hi Gale!"), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the *iCarly* spinoff *Sam & Cat* alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

**Sex, Death, and the Superego** Ronald Britton 2018-04-17 This book is a personal reappraisal of psychoanalytic theories in the light of clinical experience. The first part is about sexuality and begins where psychoanalysis began, with hysteria. The second part is about the ego and the super-ego, the relationship of which dominated Freud's writing from his middle period onwards. The last part is on narcissism and the narcissistic disorders, a major preoccupation of psychoanalysis in the second half of the twentieth century.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine 2016-12-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Keep Calm and Call the Dean of Students Art Munin 2023-07-03 The role of Dean of Students is pivotal: in students' lives; for their institutions as a conduit to senior administration about issues of concern to students; as a figure who can coordinate disparate campus constituencies -- from academic affairs and athletics to campus safety and relationships with parents and alums; and as a crisis manager. What preparation, skills, dispositions, and knowledge do DOSs need to be effective in their role; and, indeed, what areas and range of activities generally fall under their responsibility? Through chapters by experienced DOSs – from early career to veterans and in between – this book provides vivid first-hand accounts of

what's involved in managing the multiple roles of the deanship, its immense personal rewards, the positive impact that practitioners can make in the lives of students, and on campus policy and environment, without glossing over the demands on time and the concomitant stresses. The contributors describe the paths they followed to take on the role, and what they do to keep current. Each chapter offers a wealth of anecdotes that provide an insider's feel for the daily life of the DOS, and how incumbents have found ways to integrate family and personal needs with the discharging of their often demanding responsibilities. The contributing authors offer valuable advice on setting priorities and dealing with issues as varied as setting budgets, creating an effective team, delegation, and addressing student conduct issues. They offer guidance on developing allies across campus, keeping up to date with trends and legislation, and building a network of mentors and advisors through professional associations and connection with their peers at institutions around the country. The book concludes with some perspectives about the meaning and purpose of the dean of students role in our current era and as we look to the future of higher education. The dean of students is a challenging role because it is often the one administrator thrust onto the frontlines to meet students not only at their best, but also at their worst. This person is an advocate and educator, disciplinarian and friend, confidant and counselor, and advisor and parent all rolled into one. *Keep Calm and Call the Dean of Students* offers a unique window into this challenging and rewarding position that will appeal to sitting deans; to those seeking this role; and to senior leaders in higher education seeking to appoint a DOS and/or organize a dean of students portfolio of responsibilities.

**Wasted** Elspeth Muir 2016-05-30 In 2009 Elspeth Muir's youngest brother, Alexander, finished his last university exam and went out with some mates on the town. Later that night he wandered to the Story Bridge. He put his phone, wallet, T-shirt and thongs on the walkway, climbed over the railing, and jumped thirty metres into the Brisbane River below. Three days passed before police divers pulled his body out of the water. When Alexander had drowned, his blood-alcohol reading was almost five times the legal limit for driving. Why do some of us drink so much, and what happens when we do? Fewer young Australians are drinking heavily, but the rates of alcohol abuse and associated problems—from blackouts to sexual assaults and one-punch killings—are undiminished. Intimate and beautifully told, *Wasted* illuminates the sorrows, and the joys, of drinking. Elspeth Muir is a Brisbane author whose writing has appeared in the *Lifted Brow*, *The Best of the Lifted Brow: Volume One*, *Griffith Review*, *Voiceworks* and *Bumf*. She is a postgraduate student at the University of Queensland. 'Deeply personal and unflinchingly honest, Muir's debut book is among the best long-form explorations of how and why some Australians drink alcohol to excess...It is a striking work and among the strongest debut books I have read.' Australian 'Intricately crafted...An intimate portrait of a grieving family and a nation unable to reconcile itself to the harmful effects of its drinking culture...Reminiscent of writers such as Chloe Hooper and Helen Garner...This book will help you think critically and compassionately about those who seek solace in alcohol.' Books + Publishing 'Wasted barrels headfirst into the alcohol-soaked heart of Australia to report on our fraught love affair with drinking.' Liam Pieper 'There is no lapse in urgency in *Wasted*; this conversation is a crucial one to have. Five stars.' Good Reading 'The prose style of this unheralded writer...is so achingly beautiful and assured, Helen Garner might be pleased to hand her the keys to the creative nonfiction kingdom and ride off into the Carlton sunset.' Saturday Paper '[Muir] gifts readers gorgeously evocative passages which convey a depth of emotion...*Wasted* is a haunting read.' Readings 'Elspeth writes beautifully and honestly, documenting the shocking loss...in such heartbreaking circumstances.' Mamamia '[Muir] concludes of her brother's death, "What a waste of a life that was." Yet by determinedly documenting the drinking culture that coddled him, she has opened vital new lines of enquiry into our duty of care towards drinkers. It's a tragedy, but now, not entirely a waste.' Lifted Brow 'Interweaving brilliant reportage with memoir, *Wasted* delves into Australia's complicated relationship with alcohol...Timely and eye-opening.' Canberra Weekly 'The strongest new Australian voice I've come across this year.' Readings, Our Favourite Books of 2016 (so far) 'Wasted is a book that every New Zealander and Australian needs to read...If I had my way, I'd give this to everyone in their last year of high school, and their parents too.' Booksellers New Zealand 'Elspeth Muir's memoir begins after her younger brother's night of heavy drinking culminates with him jumping from a bridge and drowning in the Brisbane River. Her handling of the subject is, by turn, heartbreaking, evocative and, in parts, refreshingly weird, and her assured voice makes this a sobering read.' Best Non-Fiction Books of 2016, Readings 'This devastating personal story of loss and grief is also an unflinching examination of the damaging drinking habits of young Australians, and of a society that not only permits, but encourages them.' Junkee

**Third Party Sex Work and Pimps in the Age of Anti-trafficking** Amber Horning 2017-01-03 This volume is a compilation of new original qualitative and ethnographic research on pimps and other third party facilitators of commercial sex from the developed and developing world. From African-American pimps in the United States and Eastern European migrants in Germany to Brazilian cafetões and cafetinas this volume features the lives and voices of the men and women who enable diverse and culturally distinct sex markets around the world. In scholarly, popular, and policy-making discourses, such individuals are typically viewed as larger-than-life hustlers, violent predators, and brutal exploiters. However, there is actually very little empirical research-based knowledge about how pimps and third party facilitators actually live, labor, and make meaning in their everyday lives. Nearly all previous knowledge derives from hearsay and post-hoc reporting from ex-sex-workers, customers, police and government agents, neighbors, and self-aggrandizing fictionalized memoirs. This volume is the first published compilation of empirically researched data and analysis about pimps and third parties working in the sex trade across the globe. Situated in an age of highly punitive and ubiquitous global anti-trafficking law, it challenges highly charged public policy stereotypes that conflate pimping and sex trafficking, in order to understand the lived experience of pimps and the men and women whose work they facilitate.

**Going to Sea in a Sieve** Danny Baker 2015-12-01 The first hilarious volume of comedy writer, journalist, radio DJ and screenwriter Danny Baker's memoir, and now the inspiration for the major BBC series *CRADLE TO GRAVE*, starring Peter Kay. 'And what was our life like in this noisy, dangerous and polluted industrial pock-mark wedged into one of the capital's toughest neighbourhoods? It was, of course, utterly magnificent and I'd give anything to climb inside it again for just one day.' In the first volume of his memoirs, Danny Baker brings his early years to life as only he knows how. With his trademark humour and eye for a killer anecdote, he takes us all the way from the council house in south-east London that he shared

with his mum Betty and dad 'Spud' (played by Peter Kay) to the music-biz excesses of Los Angeles, where he famously interviewed Michael Jackson for the NME. Laugh-out-loud funny, it is also an affectionate but unsentimental hymn to a bygone era.

**Healthy lives, healthy people** Great Britain: Department of Health 2010-11-30 The Government recognises that many lifestyle-driven health problems are at alarming levels: obesity; high rates of sexually transmitted infections; a relatively large population of drug users; rising levels of harm from alcohol; 80,000 deaths a year from smoking; poor mental health; health inequalities between rich and poor. This white paper outlines the Government's proposals to protect the population from serious health threats; help people live longer, healthier and more fulfilling lives; and improve the health of the poorest. It aims to empower individuals to make healthy choices and give communities and local government the freedom, responsibility and funding to innovate and develop ways of improving public health in their area. The paper responds to Sir Michael Marmot's strategic review of health inequalities in England post 2010 - "Fair society, healthy lives" (available at <http://www.marmotreview.org/AssetLibrary/pdfs/Reports/FairSocietyHealthyLives.pdf>) and adopts its life course framework for tackling the wider social determinants of health. A new dedicated public health service - Public Health England - will be created to ensure excellence, expertise and responsiveness, particularly on health protection where a national response is vital. The paper gives a timetable showing how the proposals will be implemented and an annex sets out a vision of the role of the Director of Public Health. The Department is also publishing a fuller story on the health of England in "Our health and wellbeing today"

**Care Without Coverage** Institute of Medicine 2002-06-20 Many Americans believe that people who lack health insurance somehow get the care they really need. *Care Without Coverage* examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

**The Sopranos** Alan Warner 2011-01-18 NOW A SELL-OUT PLAY: OUR LADIES OF PERPETUAL SUCCOUR The choir from Our Lady of Perpetual Succour School for Girls is being bussed to the national finals in the big, big city. And it's an important day for The Sopranos - Orla, Kylah, (Ra)Chell, Amanda Konky and Fionnula (the Cooler) - pub-crawling, shoplifting and body-piercing being the top priorities. Then it's time to lose that competition - lose, because a nuclear sub has just anchored in the bay and, tonight, the Man Trap disco will be full of submariners on shore-leave. There is no time for delays. . . But after the fifth bottle of alco-pop up the back of the bus it's clear that all is not going to plan, for anyone. The Sopranos are never going to be the same. 'Compassionate and riotously funny. It is a long time since I read a novel which had me rocking with laughter' -The Times

**Communities in Action** National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

**Feminist Connections** Katherine Fredlund 2020 Highlights feminist rhetorical practices that disrupt and surpass boundaries of time and space In

1917, Alice Paul and other suffragists famously picketed in front of the White House while holding banners with short, pithy sayings such as "Mr. President: How long must women wait for Liberty?" Their juxtaposition of this short phrase with the image of the White House (a symbol of liberty and justice) relies on the same rhetorical tactics as memes, a genre contemporary feminists use frequently to make arguments about reproductive rights, Black Lives Matter, sex-positivity, and more. Many such connections between feminists of different spaces, places, and eras have yet to be considered, let alone understood. *Feminist Connections: Rhetoric and Activism across Time, Space, and Place* reconsiders feminist rhetorical strategies as linked, intergenerational, and surprisingly consistent despite the emergence of new forms of media and intersectional considerations. Contributors to this volume highlight continuities in feminist rhetorical practices that are often invisible to scholars, obscured by time, new media, and wildly different cultural, political, and social contexts. Thus, this collection takes a nonchronological approach to the study of feminist rhetoric, grouping chapters by rhetorical practice rather than time, content, or choice of media. By connecting historical, contemporary, and future trajectories, this collection develops three feminist rhetorical frameworks: revisionary rhetorics, circulatory rhetorics, and response rhetorics. A theorization of these frameworks explains how feminist rhetorical practices (past and present) rely on similar but diverse methods to create change and fight oppression. Identifying these strategies not only helps us rethink feminist rhetoric from an academic perspective but also allows us to enact feminist activist rhetorics beyond the academy during a time in which feminist scholarship cannot afford to remain behind its hallowed yet insular walls.

*Why We Sleep* Matthew Walker 2017-10-03 "Sleep is one of the most important but least understood aspects of our life, wellness, and longevity ... An explosion of scientific discoveries in the last twenty years has shed new light on this fundamental aspect of our lives. Now ... neuroscientist and sleep expert Matthew Walker gives us a new understanding of the vital importance of sleep and dreaming"--Amazon.com.

*Top Five Regrets of the Dying* Bronnie Ware 2019-08-13 Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

*Coaching and Supervising Through Bereavement* Julia Menaul 2022-10-17 This book presents a pragmatic guide for coaches and supervisors working with grief and bereavement, providing both useful case studies and practical techniques to aid professionals in embracing the complexity of working with these topics in a coaching context. *Coaching and Supervising Through Bereavement* clearly delineates the boundary between bereavement issues requiring specialist counselling and 'normal' bereavement topics within coaching. It addresses how to coach clients through all different forms of bereavement, not just through death but also other losses such as job loss and relationship loss, and enables coaches to shine a light on their own bereavement journeys for the benefits of themselves and their clients. The authors also offer a guide for coaching supervisors to aid the ethical and emotional support required for their own supervisees and themselves. This book debunks the myth that bereavement should not be discussed in coaching, and so will be a valuable resource for any practicing coach or supervisor of all levels of experience or expertise.

*Lesbian Death* Mairead Sullivan 2022-11-29 Engaging with fears of lesbian death to explore the value of lesbian beyond identity The loss of lesbian spaces, as well as ideas of the lesbian as anachronistic has called into question the place of lesbian identity within our current culture. In *Lesbian Death*, Mairead Sullivan probes the perception that lesbian status is in retreat, exploring the political promises—and especially the failures—of lesbian feminism and its usefulness today. *Lesbian Death* reads how lesbian is conceptualized in relation to death from the 1970s onward to argue that lesbian offers disruptive potential. *Lesbian Death* examines the rise of lesbian breast cancer activism in San Francisco in conversation with ACT UP, the lesbian separatist manifestos "The C.L.I.T. Papers," the enduring specter of lesbian bed death, and the weaponization of lesbian identity against trans lives. By situating the lesbian as a border figure between feminist and queer, *Lesbian Death* offers a fresh perspective on the value of lesbian for both feminist and queer projects, even if her value is her death.
