**A Woman's Guide to Living with Heart Disease** - Carolyn Thomas 2017-11-28

Heart disease kills more women every year than all forms of cancer combined. Recovering from a

major heart attack, Thomas wrote this book based on her own experience and the experiences of other women with the disease, compiled through blog posts and Thomas's experiences as a participant at Mayo Clinic's medical conference on women's heart disease. She explains how to recognize the early signs, explains why so many women are misdiagnosed, and covers to what to expect during your recovery.

**A Doctor's War** - Arthur L. Ludwick, Jr., M.D., 2022-09-19

A medical officer in the 34th "Red Bull" Infantry Division on the front lines of World War II, Lt. Col./Maj. Arthur L. Ludwick, Jr., was responsible for the well-being of traumatized and wounded

American soldiers through some of the bloodiest engagements in North Africa and Italy: Kasserine and Fondouk Passes, Hill 609, Monte Pantano, Cassino, and Anzio. He was awarded both the Purple Heart and Silver Star, unusual combat commendations for an unarmed medical officer. His letters home detail his experiences, with keen observations of the people and landscapes. Based on Ludwick's letters and an archive of interviews, military documents and photos, this multifaceted narrative, compiled by his daughter, also tells the story of her discovery of her father as the young man she never knew.

Care Without Coverage - Institute of Medicine  
2002-06-20

Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general

health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

**Pretty Face** - Lucy Parker 2017-02-20

Highly acclaimed, award-winning author of *Act Like It* Lucy Parker returns readers to the London stage with laugh-out-loud wit and plenty of drama. The play's the fling. It's not actress Lily Lamprey's fault that she's all curves and has the kind of voice that can fog up a camera lens. She wants to prove where her real talents lie—and that's not on a casting couch, thank you. When she hears esteemed director Luc Savage is renovating a legendary West End theater for a lofty new production, she knows it could be her chance—if only Luc wasn't so dictatorial, so bad-tempered and so incredibly sexy. Luc Savage has respect, integrity and experience. He also has it bad for Lily. He'd be willing to dismiss it as a midlife crisis, but this exasperating, irresistible woman is actually a very talented actress.

Unfortunately, their romance is not only raising questions about Lily's suddenly rising career, it's threatening Luc's professional reputation. The course of true love never did run smooth. But if they're not careful, it could bring down the curtain on both their careers... This book is approximately 96,000 words. One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise!

Her best friends—wacko Sally CJ,

respectable Frances, and white-knight deprived Marcia—are dealing with jiggy butts, saggy breasts, and a potpourri of men with more problems than them. Sally CJ, whose thirty-four double Ds are not shrinking with age, believes sex is the magic elixir for all evils. Frances, who just ended a dead-end relationship, is approaching aging through wine and expensive face creams. Marcia, a widow who has the ability to attract guys with major character flaws, is unintentionally transforming into a nun. As the women search for their next relationship, they reflect on youthful escapades and eventually create rules to guide them through the unfamiliar territory of Internet and blind dating. Menopausal Killer Sharks is an amusing, heartfelt tale centered around four middle-aged women who bravely face the third act of life with humor and, most importantly, each other.

**Strategies to Improve Cardiac Arrest Survival** - Institute of Medicine 2015-09-29  
Cardiac arrest can strike a seemingly healthy individual of any age, race, ethnicity, or gender at any time in any location, often without warning. Cardiac arrest is the third leading cause of death in the United States, following cancer and heart disease. Four out of five cardiac arrests occur in the home, and more than 90 percent of individuals with cardiac arrest die before reaching the hospital. First and foremost, cardiac arrest treatment is a community issue - local resources and personnel

must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented now to decrease this time, and recent advances in science could lead to new discoveries in the causes of, and treatments for, cardiac arrest. However, specific barriers must first be addressed. Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments, strategies, and research that promise to improve the survival and recovery of patients. The recommendations of Strategies to Improve Cardiac Arrest Survival provide high-priority actions to advance the field as a whole. This report will help citizens, government agencies, and private industry to improve health outcomes from sudden cardiac

From fits of jealousy to longing looks and heated whispers, onlookers are stunned by this blooming romance. Could the rumors be right? Could this unlikely romance be the real thing? Or are these gifted stage actors playing us all? PRETTY FACE

When it comes to commitment, Trix has been there, done that, never wants to do it again. And Leo's this close to the job of a lifetime, which would take him away from London—and from Trix. Their past is a constant barrier between them. It seems hopeless. Utterly impossible. And yet...
