Saber Monograph No 3

Afro-Asia - 2005

The Great Mirror of Male Love - Saikaku Ihara
1990

Winner of the 1990 Japan-U.S. Friendship Commission Prize for the Translation of Japanese Literature. ----- "A welcome opportunity for wider comparison of the literary traditions and sexual conventions of Japanese and Euro-American cultures."--Journal of Japanese Studies

Mid-American Review of Sociology - 1985

Ciência e cultura - 1988

The Politics of Urban America - Dennis R. Judd
1998

How do public power and private resources interact in the governance of cities? What changes have occurred in our cities governing processes over the years? This interesting resource covers the essential topics in urban political economy. Issues of inequality, ethnic and racial tensions, and political fragmentation and spatial segregation have defined urban politics throughout the nation's history. This collection of readings shows that the recent focus upon urban unrest, crime, poverty, racial segregation and immigration are but the latest expression of long-term development.

Historians, politicians, educators.

A Inquisição em Sergipe - Luiz Roberto de Barros Mott 1989

Gay Politics, Urban Politics - Robert C. Bailey
1999-01-05

Drawing from surveys of political attitudes and voting patterns among gays, lesbians, and bisexuals, Bailey's study is a revealing window into how sexual identity has fostered political alliances. The book investigates mayoral voting patterns in America's three largest cities--New York, Los Angeles, and Chicago.

A Reader's Guide to Contemporary Literary Theory - Raman Selden 1989

Unsurpassed as a text for upper-division and beginning graduate students, Raman Selden's classic text is the liveliest, most readable and most reliable guide to contemporary literary theory. Includes applications of theory, cross-referenced to Selden's companion volume, *Practicing Theory and Reading Literature*.

Publishers Directory - 1990

Homosexuality and Psychology, Psychiatry, and Counseling - Wayne R. Dynes 1992

Following a contextual introduction, 26 articles, reprinted from a variety of sources, address such topics as counseling gay men who are coming out, childhood cross-gender behavior and adult homosexuality, neurohormonal functioning and sexual orientation, Jung's attitudes toward homosexuality, counseling gay adolescents, theories of sexual orientation, psychotherapy with lesbians, and sexual orientation and cognitive abilities. See also RA476. Annotation copyright by Book News, Inc., Portland, OR
Gay and Lesbian Studies - Henry L. Minton 1992

This important new book marks the coming of age of gay and lesbian studies programs at colleges and universities worldwide by documenting the dramatic changes that have occurred in the nature and goals of gay and lesbian studies. *Gay and Lesbian Studies* chronicles the development of gay and lesbian studies from its earliest development in European universities to the establishment of the Gay and Lesbian Studies Department at City College of San Francisco--the first gay and lesbian studies department at an American college. Authoritative contributors bring a variety of perspectives to the nature of the gay and lesbian studies discipline. Important topics in the book include discussions of the historical and theoretical context of gay and lesbian

studies, conceptual issues, practical aspects of teaching and developing programs, and political issues and implications. The broad scope of this informative volume encompasses the field of gay and lesbian studies as well as the debate over whether this is one integrated discipline or two distinct ones. *Gay and Lesbian Studies* provides essential information for studying the growth of gay and lesbian studies and the issues affecting its development. Some of the highlights of this seminal book include problems in defining the terms homosexual, homosexuality, gay, and lesbian, how sexual identity plays a unique and central role in informing and structuring the reading of texts, first-hand accounts of the issues involved in teaching courses and developing programs in gay and lesbian studies, how the first gay and lesbian studies department began at City College of San Francisco, and the role of community-based historians in reclaiming the lesbian and gay past. At this critical time in the midst of groundbreaking developments, this exciting new book provides an invaluable resource for the current state of the field of gay and lesbian studies.

Gay Life in the Former USSR - Daniel Schluter
2019-01-04

This work describes and analyzes the individual identities, social-ecological "landscape", and group undertakings among the homosexual population of the Soviet Union during the final years of the communist regime.

Readings in Gender in Africa - Andrea Cornwall
2005

Readings in Gender in Africa collects the most important critical and theoretical writings on how gender issues have transformed contemporary views of Africa. Scholarship from North America, Europe, and Africa is represented in this comprehensive volume. A synthetic introduction by Andrea Cornwall discusses efforts to include women in research about Africa. The volume not only shows how gender relations have been constructed on the African continent but reflects the changes in approach and inquiry that have been brought about as scholars consider gender identities and difference in their work. Specific themes covered here include the contestation and representation of gender, femininity and masculinity, livelihoods and lifeways, gender and

religion, gender and culture, and gender and governance. Readers from across the landscape of African studies will find this an essential sourcebook. Published in association with the International African Institute, London
Boy-Wives and Female Husbands - Stephen O. Murray 2021-04-01

Among the many myths created about Africa, the claim that homosexuality and gender diversity are absent or incidental is one of the oldest and most enduring. Historians, anthropologists, and many contemporary Africans alike have denied or overlooked African same-sex patterns or claimed that such patterns were introduced by Europeans or Arabs. In fact, same-sex love and nonbinary genders were and are widespread in Africa. *Boy-Wives and Female Husbands* documents the presence of this diversity in some fifty societies in every region of the continent south of the Sahara. Essays by scholars from a variety of disciplines explore institutionalized marriages between women, same-sex relations between men and boys in colonial work settings, mixed gender roles in east and west Africa, and the emergence of LGBTQ activism in South Africa, which became the first nation in the world to constitutionally ban discrimination based on sexual orientation. Also included are oral histories, folklore, and translations of early ethnographic reports by German and French observers. *Boy-Wives and Female Husbands* was the first serious study of same-sex sexuality and gender diversity in Africa, and this edition includes a new foreword by Marc Epprecht that underscores the significance of the book for a new generation of African scholars, as well as reflections on the book's genesis by the late Stephen O. Murray. This book is freely available in an open access edition thanks to the generous support of the Murray Hong Family Trust. Access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/1714>.
The Australian Quarterly - 1986

The Gay and Lesbian Liberation Movement - Margaret Cruikshank 2014-04-04

First Published in 1992. Routledge is an imprint of Taylor & Francis, an informa company.

Beyond the Lavender Lexicon - William Leap 1995

In this collection of essays, a group of linguists and social scientists examines specific instances of language use, and centers its analysis around the speakers/writers and their contributions to message-exchange within a setting. These prominent scholars create a basis for a bold exploration of homosexual dialogue as an independently developed linguistic construction, by arguing in support of distinctively constructed lesbian and gay languages.

Gay and Lesbian Americans and Political Participation - Raymond A. Smith 2002-05-01

A groundbreaking volume surveying the contributions that gay and lesbian Americans have made to the democratic process. In 1969, when lesbian, gay, bisexual, and transgender (LGBT) people first participated as a group in the political process, they faced an imposing array of obstacles. Everything from personal

rejection and violence; state anti-sodomy laws; exclusion from the armed forces; and legal discrimination in employment, housing, credit, consumer service, and public accommodations. Nevertheless, by the end of the millennium, LGBT people had transformed themselves into a well-organized and begrudgingly respected political force. In the process, they dramatically changed laws and attitudes across the nation. This new volume tells the story of the rapid growth and remarkable successes of the LGBT movement—a record that makes it one of the most successful social movements in U.S. history and, ironically, the least studied.
