

The A To Z Of Homosexuality Brent L Pickett

The a to Z of Bosnia and Herzegovina - Ante Cuvalo 2010-04

Diversity has always been at the heart of Bosnia and Herzegovina's character; even its dual name and physical geography display a particular heterogeneity. The medieval Bosnian state never enjoyed lasting political and ideological unity as its feudal, regional, and religious rifts pulled at the country's seams. Furthermore, because of its location and by a quirk of history, three major world religious and cultural traditions (Catholicism, Islam, and Orthodoxy) became cohabitants in this small Balkan country. Recently, the rebirth of its statehood has been exceptionally bloody and its diversity has been shaken. Even 11 years after the guns were silenced, the country is still under the "benevolent" protection of the international community, whose officials are keeping the state-building process in perpetual suspense, with no final result in sight. The A to Z of Bosnia and Herzegovina sheds light on the uncertain situation Bosnia and Herzegovina faces, while providing essential background information. This is accomplished through a chronology, an introduction, a bibliography, and more than 300 cross-referenced dictionary entries on individual topics spanning Bosnia and Herzegovina's political, economic, religious, and social system along with short biographies on important figures.

The A to Z of Old Time Radio - Robert C. Reinehr 2010-04-09

The A to Z of Old Time Radio provides essential facts and information on the Golden Age of Radio. This is accomplished through the use of a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the radio networks, programs, directors, producers, writers, actors, radio series, and radio stations. Entries on your favorite shows—The Lone Ranger, The Shadow, Dragnet, and Suspense—and actors—Bob Hope, George Burns, Gracie Allen, and

Edgar Bergen—will have you jumping from one entry to the next as you relive old favorites and discover hidden treasures from the Golden Age of Radio.

The A to Z of Moldova - Andrei Brezianu 2010-05-26

The Republic of Moldova claims a European lineage reaching back in time long before its 14th century accession to statehood. In the 15th century, it managed against all odds to avoid being conquered by Islam and—albeit an intermittent vassal after 1485—it maintained its autonomy and was never turned into a province of the Ottoman Empire. After this period, however, Moldova would not be so fortunate, as it altered between Russian, Romanian, and Soviet control until it finally gained its independence in 1991 from the Soviet Union. The A to Z of Moldova, through its chronology, introduction, appendixes, maps, bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions and significant political, economic, social, and cultural aspects, traces the history of this small, but densely populated country, providing a compass for the direction it is heading.

The A to Z of the Orthodox Church - Michael Prokurat 2010

Of the three major branches of Christianity, Orthodoxy is the least known and most misunderstood. The A to Z of the Orthodox Church provides students, researchers, and specialists with a desk encyclopedia of the theology and theologians, saints, sinners, places and events of the Eastern Church. Two millennia of the religion are surveyed in over five hundred concise entries, concentrating primarily on the last 150 years. Includes an overview of the early Church through the Byzantine and Russian Empires, into the present multinational Orthodox presence in the ecumenical movement. Many of the general entries cannot be found

elsewhere in English, and the comprehensive compilation of biographies of 19th- and 20th-century Orthodox theologians (American, Russian, Greek, and many other nationalities) is published here for the first time. This book includes a detailed 4,000-year chronology, illustrations, extensive bibliography, and an appendix listing the current canonical patriarchs and autocephalous churches.

The A to Z of Iceland - Gudmundur Halfdanarson 2010-05-10

While Iceland is the second largest inhabited island in Europe, with only 313,000 inhabitants in 2007, the Icelanders form one of the smallest independent nations in the world. Around two-thirds of the population lives in the capital, Reykjavík, and its suburbs, while the rest is spread around the inhabitable area of the country. Until fairly recently the Icelandic nation was unusually homogeneous, both in cultural and religious terms; in 1981, around 98 percent of the nation was born in Iceland and 96 percent belonged to the Lutheran state church or other Lutheran religious sects. In 2007, these numbers were down to 89 and 86 percent respectively, reflecting the rapidly growing multicultural nature of Icelandic society. The A to Z of Iceland traces Iceland's history and provides a compass for the direction the country is heading. This is done through its chronology, introductory essays, appendixes, map, bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions and significant political, economic, social, and cultural aspects.

The A to Z of Slovakia - Stanislav J. Kirschbaum 2010-05-10

The A to Z of Slovakia offers an up to date series of cross-referenced dictionary entries on Slovak political, social, and economic development since the creation of the second Slovak Republic in 1993 until its admission into the European Union in 2004. It includes all of the political actors: the presidents, prime ministers, and party leaders, and many leading academics and cultural personalities, including those from the national minorities. It also contains entries on the various institutions of the Slovak Republic like the judiciary, the armed forces, the media, and parliamentary committees as well as entries that explain Slovakia's position and role in international organizations like NATO and the

European Union. The historical survey explains how Slovakia, in its post-Communist transformation, was almost excluded, but in the end became a full member of these two institutions.

The A to Z of the Gypsies (Romanies) - Donald Kenrick 2010-04-09

The A to Z of the Gypsies (Romanies) seeks to end such prejudice by clarifying the facts about this nomadic people. Through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics, the history of the Gypsies and their culture is told.

The A to Z of Iran - John H. Lorentz 2010-04

Alphabetically arranged entries cover key individuals; major events; important institutions and organizations; and significant economic, political, social, religious, and cultural issues.

The A to Z of Ethics - Harry J. Gensler 2010-02-12

The A to Z of Ethics covers a very broad range of ethical topics, including ethical theories, historical periods, historical figures, applied ethics, ethical issues, ethical concepts, non-Western approaches, and related disciplines. Harry J. Gensler and Earl W. Spurgin tackle such issues as abortion, capital punishment, stem cell research, and terrorism while also explaining key theories like utilitarianism, natural law, social contract, and virtue ethics. This reference provides a complete overview of ethics through a detailed chronology, an introductory essay, a bibliography, and over 200 cross-referenced dictionary entries, including bioethics, business ethics, Aristotle, Hobbes, autonomy, confidentiality, Confucius, and psychology.

The A to Z of Ancient Mesoamerica - Joel W. Palka 2010-04-01

The A to Z of Ancient Mesoamerica covers some of the major discoveries throughout ancient Mesoamerica from the last 100 years. The results of previous and continuing research and explorations, plus recent interpretations of ancient cultures and new work at archaeological sites in Mesoamerica are summarized here. Included in this volume are information and insights on archaeological sites, material culture, social and economic organization, religion and belief systems, and the social

history of ancient Mesoamerica. The entries contain geographical, chronological, historical, and interpretive data that serve as a condensed and accessible resource of reference material.

The A to Z of Slovenia - Leopoldina Plut-Pregelj 2010-05-20

The A to Z of Slovenia covers the history of Slovenia and its struggle to gain independence from communism. This is done through a detailed chronology, an introduction, appendixes, a bibliography, and hundreds of cross-referenced dictionary entries on some of the more significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

The A to Z of Logic - Harry J. Gensler 2010

The A to Z of Logic introduces the central concepts of the field in a series of brief, non-technical, cross-referenced dictionary entries. The 352 alphabetically arranged entries give a clear, basic introduction to a very broad range of logical topics. Entries can be found on deductive systems, such as propositional logic, modal logic, deontic logic, temporal logic, set theory, many-valued logic, mereology, and paraconsistent logic.

Similarly, there are entries on topics relating to those previously mentioned such as negation, conditionals, truth tables, and proofs.

Historical periods and figures are also covered, including ancient logic, medieval logic, Buddhist logic, Aristotle, Ockham, Boole, Frege, Russell, Gödel, and Quine. There are even entries relating logic to other areas and topics, like biology, computers, ethics, gender, God, psychology, metaphysics, abstract entities, algorithms, the ad hominem fallacy, inductive logic, informal logic, the liar paradox, metalogic, philosophy of logic, and software for learning logic. In addition to the dictionary, there is a substantial chronology listing the main events in the history of logic, an introduction that sketches the central ideas of logic and how it has evolved into what it is today, and an extensive bibliography of related readings. This book is not only useful for specialists but also understandable to students and other beginners in the field.

The A to Z of Vietnam - Bruce M. Lockhart 2010

Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War. However, despite a

relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies. In an effort to change this stagnation, Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive, export-driven industries. The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms, the period of French Indochina, the wars for liberation, the Vietnam War, and much more. Hundreds of cross-referenced A to Z dictionary entries are included on political, economic, social and cultural aspects as well as the major cities and geographic features. This book also contains a chronology and introduction that traces Vietnam's history, as well as a bibliography.

The A to Z of Wittgenstein's Philosophy - Duncan Richter 2010

Ludwig Wittgenstein (1889-1951) was undoubtedly one of the most important philosophers of the 20th century, and perhaps of any century. He was also a fascinating, charismatic, and irritating man. His philosophical ability was recognized almost immediately by Bertrand Russell, and during his lifetime his work influenced first logical positivism and then ordinary language philosophy. Since then it has also become central in post-analytical philosophical thought. Beyond the world of academic philosophy it has inspired playwrights, poets, novelists, architects, filmmakers, and biographers. The A to Z of Wittgenstein's Philosophy is intended for anyone who wants to know more about the philosophy and the life of this enigmatic thinker. The book contains an introductory overview of his life and work, a timeline of the major relevant events in and after his life, an extensive bibliography, and, above all, an A-Z of ideas, people, and places that have been involved in his philosophy and its reception. The dictionary is written with no particular agenda and includes entries on philosophers (and others) who influenced Wittgenstein, those he influenced in turn, and some of the main figures in contemporary Wittgenstein scholarship. Suggestions for further reading are also included, as well as a guide to the literature on Wittgenstein and a bibliography broken down by subject

area.

The A to Z of Denmark - Alastair H. Thomas 2010-05-10

Denmark is the oldest monarchy in Europe. At different points in its history, Denmark's boundaries have encompassed England, Sweden, West Africa, India, and the West Indies. Despite its changing and relatively small boundaries, Denmark has played a much larger part in the politics of Europe than might be expected. Additionally, through its territories (Faroe Islands and Greenland), Denmark has managed to retain an important presence in the North Atlantic. Today, democratic Denmark, with its thriving capital Copenhagen, is peaceful, prosperous, and progressive. Within NATO, Denmark has contributed to peace-keeping in the Persian Gulf and Bosnia. The "Danish Model" of welfare gives Danes a real sense of social security and presents many naysayers with a provocative example of a successfully managed welfare state. Danes have a reputation for inventiveness and good design, whether in architecture, furniture, or industrial design. The A to Z of Denmark relates the history of this successful country through a chronology, an introductory essay, appendixes, a bibliography, and hundreds of cross-referenced dictionary entries on kings, politicians, officials, explorers, authors, architects, composers, painters, astronomers, educationists, reformers, political parties, social movements, and other aspects of Danish society.

The A to Z of Ancient Israel - Niels Peter Lemche 2010-04-09

For these very reasons, because Ancient Israel means so much to us and because we actually know so little for sure, *The A to Z of Ancient Israel* is particularly important. It examines the usual sources in the Old Testament and surveys the findings of more recent archaeological research to help us determine just what happened and when, a far from simple task. It includes entries on most of the persons, places, and events which are generally considered, and shows more broadly what the Kingdoms of Israel and Judah were like and what role they played in the ancient world, but it also defines them as closely as possible according to the latest data.

The A to Z of Aesthetics - Dabney Townsend 2010-04-01

The A to Z of Aesthetics covers its history from Classical Greece to the present, including entries on non-western aesthetics. The book contains a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on the main concepts, terminology, important persons (philosophers, critics, and artists), and the rules and criteria we apply in making judgments on art. By providing concise information on aesthetics, this dictionary is not only accessible to students, but it provides details and facts to specialists in the field.

The A to Z of Kant and Kantianism - Helmut Holzhey 2010

Few philosophers stand out as boldly as Immanuel Kant (1724-1804). His principal works, including *Critique of Pure Reason*, *Critique of Practical Reason*, and *Critique of Judgement*, are known worldwide. During his time, schools of Kantianism quickly sprang up and were later joined by schools of Neokantianism. Admittedly, not all of Kant's concepts have aged well, but many are still taught today among the basics of philosophy. --

The A to Z of Sacred Music - Joseph Swain 2010

Nearly all religious traditions have reserved a special place for sacred music. Whether it is music accompanying a ritual or purely for devotional purposes, music composed for entire congregations or for the trained soloist, or music set to holy words or purely instrumental, in some form or another, music is present. In fact, in some traditions the relation between the music and the ritual is so intimate that to distinguish between them would be inaccurate. *The A to Z of Sacred Music* covers the most important aspects of the sacred music of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, and other smaller religious groups. It provides useful information on all the significant traditions of this music through the use of a chronology, an introductory essay, a bibliography, appendixes, and hundreds of cross-referenced dictionary entries on major types of music, composers, key religious figures, specialized positions, genres of composition, technical terms, instruments, fundamental documents and sources, significant places, and important musical compositions.

The A to Z of Homosexuality - Brent L. Pickett 2009-09-02

The history of sexuality is central to social history, the history of ideas, the realization or repression of human rights, and other areas of focus. This is also true about those who have had, or do have, what could be called minority sexualities. Same-sex attraction has generally been a minority sexuality; it has been the object of tremendous repression and vociferous complaint but also one of praise by talented poets and philosophers. The A to Z of Homosexuality provides a comprehensive survey of same-sex relations from ancient China and Greece to the contemporary world. It covers the gay rights movement from its origins in 19th century Europe to the nascent global network today. Philosophic

treatments, such as natural law and queer theory, along with legal issues and court decisions are included. Global in its coverage of the variety of same-sex relations, their legal treatment, and social norms concerning same-sex attraction, this reference includes a chronology, an introductory essay, a bibliography, and cross-referenced dictionary entries on specific countries and regions, influential historical figures, laws that criminalized same-sex sexuality, various historical terms that have been used to refer to aspects of same-sex love, and contemporary events and legal decisions.
