

The Pink Agenda Sexual Revolution In South Africa And The Ruin Of The Family

Victorious Christians - Peter Hammond
2021-05-19

Victorious Christians includes: 32 Character studies with over 260 pictures. The 380-page book includes 10 Reformers, 6 Martyrs, 6 Missionaries, 4 Evangelists, 4 Professors, 3 Soldiers, 2 Musicians, 2 Kings, 1 Artist, an Inventor, an Historian and a Queen. This book provides fascinating insights to virtually every age of Church history by focusing on Christian characters, their courage and convictions in times of crisis. Lavishly illustrated, this book can be used for recreational reading by those who enjoy reading Biographies, or as a treasure trove of illustrations and examples for pastors, teachers and homeschoolers. Each character's biography contains enough information to make them familiar without being too long of a read. The many many pictures collected by Dr Hammond will be of interest to adults and children alike and will further cement the reality of the life and times of the book's subjects.

The Pink Agenda - Christine McCafferty 2001

Libido Dominandi - E. Michael Jones 2005-04

Homosexuality - F. Earle Fox 2002-07

A look at the Biblical and scientific foundations of truth, righteousness, and love for dealing with homosexuality; why America fell for a massive program of propaganda; and the Godly strategy for rebuilding a sane understanding of human sexuality.

The Same Sex Controversy - James White
2002-04-01

In the guise of tolerance, Hollywood and modern culture have granted "alternative lifestyle" status to a behavior condemned by Scripture. In the Same Sex Controversy, the authors clarify and defend the Bible's stand on homosexuality as they expand on key passages. Subjects include the basis of biblical morality, biblical teaching on marriage and sexuality, the new

"homosexual apologist," and both Old and New Testament witnesses against homosexuality. They also provide information on how to lovingly and biblically reach out to those caught up in its grip.

Slavery, Terrorism & Islam - Peter Hammond
2008

"Slavery, Terrorism & Islam, is must reading to all those who want to find out the roots of the terrible Terrorism that is threatening global security. Slavery, Terrorism & Islam traces the roots of terrorism quite scientifically, and especially the roots of Quran itself is very interesting. It will help and extensively educate the International community to understand this monster called Terrorism / Rev. Jeffreys Kayanga, Episcopal Church of Sudan. The conflict between Islam and the rest of the world may dominate the headlines, define our foreign policy, and give new urgency to the day-to-day mission of our churches, but why that is the case is still not very well understood. It is for that reason that Frontline Fellowship has produced this vital new study of one of the most neglected aspects of Islam. Born out of the difficult experience of missionaries on the front lines of the battle for the soul of Africa. This book is designed to equip ordinary Christians from every walk of life to wisely and Scripturally minister in a world where the conflict between Islam and civilization is all too obvious / Dr. George Grant"-

Fire in the Minds of Men - James H. Billington
1999

This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most

pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Slavery, Terrorism & Islam - Peter Hammond 2005

This book is a fascinating, well illustrated and thoroughly documented response to the relentless anti-Christian propaganda that has been generated by Muslim and marxist groups and by Hollywood film makers. As Karl Marx declared: "The first battlefield is the re-writing of history!" "Slavery, Terrorism and Islam" is an eye opening, positive and practical handbook to empower you to respond effectively to the challenge of Islam today.

Desire Work - Melissa Hackman 2018-08-10

In postapartheid Cape Town—Africa's gay capital—many Pentecostal men turned to "ex-gay" ministries in hopes of "curing" their homosexuality in order to conform to conservative Christian values and African social norms. In *Desire Work* Melissa Hackman traces the experiences of predominantly white ex-gay men as they attempt to forge a heterosexual masculinity and enter into heterosexual marriage through emotional, bodily, and religious work. These men subjected themselves to daily self-surveillance and followed prescribed behaviors such as changing how they talked and walked. Ex-gay men also saw themselves as participating in the redemption of the nation, because South African society was perceived as suffering from a crisis of masculinity in which the country lacked enough moral heterosexual men. By tying the experience of ex-gay men to the convergence of social movements and public debates surrounding race, violence, religion, and masculinity in South Africa, Hackman offers insights into the construction of personal identities in the context of sexuality and spirituality.

Watching the English - Kate Fox 2005-04-11
In "Watching The English" anthropologist Kate Fox takes a revealing look at the quirks, habits and foibles of the English people. She puts the English national character under her anthropological microscope, and finds a strange and fascinating culture, governed by complex sets of unspoken rules and byzantine codes of behaviour. The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ...Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

Singing, Speaking and Writing Politics -

Mirjana N. Dedaić 2015-10-15

The discourses of the post-apartheid South Africa embody symbols of change and promises of new lessons in history. This is the first volume that brings together analyses of a variety of discourses produced in South Africa through which we follow the evolution of transitional processes in the country's political institutions and in the opinions of its populace. The book offers to the reader a visit to the Parliament, a peek into the internet forums, analyses of the country's official papers and speeches, and the media accounts. Through all these discourses we see the burning questions - "Who Are We Now?" and "Who Do We Want To Be?" - being repetitively examined and identities cross-formed while the country deals with new, post-apartheid challenges, as well as successes.

How the World Changed Social Media -

Daniel Miller 2016-02-29

How the World Changed Social Media is the first book in Why We Post, a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world. This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender, education and commerce. What is the result of the increased emphasis on visual communication? Are we becoming more individual or more social? Why is public social media so conservative? Why does equality online fail to shift inequality offline? How did memes become the moral police of the internet?

Supported by an introduction to the project's academic framework and theoretical terms that help to account for the findings, the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post. Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

The State of Secularism - Dhammamegha

Annie Leatt 2017-09-01

A history of global political secularism comparing religion and traditional authority in apartheid South Africa. The Dutch Reformed Church, it was said in apartheid South Africa, was the National Party at prayer, and indeed, given that the Bible was so fundamental to much of the legislation that governed the apartheid state, that apparently satirical description had the ring of truth. 'Religion in South Africa's past', writes Dhammamegha Annie Leatt has been 'saturated by politics' and politics 'saturated by religion'. So how, she asks, was it possible for a new state to found itself without religious authority? Why did the churches give up so much of their political role in the transition? How can we think about tradition and the customary in relation to secularism? How can we not? In The State of Secularism Leatt guides the reader from a history of global political secularism through an exploration of the roles played by religion and traditional authority in apartheid South Africa to the position of religion in the post-apartheid state. She analyses the negotiations relating to religion in the constitution-making process, arguing, that South Africa is both secular in its Constitution and judicial foundations and increasingly non-secular in its embrace of traditional authorities and customary law. In the final chapter Leatt turns her attention to post-apartheid South

Africa, examining changing relationships between churches and the ruling African National Congress and the increasing influence of traditional leaders and evangelical Christians in an anti-liberal alliance. This book makes a tremendous contribution to the literature on

postcolonial politics on the African continent. It has wonderful insights into the founding of a constitutional democracy in South African and will appeal to students in history, politics, sociology and anthropology and constitutional law.
