

The Mind Of The Pedophile Child Sexual Abuse And F C R

Boys for Sale - Marc Finks 2013-01-04

More than 2,000,000 children worldwide are bought and sold each year to be used as slaves. When his parents agree to send Tavi off to a special school in the city that promises wealth and success, they have no idea that they are handing their son over to real life human traffickers. Tavi's excitement soon turns into horror as he learns what kind of life he has been forced into and the things that are expected of him. As his world comes crashing down around him, he struggles to stay true to himself in the midst of the darkness. But when one of his friends dies a horrific death, Tavi knows that he must escape if he is to survive and ever have a chance at a normal life again. Disclaimer - This book does contain a couple of very brief sex scenes and minor drug usage. It's based on real-life anecdotes from children who have forced into this kind of situation, and so there are a couple of gritty, unpalatable images that would have been unrealistic to leave out.

The Women of CourtWatch - Carole Bell Ford
2010-01-01

Houston was a terrible place to divorce or seek child custody in the 1980s and early 1990s. Family court judges routinely rendered verdicts that damaged the interests of women and children. In some especially shocking cases, they even granted custody to fathers who had been accused of molesting their own children. Yet despite persistent allegations of cronyism, incompetence, sexism, racism, bribery, and fraud, the judges wielded such political power and influence that removing them seemed all but

impossible. The family court system was clearly broken, but there appeared to be no way to fix it. This book recounts the inspiring and courageous story of women activists who came together to oppose Houston's family court judges and whose political action committee, CourtWatch, played a crucial role in defeating five of the judges in the 1994 judicial election. Carole Bell Ford draws on extensive interviews with Florence Kusnetz, the attorney who led the reform effort, and other CourtWatch veterans, as well as news accounts, to provide a full history of the formation, struggles, and successes of a women's grassroots organization that overcame powerful political interests to improve Houston's family courts. More than just a local story, however, this history of CourtWatch provides a model that can be used by activists in other communities in which legal and social institutions have gone astray. It also honors the heroism of Florence Kusnetz, whose commitment to the Jewish concept of tikkun olam ("repairing and improving the world") brought her out of a comfortable retirement to fight for justice for women and children.

Child Abuse - Laura Hoyano 2010

There is universal agreement that 'something must be done' about child abuse, that the legal and policy frameworks established for the protection of children are inadequate. Time and again this is brought home by cases that reveal major failures in the investigation and prosecution of child abuse suspects. There is much less clarity about what qualifies as child abuse and what should be done about it. Failings in the law are often invoked by politicians and the media at times of crisis, when a societal response is demanded. The presence of new legislation on the statute book or the creation of

rules and protocols which professionals must follow is one socially acceptable sign that the problem has been recognized and that an effective response has been implemented. Are these ad hoc responses helpful? If not, what should be done to address the current weaknesses in the protection of children? This book looks across legal and geographical boundaries to consider the law and policy on child abuse. It examines the whole process of child protection, from complaint investigation to prosecution, and analyzes the legal disciplines of criminal, family, tort and evidence law as they bear on child abuse cases. Material is drawn from over 75 jurisdictions, including major empirical research in the UK, US, Canada, Australia and New Zealand. Throughout the book's focus is on achieving a coherent program for reforming the law and practices responsible for child protection. Its contribution to policy debates was recognized by the Judges of the 2008 Inner Temple Book Prize who, in awarding

it the prize for outstanding legal scholarship, heralded it as a 'masterly book on a hugely important subject', one that will 'make an outstanding contribution to the formation and understanding of legal policy'.

Twelve Years A Slave, Illustrated Edition -
Solomon Northup 2014-04-08

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.
