Trans Bodies, Trans Selves - Laura Erickson-Schroth 2022

"What does it mean to be trans? A common understanding of transgender, or trans for short, is that a person's gender differs from the sex they were assigned at birth. However, many see the idea of being trans as more complicated -- as an active process of challenging the formal structures that govern how gender is defined. For different people, and in different times, places, and contexts, gender itself can be a broad entity or a very narrow one, and in various ways, understandings of "trans" can seem too expansive or too restrictive"--

The History of Trans Representation in American Television and Film Genres - Traci B. Abbott 2022-05-02

Due to the increase in transgender characters in scripted television and film in the 2010s, trans visibility has been presented as a relatively new phenomenon that has positively shifted the cis society's acceptance of the trans community. This book counters this claim to assert that such representations actually present limited and harmful characterizations, as they have for decades. To do so, this book analyzes transgender narratives in scripted visual media from the 1960s to 2010s across a variety of genres, including independent and mainstream films and television dramatic series and sitcoms, judging not the veracity of such representations per se but dissecting their transphobia as a constant despite relevant shifts that have improved their veracity and variety. Already ingrained with their own ideological expectations, genres shift the framing of the trans character, particularly the relevance of their gender difference for cisgender characters and society. The popularity of trans characters within certain genres also provides a historical lineage that is examined against the progression of transgender rights activism and corresponding transphobic falsehoods, concluding that this popular medium continues to offer a limited and narrow conception of gender, the variability of the transgender experience, and the range of transgender identities.

Gender Trouble - Judith Butler 2011-09-22

Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as "performativity theory," as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

Erase the Patriarchy - Isobel O'Hare 2020-09-15

History is history. The uncompromising, oppressive, outdated reins of patriarchy plaguing the entire world have never been more obvious--and perhaps never more in need of dismantling. Inspired, seemingly tireless people across the globe have always banded together in solidarity and

action hell-bent on change. Sometimes this change is rooted in policy reform, sometimes revolution--and often artistic expression. Within this gorgeous volume of erasure artworks exist differing cultural experiences connected by the desire for paradigm shift on a global political scale. Familiar statements and treatises are transformed into poetic versions of what reality looks like or could become for many of us stuck in a vicious machine. This international artistic appeal rips apart layers of deception, inequity, and fraud perpetuated by systems of power. Erasing what no longer serves us can reveal another avenue from which to begin.

Whipping Girl - Julia Serano 2016-03-08

This classic manifesto is "a foundational text for anyone hoping to understand transgender politics and culture in the U.S. today." (NPR) *Named as one of 100 Best Non-Fiction Books of All Time by Ms. Magazine* In Whipping Girl, biologist and trans activist Julia Serano shares her experiences and insights—both pre- and post-transition—to reveal the ways in which fear, suspicion, and dismissiveness toward femininity shape our attitudes toward trans women, as well as gender and sexuality as a whole. Serano's well-honed arguments and pioneering advocacy stem from her ability to bridge the gap between the often-disparate biological and social perspectives on gender. In this provocative manifesto, she exposes how deep-rooted the cultural belief is that femininity is frivolous, weak, and passive. In addition to debunking popular misconceptions about being transgender, Serano makes the case that today's feminists and transgender activists must work to embrace and empower femininity—in all of its wondrous forms.

Contemporary Feminist Life-Writing - Jennifer Cooke 2020-04-08

Contemporary Feminist Life-Writing is the first volume to identify and analyse the 'new audacity' of recent feminist writings from life. Characterised by boldness in both style and content, willingness to explore difficult and disturbing experiences, the refusal of victimhood, and a lack of respect for traditional genre boundaries, new audacity writing takes risks with its author's and others' reputations, and even, on occasion, with the law. This book offers an examination and critical assessment of new audacity in works by Katherine Angel, Alison Bechdel, Marie Calloway, Virginie Despentes, Tracey Emin, Sheila Heti, Juliet Jacques, Chris Krauss, Jana Leo, Maggie Nelson, Vanessa Place, Paul Preciado, and Kate Zambreno. It analyses how they write about women's self-authorship, trans experiences, struggles with mental illness, sexual violence and rape, and the desire for sexual submission. It engages with recent feminist and gender scholarship, providing discussions of vulnerability, victimhood, authenticity, trauma, and affect.

Gender Outlaw - Kate Bornstein 2013-04-15

Gender Outlaw is the work of a woman who has been through some changes--a former heterosexual male, a one-time Scientologist and IBM salesperson, now a lesbian woman writer and actress who makes regular rounds on the TV (so to speak) talk shows. In her book, Bornstein covers the "mechanics" of her surgery, everything you've always wanted to know about gender (but were too confused to ask) addresses the place and politics of the transgendered and interrogates the questions of those who give the subject little thought, creating questions of her own.

Trans/Love - Morty Diamond 2011-10-11

"This is where sex and gender collide, then ricochet like fragments of heart rending shrapnel. Rarely has a book about lust been full of so much love, conflict, and intelligence. If you think you already know what's in these stories, or you think you don't need to know, you're wrong."—Patrick Califa, author of Sex Changes: The Politics of Transgenderism Exploring the crossroads of gender and sexuality,

Trans Power - Juno Roche 2019-10-21

SHORTLISTED FOR THE POLARI BOOK PRIZE 2020 'Staggeringly visionary' ATTITUDE 'Essential reading' CHARLIE CRAGGS 'Not to be missed' AMELIA ABRAHAM 'An absolute gem' FOX FISHER 'Beautiful' CHRISTINE BURNS 'All those layers of expectation that are thrust upon us; boy, masculine, femme, transgender, sexual, woman, real, are such a weight to carry round. I feel transgressive. I feel hybrid. I feel trans.' In this radical and emotionally raw book, Juno Roche pushes the boundaries of trans representation by redefining 'trans' as an identity with its own power and strength, that goes beyond the gender binary. Through intimate conversations with leading and influential figures in the trans community, such as Kate Bornstein, Travis Alabanza, Josephine Jones, Glamrou and E-J Scott, this book highlights the diversity of trans identities and experiences with regard to love, bodies, sex, race and class, and urges trans people - and the world at large - to embrace a 'trans' identity as something that offers empowerment and autonomy. Powerfully written, and with humour and advice throughout, this book is essential reading for anyone interested in the future of gender and how we identify ourselves.

Reclaiming what love means to trans people, this book provokes conversations that are not reflected in what is presently written, moving the narrative around trans identities away from sensationalism. Reframing Sex - Stevie N. Berberick 2020-11-02

This book is an exploration of both mainstream and independent media. Grounded in qualitative methods, this book explores three trans masculine run YouTube channels alongside the streaming productions: *The Chilling Adventures of Sabrina*, *Orange is the New Black*, and *Transparent*. Analyzing and contrasting these narratives illuminates how even the most progressive of pop culture productions fail to present multi-dimensional transgender narratives, thereby intensifying stigma and shame for those outside of the binary (male or female, man or woman, gay or straight). In contrast, trans masculine produced YouTube vlogs, such as those discussed in this book, can help audience members unlearn the ways in which the continuum of sex, gender, and sexual orientation has been simplified and obscured through corporate media. These vlogs thus exemplify the various ways in which independent media acts as an educational tool toward greater awareness, and perhaps empathy, of/for the self and others in regards to sexual identity.

CORROSIVE IMPACT OF TRANSGENDER IDEOLOGY. - JOANNA WILLIAMS 2020

GenderQueer-Voices from Beyond the Sexual Binary - Riki Wilchins 2020-08-12

When *GenderQueer* was first published in 2002, it was groundbreaking, even inventing a new word for those whose voices had been hidden behind the walls of the gender binary. Now—finally!—it's republished, and those voices are still fresh and compelling in a volume that can take its place as one of the field's early and most original "classics." Michael Kimmel SUNY Distinguished Professor of Sociology and Gender Studies Stony Brook University (retired) Perhaps more than any other issue, gender identity has galvanized the queer community in recent years. The questions go beyond the nature of male/female to a yet-to-be-traversed region that lies somewhere between and beyond biologically determined gender. In this groundbreaking anthology, first published nearly two decades ago, three experts in gender studies and politics navigate around rigid, societally imposed concepts of two genders to discover and illuminate the limitless possibilities of identity. Thirty first-person accounts of gender construction, exploration, and questioning provide the groundwork for cultural discussion, political action, and even greater possibilities of autonomous gender choices. Joan Nestle is the cofounder of the Lesbian Herstory Archives in New York and the writer and editor of six books including the groundbreaking *Women on Women* series. Riki Wilchins is the executive director of GenderPAC, the national gender advocacy group, and the cofounder of the Gender Identity Project of New York City's Lesbian and Gay Center. She is the author of *Read My Lips: Sexual Subversion and the End of Gender*, *Gender Theory*, *Burn the Binary* and *TransGRESSIVE*. Clare Howell is a senior librarian at the Brooklyn Public Library.
