The perfect book club read with a suspense bite, *Girls with Bright Futures* combines the college admissions scandal with the edge of *Big Little Lies*, the snark of *Class Mom*, and the schadenfreude of watching the elite implode.

Flores Girl: The Children God Forgot - BookIM, LLC 2008-11

From the headlines of today comes the ultimate adventure story of discovery. Two scientists unwittingly introduce a small tribe of prehistoric people living in isolation for a half million years to the ultimate modern predator: humanity. This is their adventure combining a clash of cultures, religious ardor with the oldest stories of all: the meaning of friendship and love. The two scientists, Sarah and Richard discover the existence of a living human ancestor, *Homo floresiensis* on an isolated tropical island. These small Hobbit-like creatures are not the Hobbits of JRR Tolkien's stories, but a small tribe of prehistoric people living in seeming isolation for nearly a half million years on the Indonesian island of Irmã Flores. In their unrelenting quest for knowledge, Sarah and Richard unintentionally expose these innocents to the onslaught of the modern world including corporate raiders, Indonesian pirates and religious zealots. In the process of discovery and befriending these ancient people, Sarah and Richard rediscover their own humanity and the opportunity to find true love. This as a rousing adventure book with serious undertones about our very definition of humanity, and how we treat the other sentient creatures that occupy our small planet. What is at the core of being human, and how are we systematically destroying those very same qualities that we hold so dear?
