MetroPop Klasik: Love, Curse & Hocus Pocus Karla M. Nashar 2019-07-29 "And what would you do, if I told you I have no intention to kiss you?" "Kurasa... aku akan membuatmu mengubah keputusanmu itu." Ketika Troy Mardian dan Gadis Parasayu yang saling membenci harus terbangun dalam keadaan bugil dengan memori kabur akan pernikahan mereka, reaksi pertama mereka adalah berteriak histeris. Mereka curiga jika semua keanehan itu berkaitan dengan wanita gipsi tua yang mereka tertawai pada acara ulang tahun kantor mereka. Untunglah mimpi dan realitas yang tumpang tindih mempermainkan akal sehat mereka itu segera berakhir, dan membawa mereka kembali ke dunia nyata. Kali ini Troy dan Gadis yakin semua keanehan yang mereka alami itu telah berakhir. Setidaknya demikian, hingga tugas kantor membawa mereka ke negara para duke dan

duchess, Inggris. Dalam penerbangan yang melewati turbulensi ekstrem dan nyaris merenggut nyawa, keduanya dipaksa berpikir ulang tentang perasaan masing-masing. Meskipun mereka saling membenci sejak pandangan pertama, mungkinkah berbagai peristiwa aneh tersebut justru mengubah rasa tidak suka mereka menjadi cinta? Dan ketika Troy dan Gadis mengira hidup mereka sudah mencapai puncak kebahagiaan tertinggi, nun jauh di sana, sayup-sayup suara gemereng lonceng perak kecil milik si gipsi misterius kembali membelah pekatnya malam... Lalu apa kira-kira yang akan terjadi pada Troy dan Gadis kali ini? Cring... cring... cring... Beware!

MetroPop Klasik: Love, Hate & Hocus-Pocus Karla M. Nashar 2019-07-29 Hate at first sight. Itulah definisi yang tepat untuk menggambarkan Troy Mardian dan Gadis Parasayu. Mereka partner kerja yang dinamis--sedinamis gejolak permusuhan yang terus meletup di antara mereka berdua. Menurut Gadis, Troy Mardian adalah contoh sempurna tipe manusia yang tercabut dari akarnya. Jelas-jelas asli Indonesia, kok pakai bertingkah ala bule? Rambut dicokelatin, ngomong bahasa Inggris, barang-barang harus label desainer, dan mati-matian mempertahankan imej metroseksual biar tetap bisa menyandang gelar The Most Eligible Bachelor in Indonesia. Sedangkan menurut Troy, Gadis Parasayu (atau Paras Ayu) adalah nama terkonyol yang pernah didengarnya. Di Amerika tempat Troy dibesarkan, nggak ada orangtua yang cukup gila menamai anak mereka dengan Beautiful Face Girl. Narsis sekali! Okelah, wajahnya memang eksotis plus lekuk bodi bak JLo, tapi masa sih suka banget pakai merek lokal? Hanya satu persamaan mereka. Sama-sama nggak percaya hocus-pocus, ramal-meramal, paranormal, astrologi, atau apa pun yang berhubungan dengan dunia pernujuman. Lalu apa yang terjadi saat mereka terbangun pada suatu Minggu pagi cerah, dan mendapati diri mereka berada di ranjang yang sama dalam kondisi bak Adam dan Hawa saat pertama kali terdepak dari Firdaus--bugil, plus cincin kawin yang melingkari jari manis masing-

Dimensions of Change Lars Bo Henriksen 2004 Since Heraclitus change has baffled, perplexed and bemused. Organisational change is no exception; such change is an empirical fact but the extant conventional literature largely fails to enhance our understanding of this phenomenon. Conventional theories, models and methods do not possess the means of facilitating real understanding for either practitioners or researchers. This book is a contribution to the development of theory and method on organisational change through interactions with real people in real organisations. Grounded in a theory of reality, based on a particular conceptualising method, and illustrated with reference to real case studies, the authors explicate how to do both theory and method on organisational change in a novel, concise and very readable way. Reality is constructed by integrating four key dimensions:

facts, logic, values and communication; these provide the material for the introductory chapters with the overall understanding of method emerging as one works through the remaining chapters. Insights from mainly continental philosophy and social science are used to illustrate the key arguments throughout. Conventional approaches are usually concerned with definitions and outcomes; in contrast this book strongly emphasises the change process itself, the discourse of change with respect to both real actors and observants, and how new realities are constructed. The book admirably fills the gap between the "what is" of conventional theory and "how to" of a much more pragmatic critically modernist approach to both studying and doing organisational change. Timequake Kurt Vonnegut 2011-08-31 'Timequake is sweet, wild and cock-eyed... Vonnegut has always had a true comic ear... A beautifully fastidious writer, utterly original' - Guardian According to science-fiction writer Kilgore Trout, a global timequake will occur in New York City on 13th February 2001. It is the moment when the universe suffers a crisis of conscience. Should it expand or make a great big bang? It decides to wind the clock back a decade to 1991, making everyone in the world endure ten years of deja-vu and a total loss of free will - not to mention the torture of reliving every nanosecond of one of the tawdiest and most hollow decades. With his trademark wicked wit, Vonnegut addresses memory, suicide, the Great Depression, the loss of American eloquence, and the obsolescent thrill of reading books.

Poetic Revelations Mark S. Burrows 2016-08-12 This book explores the much debated relation of language and bodily experience (i.e. the 'flesh'), considering in particular how poetry functions as revelatory discourse and thus relates to the formal horizon of theological inquiry. The central

thematic focus is around a 'phenomenology of the flesh' as that which connects us with the world, being the site of perception and feeling, joy and suffering, and of life itself in all its vulnerability. The voices represented in this collection reflect interdisciplinary methods of interpretation and broadly ecumenical sensibilities, focusing attention on such matters as the revelatory nature of language in general and poetic language in particular, the function of poetry in society, the question of Incarnation and its relation to language and the poetic arts, the kenosis of the Word, and human embodiment in relation to the word 'enfleshed' in poetry.

Undiluted Hocus-Pocus Martin Gardner 2015-11-03 The autobiography of the beloved writer who inspired a generation to study math and science Martin Gardner wrote the Mathematical Games column for Scientific American for twenty-five years and published more than seventy books on topics as diverse as magic, religion, and Alice in Wonderland. Gardner's illuminating autobiography is a candid self-portrait by the man evolutionary theorist Stephen Jay Gould called our "single brightest beacon" for the defense of rationality and good science against mysticism and anti-intellectualism. Gardner takes readers from his childhood in Oklahoma to his varied and wide-ranging professional pursuits. He shares colorful anecdotes about the many fascinating people he met and mentored, and voices strong opinions on the subjects that matter to him most, from his love of mathematics to his uncompromising stance against pseudoscience. For Gardner, our mathematically structured universe is undiluted hocus-pocus—a marvelous enigma, in other words. Undiluted Hocus-Pocus offers a rare, intimate look at Gardner's life and work, and the experiences that shaped both.

The Pocket-Size God Robert F. Griffin C.S.C. 2016-03-15 Fr. Robert Griffin, C.S.C. (1925-1999), was a beloved member of the Notre Dame community. With his cocker spaniel, Darby O'Gill, he was

instantly recognizable on campus. He was well known for his priestly work counseling students as university chaplain for thirty years, his summer ministry to the homeless and parishioners in New York City, and his weekly columns in the student newspaper, *The Observer*, in which he invited the campus community to reflect with him on the challenges and joys of being Catholic in a time of enormous social and religious change. This collection draws together essays that Griffin wrote for *Notre Dame Magazine* between 1972 and 1994. In them, he considers many of the challenges that beset church and campus, such as the laicization of priests, premarital sex, the erosion of institutional authority, intolerance toward gay people, and failure of fidelity to the teachings of the church. Griffin also ruminates on the distress that human beings experience in the ordinariness of their lives—the difficulty of communication in families, grief over the loss of family and friends, the agonies of isolation, and the need for forgiveness. Griffin’s shrewd insights still ring true for people today. His efforts to temper the winds of institutional rules, cultural change, and personal suffering reveal a mind keenly attuned to the need for understanding human limitations and to the presence of grace in times of change. Griffin quotes from the works of literary modernists, such as Fitzgerald and Hemingway, whose novels and short stories he loved; in these allusions and in his own reflections and experiences, Griffin bridges the spiritual and the secular and offers hope for reconciliation and comfort.

South Asian studies. Trawick lived for a time in the midst of one large South Indian family and sought to understand the multiple and mutually shared expressions of anpu--what in English we call love. Often enveloping the author herself, changing her as she inevitably changed her hosts, this family performed before the young anthropologist's eyes the meaning of anpu: through poetry and conversation, through the not always gentle raising of children, through the weaving of kinship tapestries, through erotic exchanges among women, among men, and across the great sexual boundary. She communicates with grace and insight what she learned from this Tamil family, and we discover that love is no less universal than selfishness and individualism.

Maas and Laura Thalassa. A Maiden... Chosen from birth to usher in a new era, Poppy's life has never been her own. The life of the Maiden is solitary. Never to be touched. Never to be looked upon. Never to be spoken to. Never to experience pleasure. But the choice has never been hers. A Duty... The entire kingdom's future rests on Poppy's shoulders, something she's not even quite sure she wants for herself. Because a Maiden has a heart. And a soul. And longing. And when Hawke, a golden-eyed guard honor bound to ensure her Ascension, enters her life, destiny and duty become tangled with desire and need. He incites her anger, makes her question everything she believes in, and tempts her with the forbidden. A Kingdom... Forsaken by the gods and feared by mortals, a fallen kingdom is rising once more, determined to take back what they believe is theirs through violence and vengeance. Group Representations, Ergodic Theory, and Mathematical Physics Robert S. Doran 2008
George Mackey was an extraordinary mathematician of great power and vision. His profound contributions to representation theory, harmonic analysis, ergodic theory, and mathematical physics left a rich legacy for researchers that continues today. This book is based on lectures presented at an AMS special session held in January 2007 in New Orleans dedicated to his memory. The papers, written especially for this volume by internationally-known mathematicians and mathematical physicists, range from expository and historical surveys to original high-level research articles. The influence of Mackey's fundamental ideas is apparent throughout. The introductory article contains recollections from former students, friends, colleagues, and family as well as a biography describing his distinguished career as a mathematician at Harvard, where he held the Landon D. Clay Professorship of Mathematics.

Language, People, Numbers Andrea Gerbig 2008 The Contributors to this volume offer a broad range of novel insights about data-based or data-driven approaches to the study of both structure and function of language, reflecting the increasing shift towards corpus-based methods of analysis in a wide range of areas in linguistics. Corpora can be used as models of human linguistic experience, and the contributors demonstrate that there is ample scope for integrating such models into the descriptions of discourse, grammar and meaning. Continually improving technological development facilitates the design of larger and more comprehensive corpora documenting language use in a multitude of genres, styles and modes, even starting to include visual aspects. Software to investigate these data also becomes increasingly powerful and more refined. The sixteen original articles in this volume cover substantial ground on both the theoretical as well as applied levels. Having such data and software resources at their disposal, the contributing researchers rethink the long discussed interplay between language system and use from various angles, considering socio-cultural and cognitive involvement and representation, with synchronic as well as diachronic perspectives in view. Like everyone else in her town, River is obsessed with the Graces, attracted by their glamour and apparent ability to weave magic. But are they really what they seem? And are they more dangerous than they let on? This beautifully-written thriller will grip you from its very first page.
