

Same Sex Domestic Violence Strategies For Change

Domestic Violence and Sexuality - Donovan, Catherine 2014-04-29

This book provides the first detailed discussion of domestic violence and abuse in same-sex relationships, offering a unique comparison between same-sex and heterosexual contexts. Catherine Donovan and Marianne Hester examine how experiences of domestic violence and abuse are shaped by gender, sexuality, and age, seeking to understand what factors drive victims to seek or not seek help. Employing a pioneering methodology that includes both quantitative and qualitative research, they provide a new framework of analysis that they call "practices of love" that challenges heteronormative models of engaging domestic violence in research, policy, and practice.

Becoming Visible - Beth A. Firestein 2007
Becoming Visible offers cutting-edge psychological perspectives on bisexual and queer identities and the cultural and mental health issues facing bisexual, lesbian, gay, queer, and questioning individuals and their partners. Essential for any professional seeking to provide "best practice" services to this population, Becoming Visible addresses the therapeutic needs of bisexuals at every stage of the life cycle. This volume explores why some people resist identity labels and what bisexual men and women consider exemplary and harmful in their therapeutic experiences. It also helps practitioners distinguish between the stresses brought on by being part of a sexual minority and the clinical symptoms that indicate serious mental health issues. It includes research on ethnic minority bisexuals, youth, elders, gender-variant individuals, and bisexuals engaging in alternative lifestyles and sexual practices such as polyamory and BDSM. Edited by a psychologist who specializes in sexual-

orientation and gender-identity issues and with contributions from scholars and professionals from multiple disciplines, the book embraces perspectives from the empirical to the phenomenological, and outlines both scientific and practice-based approaches to the subject while carefully considering the psychological, cultural, and spiritual dimensions of the issues confronting bisexual men and women. Becoming Visible is a crucial step in the improved mental health and well-being of bisexuals, transgender individuals, and other sexual minorities. This book offers a path toward awareness and compassion for those who seek to understand, treat, and empower this underserved and frequently misunderstood group of mental health clients.

Cruel but Not Unusual - Ramona Alaggia 2013-05-21

Violence in families and intimate relationships affects a significant proportion of the population—from very young children to the elderly—with far-reaching and often devastating consequences. Cruel but Not Unusual draws on the expertise of scholars and practitioners to present readers with the latest research and thinking about the history, conditions, and impact of violence in these contexts. For this new edition, chapters have been updated to reflect changes in data and legislation. New chapters include an examination of trauma from a neurobiological perspective; a critical analysis of the "gender symmetry debate," a debate that questions the gendered nature of intimate violence; and an essay on the history and evolution of the women's movement dedicated to addressing violence against women, which advances theoretical developments that remind readers of the breadth of inclusivity that should be at the heart of working in this field.

Gender, Violence, and Justice - Pamela Cooper-White 2019-03-20

Gender, Violence, and Justice is a volume of

collected essays by an expert in the field of violence against women and pastoral theology. It represents over three decades of research, advocacy, and pastoral theological reflection on the subject of sexual and domestic violence. Topics include intimate partner violence, sexual abuse and trauma, and clergy sexual misconduct; controversial theological issues such as forgiveness; and, as well, positive frameworks for fostering well-being in families, church, and society. Framed by a foreword and an introduction that place this work in the context of new and contemporary challenges in theory and practice, these essays show an evolution of issues and frameworks for theology, care, and activism arising over time from the movement to end violence against women (both within and beyond religious communities)—while at the same time demonstrating an unchanging core commitment to gender justice.

Encyclopedia of Domestic Violence - Nicky Ali Jackson 2007-12-11

The Encyclopedia of Domestic Violence is a modern reference from the leading international scholars in domestic violence research. This ground-breaking project has created the first ever publication of an encyclopedia of domestic violence. The primary goal of the Encyclopedia is to provide information on a variety of traditional, as well as breakthrough, issues in this complex phenomenon. The coverage of the Encyclopedia is broad and diverse, encompassing the entire life span from infancy to old age. The entries include the traditional research areas, such as battered women, child abuse and dating violence. However, this Encyclopedia is unique in that it includes many under-studied areas of domestic violence, such as ritual abuse-torture within families, domestic violence against women with disabilities, pseudo-family violence and domestic violence within military families. It is also unique in that it examines cross-cultural perspectives of domestic violence. One of the key special features in this Encyclopedia is the cross-reference section at the end of each entry. This allows the reader the ability to continue their research of a particular topic. This book will be an easy-to-read reference guide on a host of topics, which are alphabetically arranged. Precautions have been taken to ensure that the

Encyclopedia is not politically slanted; rather, it is hoped that it will serve as a basic guide to better understanding the myriad issues surrounding this labyrinthine topic. Topics covered include: Victims of Domestic Violence; Theoretical Perspectives and Correlates to Domestic Violence; Cross-Cultural Perspectives and Religious Perspectives; Understudied Areas within Domestic Violence Research; Domestic Violence and the Law; and Child Abuse and Elder Abuse.

Family Violence in the United States - Denise A. Hines 2012-12-04

"Thought-provoking and insightful, this book encourages readers to question assumptions, evaluate information, formulate hypotheses, and design solutions to problems of family violence in the United States. Using an ecological framework, the authors engage readers in an informative discussion on the most well recognized forms of maltreatment in families, as well as on less understood and more controversial forms, such as maltreatment of male partners, of parents, and within LGBT relationships. Rich in useful scholarly references and practical case materials, the book also reviews and evaluates major efforts at intervention and prevention."--

Gender and Sexuality Justice in Asia - Joseph N. Goh 2020-12-15

This book brings together a group of innovative scholars examining the contemporary issue of effecting gender and sexuality justice in the context of Asia, consonant with engendering a just, equitable and sustainable development for all. These grassroots initiatives are woven through three complementary sections of the book: gender justice in Asia, sexuality justice in Asia, and finding resolutions through conflict. The book foregrounds strategies that aim to call out and challenge existing gender and sexuality injustices with regard to women and the LGBTIQ+ community by: assessing the efficacy of gender mainstreaming policies through micro-credit schemes for women in East Java, Indonesia; proliferating the signifiers of the hijab (veil) by postmodern Malay-Muslim women or 'Hijabistas' within the consumerist culture of Malaysia; making visible the injustices of the Syariah legal system for non-Muslim women, and ground-breaking legislation that could

potentially recognise same-sex marriages in Thailand; privileging the narratives of gay women diplomats within the highly masculinised field of diplomacy in the Asia-Pacific region; foregrounding the narratives of Filipino gay men, intimate partner violence among young Indonesian Christian young people, masculine-identifying lesbians in Singapore, young LGBT people in rural Vietnam, and a Chinese-Muslim Malaysian female-to-male transgender person; and proposing new ways of becoming an inclusive church through the radical act of befriending persons living with HIV and AIDS in Southeast Asia. This book celebrates diverse and inclusive voices and strategies of gender and sexual agents of change in envisioning and bringing to fruition a just and transformative society for all. It is of interest to students and scholars researching gender and sexuality in areas of development studies, international relations, socio-legal studies, and literary studies.

From Hate Crimes to Human Rights - Mary E Swigonski 2014-05-01

Fight for the human rights of LGBT individuals with strategies from this powerful book! From the intimate horror of domestic violence to the institutionalized heterosexism of marriage laws, this volume takes an unsparing look at the interconnections of prejudice and hate crimes in the lives of LGBT individuals. Bringing together original research and solidly grounded theory, *From Hate Crimes to Human Rights: A Tribute to Matthew Shepard* also offers fresh strategies so you can work effectively for social change. This moving, thoughtful volume begins with a friend's memoir of the murdered Matthew Shepard; this intimate glimpse is powerful testimony that hate crimes affect individuals, not just symbolic martyrs. *From Hate Crimes to Human Rights* drags hidden homophobia from the closet and examines it with clean, incisive intelligence. It tackles taboo topics, including: what the Bible really says about homosexuality how minority cultures sometimes foster hatred against the LGBT individuals in their midst why child welfare services don't protect LGBT youth from peer violence how internalized LGBT self-hatred can be expressed as domestic violence Hate crimes do not occur in a cultural vacuum. *From Hate Crimes to Human Rights* searches

out the roots of hatred and suggests ways to eradicate them, drawing on economics, theology, and linguistics as well as sociology, history, and political science. Specific suggestions include: how to use language as a social and cultural change strategy what individuals and universities can do to promote human rights how to make use of the intersection of difference and tolerance to prevent hate crimes why equal treatment for LGBT individuals is a human rights issue, not a special-interest advantage *From Hate Crimes to Human Rights* provides powerful explanations of the ways hatred generates hate crimes and proposes positive action you can take to validate human rights. A Statement from the Authors One of the premises of this book is that if we want to progress from hate crimes to human rights, we must learn to respect, honor, and celebrate diversity. The chapter authors exemplify a rainbow of ethnicities, sexual orientations, and gender identities. Each of us is committed to advocate for human rights and to work to end hate crime. Toward those ends, the royalties from the sale of this book will go directly to a memorial fund that has been established at Monmouth University in Matthew Shepard's honor. The proceeds from that fund will be used to support students in their preparation for human rights advocacy.

Gender Violence - Laura L. O'Toole 2007-08
The approach of the year 2000 has made the study of apocalyptic movements trendy. But

groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple 0s. A Doomsday Reader brings together pronouncements, edicts, and scriptures written by prominent apocalyptic movements from a wide range of traditions and ideologies to offer an exceptional look into their belief systems. Focused on attaining paradise, millenarianism often anticipates great, cosmic change. While most think of religious belief as motivating such fervor, Daniels' comparative approach encompasses secular movements such as environmentalism and the Montana Freeman, and argues that such groups are often more political than religious in nature. The book includes documents from groups such as the Branch Davidians, the Order of the Solar Temple, Heaven's Gate, and white supremacists. Each document is preceded by a substantive introduction placing the movement and its beliefs in context. This important overview of contemporary politics of the End will remain a valuable resource long after the year 2000 has come and gone.

Violence is a male biological trait. When women fight, no one gets seriously hurt. Lesbians don't abuse their spouses. The truth revealed in Janice Ristock's groundbreaking book is that lesbian relationships sometimes do turn violent. Based on interviews with more than one hundred lesbians who have suffered abuse and seventy-five case workers, *No More Secrets* is the first in-depth account of this startling phenomenon. Intimate Partner Violence in LGBTQ Lives -

Janice L. Ristock 2011-04-26

Queer lives remain at the margins of most academic inquiry into domestic violence. When same-sex violence is considered, it is most commonly as an "added on," without close attention to the specificity and meaning of violence within the lives of lesbian/ gay/ bisexual/ transgender/Two-Spirit and queer

people (LGBTQ). This edited volume seeks to change this discourse by bringing together the most innovative research about intimate partner violence that is specific to the lives of LGBTQ people. Including contributions based on research conducted in the United States, the United Kingdom, Canada and Australia, the volume is framed around central themes: conceptualizing violence; exploring differing spaces and lived experiences of violence; and the ethical challenges of responding to violence. The contributors also consider issues of race, class, gender, sexuality and other social differences, moving beyond a simple gender lens to one involving a framework of intersectionality.
