supposed to be painful. Learn how to make sex painless & full of pleasures! (Page 105) *How to get pregnant fast, on one hand; & how to prevent getting pregnant, on the other hand! (Page 115) *On Page 120 -129, you will learn how to enjoy foreplay that is full of electricity & chemistry! *Practical Solutions for ladies who hardly enjoy sex or have never achieved orgasm ever before! And so much more! You see, it takes more than sex to build a great marriage, but it is almost impossible to build a great marriage without it. We can no longer deny it. It is now clear to us from reliable statistics and personal stories that sexual satisfaction is extremely important for marital satisfaction. A significant number of divorces are due to sex-related issues. Husbands display poor sexual performance. Wives

experience poor sexual satisfaction. Dissatisfaction. Disrespect. Divorce. Infidelity. And other problems arise from the bedroom (unknown to many!) A thriving marriage and family is the backbone of any productive society. God's purpose on Earth depends on healthy and happy families. Sex education in contemporary time is grossly inadequate. We can't keep quiet any longer. Based on the writer's wealth of knowledge and experience as a medical doctor, scientific researcher, sex therapist, and husband, Sexual Mastery uses a proven, step-by-step scientific method and system to address major sexual problems and questions couples face with the goal of taking couples from being poor (and average) lovers to extraordinary lovers! This book is raw, practical, easy-to-understand and straight-to-the point (without being obscene and pornographic).

[Guide to Having Great Sex with a Pregnant](#)

Woman - Theo Williams, MD 2021-02-06

Many couples ask if sex during pregnancy is safe, especially during the first and third trimesters, and they often worry about harming the baby. But if you have a healthy pregnancy, it's perfectly safe to have sex right up until your waters break. This is true even if you're having more than one baby. If you're in the right mood, having satisfying sex is good for your relationship and your sense of wellbeing, both now and after your baby has arrived. Don't feel pressured though. Many women find that their sex drive changes during pregnancy. This can happen because of changing emotions, pregnancy side-effects such as nausea, or simply being really tired - sometimes you might find yourself yearning more for a good night's sleep. The key is to keep communicating with your partner, and find a balanced way to stay close and feel happy as a couple. Talk to your partner if your sex drive is low to help them understand how you're feeling.
