Carnal Machines - D. L. King 2011-04-01

The Victorians wrote some of the best and most enduring erotica. For such a tightly-laced age, people spent a lot of time thinking about things carnal. Jules Verne, Sir Arthur Conan Doyle, Mary Shelley, H.G. Wells, et al enthralled us with their visions of new possibilities. The rich and slightly decadent visuals of the steam age lend themselves perfectly to the new carnality of post-punk era. And, of course, what is repressed will be even more exciting once the corset is unlaced. Steampunk, even without sex, is erotic; with sex, it's over-the-top hot. A widowed lady engineer invents a small device that can store

the energy from sexual frustration and convert it to electricity to help power a home. Teresa Noelle Roberts shows us what it can do, confronted with sexual fulfillment. What volume of steampunk would be complete without a tale of sailing ships and the men who sail them? If your taste runs to sexy pirates in space, Poe Von Page will delight you with the mutinous crew of the Danika Blue and their new captain. Then there's the very special room on the top floor in the House of the Sable Locks, a brothel where sexually discriminating men go to have their fantasies fulfilled. Even if a man daren't put those fantasies into words, Elizabeth Schechter's

"Succubus" will give the madam all the information she needs with which to make her clients happy. There are brothels, flying machines, steam-powered conveyances, manor houses, spiritualist societies. The following stories afford intelligently written, beautifully crafted glimpses into other worlds, where the Carnal Machines won't fail to seduce you, get you wet or make you hard so, lie back, relax; a happy ending is guaranteed.

secrets and sin, Bodhan revels in carnal delights, but when a naked and bound woman appears on his shore, he finds his hunger to possess at odds with his need to protect. After all, she is a Felidae-at times more feline than human-and an excellent thief. There has never been a job Phina wouldn't take or a man who could tame her...until she meets Cyrus Arendal. at the mercy of Will Carver, the only man she can't wrap around her finger and whose kiss she can't forget. Lena Todd makes the perfect spy. Nobody suspects the flirtatious debutante could be a sympathizer for the humanist movement haunting London's vicious blue blood elite. Not even the ruthless Will Carver, the one man she can't twist around her little finger, and the one man whose kiss she can't forget... Stricken with the loupe and considered little more than a slave-without-a-collar to the blue bloods, Will wants nothing to do with the Echelon or the dangerous beauty who drives him to the very edge of control. But when he finds a coded letter on Lena—a code that matches one he saw on a fire-bombing suspect—he realizes she's in trouble. To protect her, he must seduce the truth from her. With London on the brink of revolution, Lena and Will must race against time—and an automaton army—to stop the humanist plot before it's too late.
