Hill 2013-03-29 Long Distance Relationship Guide A Simple Guide for Christian with Tips on How to Make A Long Distance Relationship Work This guide will be simple in that it intends to provide practical, understandable advice for those particular Christian (or curious non-Christian) couples who choose to (or are forced to) maintain a long-distance romantic relationship. However, maintaining a thriving romantic relationship of any sort is anything but easy or simple. It takes work. It asks that two people swallow a greater part of their selves in order to contribute to the well-being and functioning of the whole bond. The first half of this guide all about the habits of successful Christian couples. It's about attitudes and behaving in a way that promotes the longevity of the relationship, whether newly formed or bonded for years and years. You might be searching particularly for some ideas on what you can do with your significant other while in a long-distance relationship. For example, practical and creative ways of bonding. You will find those tidbits in the second half of the guide. This guide, while written specifically for the Christian audience, is still inclusive for any other audience that might read it. While much of the information presented here come from and are reasoned with the Christian perspective, the advice is nonetheless practical whether you subscribe to the Christian faith or not. I invite you to stick around, for there might be something useful for you.

How to Make a Long Distance Relationship Last Tony William 2017-07-16 Everything would be fine if we lived in the same town/state/country, is the common reason many men and women give for a long distance relationship not working out. Yes, distance can put an enormous strain on a relationship, but claiming that "distance" is the only reason a relationship didn't work out, or cannot work is putting your hands over your ears and shouting, "Loud" because the truth is, it's too much to handle. I've met many men and women who won't try long distance relationships because according to them "long distance relationships just don't work." That simply isn't true! Long distance relationships can and do work if the two individuals involved want it to. In my opinion, the question is not "do long distance relationships work?" But rather "Do both of you want to make it work?" If you both want to make it work, distance is just another obstacle that two people who truly love each other can easily overcome if they really want to. These simple to follow tips will help your long distance relationship not only survive distance, they'll also help you lay a strong foundation for a relationship that is fun, fulfilling and successful last? The internet highway has changed the way we live and the way we love. It has changed the way we socialize, and it has also increased the likelihood of finding love over the internet. Conversations are easy to strike up with regularity, and it's easy to discover that you have strong feelings for someone who lives hundreds or thousands of miles away from you! Many people are choosing to have long distance relationships. Long distance relationships might feel wonderful at first. However, they come with their own set of unique challenges as well. Many couples are blindsided by the impact a long distance relationship can have on their daily life. This person can now feel so close to you because of the internet and yet in reality, remain so far away. The paradox is weighty. The more prepared you are to handle the situation, the better equipped you both will be to make decisions along the way that will benefit you and your special someone, and possibly make it a safer and enjoyable experience.

Dynamics of Love and Relationships Jiro Chatelain 2020-01-24 *Strong Families Equal Strong Nations* This is a book that will prove very useful for people that aspire to happiness and satisfaction in all their relationships, marriages and effective decision making in life itself. It is a book for intending lovers, those who are struggling, and those who are still navigating around the path of healing. Before you move on or give up, you must find the problem in your relationship. It is only when you see the problem that you can fix it. Relationships can be likened to automobiles in this instance. It needs to be serviced. All the parts that make it up must function properly. If something is not working and the people involved are too lazy or not ready to work at it; it's going to come crashing down. We all know that it is more challenging to fix a dead car than to repair a little mechanical fault as soon as you discover it. Your situation may be quite different from others. You could be in a relationship with someone who doesn't feel as connected as you are to the relationship. At first, it will hurt deeply. You may begin to wonder if you are good enough. You'll have self-doubts and wonder why this person isn't proud of you like you are of them. They don't show you off. They aren't ready to let you into the deepest and darkest places of their lives. They aren't ready to take things to the next level. This could affect your self-image. It will rub off on your self-confidence, and you may start to resent the person you are in a relationship with. While it's easy to be hurt, angry, and upset, when someone is not ready to be committed to you, it has nothing to do with you. One mystery that life has offered us is the inability to get inside someone else's head. It's not possible to truly understand people's motives except when they tell you. This is why you shouldn't take the rejection personally. What if they are going through something? What if they aren't ready? These are just 'What Ifs?' But they could be people's realities. Some people are conscientious enough to block you out from whatever they are struggling with. They understand their inner fights. They seek healing and do not want to drag you into it. It becomes essential for them to set boundaries; create a wall and shield their hearts in it. You may think they are cold and unemotional. However, this is their way of blocking you from accessing those parts of them that still hurt. There are people that are hypocritical about it. Although they struggle with something, they are willing to let others in. And they find desperate people to be like prey. They use people's love to channel their pain, and this comes out toxic every time. You will always be at the receiving end of bad energy. There's nothing you will do that could ever be good enough. Once you are done with this set of people, you'll realize that they have transferred their pain to you. The cycle of brokenness is continued. There are people who were broken as children, through physical, sexual or emotional trauma. Until they heal from this trauma they cannot be in a healthy relationship because they are no health. Again, this is not your fault, but don't stay in a codependent or abusive relationship. It is essential to understand that people are at different stages in their lives. When you have feelings for someone, it's easy to remain in a relationship with them even if your relationship has no future. While it's incredible that you are sticking it out against all the odds, you need to ask yourself if that person is even in the same stage of life as you. If you examine this simple guidance from Jiro, you will understand why this book is a necessary tool that will help you to identify what stage of life your partner is currently in.

Maintaining Relationships Through Communication Daniel J. Canary 2003-01-30 Relational maintenance provides a rallying point for those seeking to discover the behaviors that individuals utilize to sustain their personal relationships. Theoretical models, research programs, and specific studies have examined how people in a variety of close relationships choose to define and maintain those relationships. In addition, relational maintenance turns our attention to communicative processes that help people sustain their close relationships. In this collection, editors Daniel J. Canary and Marianne Dainton focus on the communicative processes critical to the maintenance and enhancement of personal relationships. The volume considers variations in maintaining different types of personal relationships; structural constraints on relationship maintenance; and cultural variations in relational maintenance. Contributions to the volume cover a broad range of relational types, including romantic relationships, family relationships, long-distance relationships, workplace relationships, and Gay and Lesbian relationships, among others. *Maintaining Relationships Through Communication: Relational, Contextual, and Cultural Variations* synthesizes current research in relationship maintenance, emphasizes the ways that behaviors vary in their maintenance functions across relational contexts, discusses alternative explanations for maintaining relationships, and presents avenues for future research. As such, it is intended for students and scholars studying interpersonal communication and personal relationships.

The ease of communication in the modern age also makes it easier to develop strong emotional attachment to people you can't see. My behavior initially made my family confused when I began expressing myself through online communication and relationships. While I did not expect to find love, let alone fight for it as I did, it was worth it in the end to see it succeed.
