The Way It Was - Matthew Engel 2022-10-06

She came to the throne in 1952 when Britain had a far-flung empire, sweets were rationed, mums stayed home and kids played on bombsites. Seventy years on, everything has changed utterly - except the Queen herself, ageing far more gracefully than the fractious nation over which she so lightly presides. How did we get from there to here in a single reign? To cancel culture, anti-vaxxers and Twitter feeds? Matthew Engel tells the story - starting with the years from Churchill to Thatcher - with his own light touch and a wealth of fascinating, forgotten, often funny detail.

Closet Queens - Michael Bloch 2015-05-28

Closet Queens is a fascinating study of gay men in twentieth century British politics, from Lord Rosebery and Lord Beauchamp in Edwardian times to Michael Portillo and Peter Mandelson in our own era. As all homosexual activity was illegal until 1967, and exposure meant ruin and disgrace, such men were obliged either to repress their sexual feelings or else lead double lives, indulging their tastes secretly while respectably married with children. The need to cover up their sexuality, while causing problems and disappointments, often sharpened their skills as politicians - they were masters of secrecy and subterfuge, and knew how to take calculated risks. An entertaining and insightful account of some extraordinary personalities, Closet Queens opens doors into a hidden world.

Apocryphal and Literary Influences on Galway Diasporic History - Gay Lynch 2010-10-12

Apocryphal and Literary Influences on Galway Diasporic History establishes that apocryphal stories, in all their transformations, contribute to collective memory. Common characteristics frame their analysis: irreducible and enduring elements, often embedded in archetypal drama; lack of historical verification; establishment in collective memory; revivals after periods of dormancy; subjection to political and economic manipulation; implicit speculation; and literary transformations. This book contextualises Unsettled, an Australian novel about a convict play, derived from the Irish apocryphal story of The Magistrate of Galway, and documents previously unpublished primary material, including apocryphal stories passed through generations of descendants of settlers, Martin and Maria Lynch, and The Hibernian Father, a play by Irish convict, Edward Geoghegan. It puts forward new hypotheses: that the Irish hero Cuchulain may have provided a template for the archetypal and apocryphal story of the Magistrate of Galway; that disgraced Trinity College medical student and aspiring writer, Edward Geoghegan, enacted and recounted the same father-son archetypal conflict when he was transported to Botany Bay in 1839, and wrote the The Hibernian Father based on the Magistrate of Galway; that working-class Irish families were marginalised in South-east South Australian historical records; that oral apocryphal Lynch stories may be true; that Kate Grenville's The Secret River (2006) offers an alternative history of the Hawkesbury River settlement, by some definitions apocryphal. The mystery of Geoghegan's disappearance is solved, and knowledge about his life increased. French theorist Gerard Genette's notion, advanced in Palimpsests: Literature in the Second Degree (1997), of all novels being transtextual, provides a model for the analysis of relationships between these key apocryphal texts.

Gay Men and the Left in Post-war Britain - Lucy Robinson 2013-07-19

Available in paperback for the first time, his book demonstrates how the personal became political in post-war Britain, and argues that attention to gay activism can help us to fundamentally rethink the nature of post-war politics. While the Left were fighting among themselves and the reformists were struggling with the limits of law reform, gay men started organising for themselves, first individually within existing organisations and later rejecting formal political structures altogether. Culture, performance and identity took over from economics and class struggle, as gay men worked to change the world through the politics of sexuality. Throughout the post-war years, the new cult of the teenager in the 1950s, CND and the counter-culture of the 1960s, gay liberation, feminism, the Punk movement and the miners' strike of 1984 all helped to build a politics of identity. There is an assumption among many of today's politicians that young people are apathetic and disengaged. This book argues that these politicians are looking in the wrong place. People now feel that they can impact the world through the way in which they live, shop, have sex and organise their private lives. Robinson shows that gay men and their politics have been central to this change in the post-war world.

To Fall Like Lucifer - Ian Harvey 2011-10-06

This is a story of a scandal and its victim, of a society that looked the other way, and of the few who remained loyal. On the night of the 18 November 1958, Ian Harvey, then a junior minister in Harold Macmillan's Tory government, was arrested with a guardsman in St James's Park. Homosexuality would not be decriminalised until a decade later; the scandal that ensued prompted Harvey's resignation from the government and Parliament, and brought a brilliant and promising career to a premature end. Originally published in 1971, Harvey's startlingly honest account of his spectacular fall from grace is an extraordinary record of a time and its attitudes, as well as a poignant reflection on a life caught unexpectedly in scandal.

Homintern - Gregory Woods 2017-11-21

A landmark account of gay and lesbian creative networks and the seismic changes they brought to twentieth-century culture In a hugely ambitious study which crosses continents, languages, and almost a century, Gregory Woods identifies the ways in which homosexuality has helped shape Western culture. Extending from the trials of Oscar Wilde to the gay liberation era, this book examines a period in which increased visibility made acceptance of homosexuality one of the measures of modernity. Woods shines a revealing light on the diverse, informal networks of gay people in the arts and other creative fields. Uneasily called "the Homintern" (an echo of Lenin's "Comintern") by those suspicious of an international homosexual conspiracy, such networks connected gay writers, actors, artists, musicians, dancers, filmmakers, politicians, and spies. While providing some defense against dominant heterosexual exclusion, the grouping brought solidarity, celebrated talent, and, in doing so, invigorated the majority culture. Woods

introduces an enormous cast of gifted and extraordinary characters, most of them operating with surprising openness; but also explores such issues as artistic influence, the coping strategies of minorities, the hypocrisies of conservatism, and the effects of positive and negative discrimination. Traveling from Harlem in the 1910s to 1920s Paris, 1930s Berlin, 1950s New York and beyond, this sharply observed, warm-spirited book presents a surpassing portrait of twentieth-century gay culture and the men and women who both redefined themselves and changed history.

The Sexual Constitution of Political Authority - Aleardo Zanghellini 2015-04-24

While there is no shortage of studies addressing the state's regulation of the sexual, research into the ways in which the sexual governs the state and its attributes is still in its infancy. The Sexual Constitution of Political Authority argues that there are good reasons to suppose that our understandings of state power quiver with erotic undercurrents. The book maintains, more specifically, that the relationship between ideas of political authority and male same-sex desire is especially fraught. Through a series of case studies where a statesman's same-sex desire was put on trial (either literally or metaphorically) as a problem for the good exercise of public powers, the book shows the resilience and adaptability of cultural beliefs in the incompatibility between public office and male same-sex desire. Some of the case studies analysed are familiar ground for both political/constitutional history and the history of sexuality. The Sexual Constitution

of Political Authority argues, however, that only by systematically reading questions of institutional politics and questions of sexuality through each other will we have access to the most interesting insights that a study of these trials can generate. Whether they involve obscure public officials or iconic rulers such as Hadrian and James I, these compelling fragments of queer history reveal that the disavowal of male same-sex desire has been, and partly remains, central to mainstream understandings of political authority.

Great Parliamentary Scandals - Matthew Parris 2004-07-22

Scandalously it's been business as usual in parliament despite Tony Blair's promise of a new dawn over Britain in 1997. Conmen, secret home loans, walks on the wild side, liars, ridiculously expensive wallpaper and a jailed peer-cum-celebrated author have joined the prostitutes, groppers, shady share dealers, rent boys and Soviet spies that have been such a colourful feature of politics for five centuries. In this comprehensively updated edition of the bestselling 'Great Parliamentary Scandals', Matthew Parris and Kevin Maguire shine an entertaining and highly revealing light into the murky underworld of British parliamentary life, exposing the low side of high office.

Tory Pride and Prejudice - Michael McManus 2011-10-06

TORY PRIDE AND PREJUDICE is an authoritative but highly accessible account of the Conservative Party's social attitudes from the 1950s to the present day, with a particular focus on homosexual law reform and equal rights for LGBT citizens. Presented in the context of contemporary social and political developments, it draws upon extensive primary research and exclusive interviews to chart the party's progress from a stubborn unwillingness to decriminalise homosexuality in the 1950s and 1960s, via tacit acceptance in the 1970s and Section 28 in the 1980s and 1990s, to the current Conservative-Liberal Democrat Coalition Government, which has produced the first comprehensive statement on equal rights in British history.
