Getting Played - Mohosho Pofane 2021-01-04

Bob Marley once said the biggest coward is a man who awakens a woman's love with no intention of marrying her. But what about a woman who awakens a man's love with intentions of marrying him? Well, that's a topic for another book! Love is a beautiful thing. It's a risk that most of us take over and over again with the hope of finding the perfect partner whom we're willing to spend the rest of our lives with. Someone who will make the love journey worthwhile. While we're searching, we end up in toxic situations, being played or ghosted, as a result end up looking at the whole notion of love differently. Some people give in to the cruelty

and play the game too, while others keep hoping for a good partner on try over and over again. It's often said that the world does not reward those who play by the rules (which is arguably true), so wouldn't it be great if we knew the difference between people who come to us to play and those who come with genuinely good intentions? We all know the feeling of being played in dating. You were misled by someone who seemed to be into you. There were no warning signs that someone was about to flip the script but just as you were letting your guard down and starting to get excited about the promise of a long term relationship, the person you were dating totally flakes. They pull away. They dump you. They ghost. At the end of the day leaving you feeling like a fool for believing in something that clearly was not real. So how can we avoid getting played or made to feel like a fool in dating? First understand what it means when someone plays you. Essentially they have tricked you into giving up something that you would normally never give up unless you were guaranteed to get something in turn. This could be sexy time, money, time, or intimacy. But a player makes you believe in the promise of a return on your investment. They make you feel like you can trust them, when in fact they are completely untrustworthy. Thing is, most girls secretly wish they had a male best friend. One who would tell them all about boys, their conversations, their daily plans about women, everything. However, those are rare to find because under normal circumstances, your male best friend is only hanging around because he's patiently hoping that one day you'll give in and he'll hit it. That's if the two of you haven't made that 'mistake' already. It's through our friends of opposite the sex that we get the kind of information contained in this book. Although most content in this book is more oriented to the females: take this book as your companion who is not patiently waiting to sleep with you. After all, it is the ultimate guide to a healthy relationship. All I'm saying is, we need to start treating others like we'd want them to treat us. We need to have compassion and respect for the feelings of others. When I wrote this book, I thought of all the people who are going to fall victims to someone who behaves the way my friends and I did long ago. I thought to myself,

"what if it's my own daughter?", what if it's my nephew or someone I love?" Then I decided that since I may not be there to guide them or give them a little pep talk about men, I might as well write a book, something they can keep referring to every time things get out of control. I'm not saying the book will completely help, but it's always good to know the truth, the decision is always yours! Enjoy

Dynamics of Love and Relationships - Jiro Chatelain 2020-01-24

Strong Families Equal Strong Nations This is a book that will prove very useful for people that aspire to happiness and satisfaction in all their relationships, marriages and effective decision making in life itself. It is a book for intending lovers, those who are struggling, and those who are still navigating around the path of healing. Before you move on or give up, you must find the problem in your relationship. It is only when you see the problem that you can fix

it. Relationships can be likened to automobiles in this instance. It needs to be serviced. All the parts that make it up must function properly. If something is not working and the people involved are too lazy or not ready to work at it; it's going to come crashing down. We all know that it is more challenging to fix a dead car than to repair a little mechanical fault as soon as you discover it. Your situation may be quite different from others. You could be in a relationship with someone who doesn't feel as connected as you are to the relationship. At first, it will hurt deeply. You may begin to wonder if you are good enough. You'll have self-doubts and wonder why this person isn't proud of you like you are of them. They don't show you off. They aren't ready to let you into the deepest and darkest places of their lives. They aren't ready to take things to the next level. This could affect your self-image. It will rub off on your self-confidence, and you may start to resent the person you are in a relationship with. While it's easy to be hurt, angry, and upset, when someone is not ready to be committed to you, it has nothing to do with you. One mystery that life has offered us is the inability to get inside someone else's head. It's not possible to truly understand people's motives except when they tell you. This is why you shouldn't take the rejection personally. What if they are going through something? What if they aren't ready? These are just 'What Ifs?' But they could be people's realities. Some people are conscientious enough to block you out from whatever they are struggling with. They understand their inner fights. They seek healing and do not want to drag you into it. It becomes essential for them to set boundaries; create a wall and shield their hearts in it. You may think they are cold and unemotional. However, this is their way of blocking you from accessing those parts of them that still hurt. There are people that are hypocritical about it. Although they struggle with something, they are willing to let others in. And they find desperate people to be like prey. They use people's love to channel their pain, and this comes out toxic every time. You will always be at the receiving end of bad energy. There's nothing you will do that could ever be good enough. Once you are done with this set of people, you'll realize that they have transferred their pain to you. The cycle of

brokenness is continued. There are people who were broken as children, through physical, sexual or emotional trauma. Until they heal from this trauma they cannot be in a healthy relationship because they are no health. Again, this is not your fault, but don't stay in a codependent or abusive relationship. It is essential to understand that people are at different stages in their lives. When you have feelings for someone, it's easy to remain in a relationship with them even if your relationship has no future. While it's incredible that you are sticking it out against all the odds, you need to ask yourself if that person is even in the same stage of life as you. If you examine this simple guidance from Jiro, you will understand why this book is a necessary tool that will help you to identify what stage of life your partner is currently in and how crucial it is for the future of your relationship. It will also help you to have a more fulfilling life

Healthy Relationships in Higher Education - Narelle Lemon 2021-11-29

Self-care involves taking action to support, protect or maintain wellbeing. Relationships have a significant influence on these acts of self-care and one's sense of wellbeing. Relationships are fundamental to individual meaning-making and crucial to the world of academia. In this edited collection, authors navigate how they view relationships as a crucial part of their wellbeing and acts of self-care, exploring the "I", "We", and "Us" at the centre of self-care and wellbeing embodiment. Each chapter unpacks this idea in varying ways that demonstrate that relationships are a fundamental element of both work and personal life and how they intersect with wellbeing. The authors present critical discussion through visual narratives, lived experiences, and strategies that highlight how relationships, seeking social support, scaffolding opportunities to learn with and from each other, and changes in practise become acts of self-care individually and collectively. There has arguably never been a more important time to raise awareness of self-care and wellbeing as central to the nature of work in higher education. *Healthy Relationships in Higher Education: Promoting Wellbeing Across Academia* highlights new ways of working in higher education that disrupt current tensions that

neglect wellbeing and will be of interest to anyone working in this environment.

W.U.K.I. Thrust for Healthy Relationships - Samson Ajetomobi 2020-11-02

God did not design marriages to fail; marriages that fail grossly lack WUKI- wisdom, understanding, knowledge and adherence to instructions. It is the WUKI available to the parties involved that distinguishes relationships. Some think it is love that sustains marriage. Yes, love is an essential ingredient, but marriages survive via WUKI, as love can bend under pressure. Of a truth, great relationships are not automatic but products of deliberate investments. A relationship not worked on will degenerate, not because there are no great potentials in both parties but because none is willing to pay the price of a healthy relationship. This book provides a guide to making such investment, as it explores the wisdom, understanding, knowledge and instructions needed to build healthy relationships.
