Scorpio Ascendant Secrets - Saket Shah 2020-01-05

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the

zodiac sign that was highest on the Easter horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

The New Astrology Sagittarius Chinese and Western Zodiac Signs - Suzanne White 2018-08-31

THIS BOOK IS AN INGENIOUS BLEND OF CHINESE AND WESTERN ASTROLOGY SIGNS. FIND OUT ALL ABOUT YOUR NEW ASTROLOGY(TM) SIGN AND THOSE OF YOUR LOVERS, FRIENDS, FAMILY AND ENEMIES. BOOK 9 - SAGITTARIUS Suzanne White cleverly describes the 12 types of Sagittarians. She combines Sagittarius with all 12 Chinese Animal signs to describe 12 NEW ASTROLOGY signs. Find out how your own Sun Sign Blends with all 12 Chinese animal signs. It's astounding! A SAGITTARIUS born in a DRAGON year does not have the same character traits as a SAGITTARIUS/DOG or SAGITTARIUS/ROOSTER It's uncanny. But true. Sagittarians have an unflinching desire to care for others. But they also need to maintain their own sovereignty. They thrive on being helpful and active. Many Sagittarians are bachelors because the average Sagittarian is bpth a helpful and independent person who seeks discovery and adventure. Bland safe day-to-day co-habitation is not the Sagittarians' idea of paradise. Rather, they can be content with a roof, a dog, enough to eat

and lots of dear friends around. Friends who willingly accept all Sag's moral and material handouts. Sagittarians are drawn to travel and motion, always seeking to grow their knowledge of unusual cultures and exotic places. They prosper in jobs that permit mobility. They function best in relationships which leave them lots of leeway to come and go as they please. They are happiest when learning and growing and are repelled by sameness and routine. Sagittarian women are particularly success-oriented. They can be bossy as they like to run things, their way; and they are not usually squeamish about how many dead bodies they have to clamber over in the process. In this book, you will discover how a Sagittarian is altered when he or she is born in a Dragon year. What is an Sagittarian born Rat like? How does being born in a Dog year affect a Sagittarius person's character? What is a Sagittarius /Tiger like? And how does he or she get along with other New Astrology(TM) signs? Which New Astrology(TM) signs make Sagittarius' best sexual partners? And which ones should they marry? Who are our Sagittarian/Pig celebrities? Which ones are Sagittarian/Goat, Sagittarian/ Dog, Sagittarian/Snake and/or Sagittarian/Dragon or even Saigtarian/Horse? Suzanne White's combined signs are uncannily accurate. Gift a friend with their SUN SIGN NEW ASTROLOGY BOOK and watch their eyebrows leap to the tip top of their forehead when they read what The New Astrology reveals about their most intimate, basic character.

[Planet Mars Secrets](#) - Saket Shah 2020-01-05

In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is

supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).
