I Am a Strange Loop Douglas R Hofstadter 2007-08-01 One of our greatest philosophers and scientists of the mind asks, where does the self come from -- and how our selves can exist in the minds of others. Can thought arise out of matter? Can self, soul, consciousness, "I" arise out of mere matter? If it cannot, then how can you or I be here? I Am a Strange Loop argues that the key to understanding selves and consciousness is the "strange loop"-a special kind of abstract feedback loop inhabiting our brains. The most central and complex symbol in your brain is the one called "I." The "I" is the nexus in our brain, one of many symbols seeming to have free will and to have gained the paradoxical ability to push particles around, rather than the reverse. How can a mysterious abstraction be real-or is our "I" merely a convenient fiction? Does an "I" exert genuine power over the particles in our brain, or is it helplessly pushed around by the laws of physics? These are the mysteries tackled in I Am a Strange Loop, Douglas Hofstadter's first book-length journey into philosophy since Gödel, Escher, Bach. Compulsively readable and endlessly thought-provoking, this is a moving and profound inquiry into the nature of mind.

The Art Of Seduction Robert Greene 2010-09-03 Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and

the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

Ambiguous Loss Pauline BOSS 2009-06-30 When a loved one dies we mourn our loss. We take comfort in the rituals that mark the passing, and we turn to those around us for support. But what happens when there is no closure, when a family member or a friend who may be still alive is lost to us nonetheless? How, for example, does the mother whose soldier son is missing in action, or the family of an Alzheimer's patient who is suffering from severe dementia, deal with the uncertainty surrounding this kind of loss? In this sensitive and lucid account, Pauline Boss explains that, all too often, those confronted with such ambiguous loss fluctuate between hope and hopelessness. Suffered too long, these emotions can deaden feeling and make it impossible for people to move on with their lives. Yet the central message of this book is that they can move on. Drawing on her research and clinical experience, Boss suggests strategies that can cushion the pain and help families come to terms with their grief. Her work features the heartening narratives of those who cope with ambiguous loss and manage to leave their sadness behind, including those who have lost family members to divorce, immigration, adoption, chronic mental illness, and brain injury.

With its message of hope, this eloquent book offers guidance and understanding to those struggling to regain their lives. Table of Contents: 1. Frozen Grief 2. Leaving without Goodbye 3. Goodbye without Leaving 4. Mixed Emotions 5. Ups and Downs 6. The Family Gamble 7. The Turning Point 8. Making Sense out of Ambiguity 9. The Benefit of a Doubt Notes Acknowledgments

Reviews of this book: You will find yourself thinking about the issues discussed in this book long after you put it down and perhaps wishing you had extra copies for friends and family members who might benefit from knowing that their sorrows are not unique...This book's value lies in its giving a name to a force many of us will confront--sadly, more than once--and providing personal stories based on 20 years of interviews and research. -- Pamela Gerhardt, Washington Post

Reviews of this book: A compassionate exploration of the effects of ambiguous loss and how those experiencing it handle this most devastating of losses ... Boss's approach is to encourage families to talk together, to reach a consensus about how to mourn that which has been lost and how to celebrate that which remains. Her simple stories of families doing just that contain lessons for all. Insightful, practical, and refreshingly free of psychobabble. --Kirkus Review

Reviews of this book: Engagingly written and richly rewarding, this title presents what Boss has learned from many years of treating individuals and families suffering from uncertain or incomplete loss...The obvious depth of the author's understanding of sufferers of ambiguous loss and the facility with which she communicates that understanding make this a book to be recommended. --R. R. Cornellius, Choice

Reviews of this book: Written for a wide readership, the concepts of ambiguous loss take immediate form through the many provocative examples and stories Boss includes, All readers will find stories with which they will relate...Sensitive, grounded and practical, this book should, in my estimation, be required reading for family practitioners. --Ted Bowman, Family Forum

Reviews of this book: Dr. Boss describes

[the] all-too-common phenomenon [of unresolved grief] as resulting from either of two circumstances: when the lost person is still physically present but emotionally absent or when the lost person is physically absent but still emotionally present. In addition to senility, physical presence but psychological absence may result, for example, when a person is suffering from a serious mental disorder like schizophrenia or depression or debilitating neurological damage from an accident or severe stroke, when a person abuses drugs or alcohol, when a child is autistic or when a spouse is a workaholic who is not really 'there' even when he or she is at home...Cases of physical absence with continuing psychological presence typically occur when a soldier is missing in action, when a child disappears and is not found, when a former lover or spouse is still very much missed, when a child 'loses' a parent to divorce or when people are separated from their loved ones by immigration...Professionals familiar with Dr. Boss's work emphasised that people suffering from ambiguous loss were not mentally ill, but were just stuck and needed help getting past the barrier or unresolved grief so that they could get on with their lives. --Asian Age Combining her talents as a compassionate family therapist and a creative researcher, Pauline Boss eloquently shows the many and complex ways that people can cope with the inevitable losses in contemporary family life. A wise book, and certain to become a classic. --Constance R. Ahrons, author of *The Good Divorce* A powerful and healing book. Families experiencing ambiguous loss will find strategies for seeing what aspects of their loved ones remain, and for understanding and grieving what they have lost. Pauline Boss offers us both insight and clarity. --Kathy Weingarten, Ph.D, The Family Institute of Cambridge, Harvard Medical School

The Guerrilla and how to Fight Him 1962

A Year with Swollen Appendices Brian Eno 2020-11-17 The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition. 'One of the seminal books about music . . . an invaluable insight into the mind and working practices of one of the industry's undeniable geniuses.' GUARDIAN At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. This beautiful 25th-

anniversary hardcover edition has been redesigned in the same size as the diary that eventually became this book. It features two ribbons, pink paper delineating the appendices (matching the original edition) and a two-tone paper-over-board cover, which pays homage to the original design. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

Why Love Hurts Eva Illouz 2013-05-20 Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very

core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

Animal Liberation Peter Singer 2015-10-01 How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' Independent on Sunday In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari's brilliantly argued introduction makes clear, this book is as relevant now as the day it was written.

Now It Can Be Told (WWI Centenary Series) Philip Gibbs

2016-03-10 "In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again-surely-if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same." This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.

How Asia Works Joe Studwell 2013-03-28 Until the catastrophic economic crisis of the late 1990s, East Asia was perceived as a monolithic success story. But heady economic growth rates masked the most divided continent in the world - one half the most extraordinary developmental success story ever seen, the other half a paper tiger. Joe Studwell explores how policies ridiculed by economists created titans in Japan, Korea and Taiwan, and are now behind the rise of China, while the best advice the West could offer sold its allies in South-East Asia down the economic river. The first book to offer an Asia-wide deconstruction of success and failure in economic development, Studwell's latest work is provocative and iconoclastic - and

sobering reading for most of the world's developing countries. How Asia Works is a must-read book that packs powerful insights about the world's most misunderstood continent.

Discourses of Ageing and Gender Clare Anderson 2018-08-25 This book presents in-depth investigation of the language used about women and ageing in public discourse, and compares this with the language used by women to express their personal, lived experience of ageing. It takes a linguistic approach to identify how messages contained in public discourse influence how individual women evaluate their own ageing, and particularly

their ageing appearance. It begins by establishing the wider cultural context that produces prevailing attitudes to women, before turning to an analysis of representations of the ageing female body in beauty and cosmetic advertising and the lifestyle media. The focus then moves to a detailed investigation of women's own perceptions of the process of ageing and of their ageing appearance as revealed through their personal narratives. The final chapters challenge dominant attitudes to women and ageing by presenting two case studies of women who for different reasons and in different ways refuse to conform to cultural expectations. This work provides a platform for further academic research in the fields of linguistics, gerontology, gender and media studies; as well as offering meaningful applications in the wider domains of business and advertising.

Basics of Religious Education Gottfried Adam 2014 This volume offers an introduction to all questions of teaching Religious Education as a school subject and as an academic discipline related to this subject. The chapters cover most of the aspects that religion teachers have to face in their work, as well as the theoretical background necessary for this task. The volume is a textbook for students and teachers of religious education, be it in

school or in an academic context, who are looking for reliable information on this field. The book has proven its usefulness in German speaking countries. This volume is the English translation of the German Compendium of Religious Education (edited by Gottfried Adam and Rainer Lachmann). The present English version is based on the 2012 edition which aims for a most current representation of the field. The background of the book is Protestant but its outlook is clearly ecumenical, and questions of interreligious education are considered in many of the chapters. The compendium continues to be widely used in Germany, Austria and Switzerland - as an introduction to the field and as a handbook for students who are preparing for their final exams. The English edition makes this compendium available to students and colleagues in other countries.

The Practice of Everyday Life Michel de Certeau 2011-11 Michel de Certeau considers the uses to which social representation and modes of social behavior are put by individuals and groups, describing the tactics available to the common man for reclaiming his own autonomy from the all-pervasive forces of commerce, politics, and culture. In exploring the public meaning of ingeniously defended private meanings, de Certeau draws on an immense theoretical literature in analytic philosophy, linguistics, sociology, semiology, and anthropology--to speak of an apposite use of imaginative literature.

Masculinities R. W. Connell 2005 This is an exciting new edition of R.W. Connell's ground-breaking text, which has become a classic work on the nature and construction of masculine identity. Connell argues that there is not one masculinity, but many different masculinities, each associated with different positions of power. In a world gender order that continues to privilege men over women, but also raises difficult issues for men and boys, his account is more pertinent than ever before. In a substantial new introduction and conclusion, Connell discusses the development of masculinity studies in the ten years since the book's initial

publication. He explores global gender relations, new theories, and practical uses of masculinity research. Looking to the future, his new concluding chapter addresses the politics of masculinities, and the implications of masculinity research for understanding current world issues. Against the backdrop of an increasingly divided world, dominated by neo-conservative politics, Connell's account highlights a series of compelling questions about the future of human society. This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies, and will be of interest to students and scholars across the humanities and social sciences.

Work, A Story of Experience Louisa May Alcott 2016-01-15

Chapter I. CHRISTIE. "AUNT BETSEY, there's going to be a new Declaration of Independence." "Bless and save us, what do you mean, child?" And the startled old lady precipitated a pie into the oven with destructive haste. "I mean that, being of age, I'm going to take care of myself, and not be a burden any longer. Uncle wishes me out of the way; thinks I ought to go, and, sooner or later, will tell me so. I don't intend to wait for that, but, like the people in fairy tales, travel away into the world and seek my fortune. I know I can find it." Christie emphasized her speech by energetic demonstrations in the bread-trough, kneading the dough as if it was her destiny, and she was shaping it to suit herself; while Aunt Betsey stood listening, with uplifted pie-fork, and as much astonishment as her placid face was capable of expressing. As the girl paused, with a decided thump, the old lady exclaimed: "What crazy idee you got into your head now?" "A very sane and sensible one that's got to be worked out, so please listen to it, ma'am. I've had it a good while, I've thought it over thoroughly, and I'm sure it's the right thing for me to do. I'm old enough to take care of myself; and if I'd been a boy, I should have been told to do it long ago. I hate to be dependent; and now there's no need of it, I can't bear it any longer. If you were poor, I

wouldn't leave you; for I never forget how kind you have been to me. But Uncle doesn't love or understand me; I am a burden to him, and I must go where I can take care of myself. I can't be happy till I do, for there's nothing here for me. I'm sick of this dull town, where the one idea is eat, drink, and get rich; I don't find any friends to help me as I want to be helped, or any work that I can do well; so let me go, Aunty, and find my place, wherever it is."
