Singing Bronze Luc Rombouts 2014-05-23 The fascinating history of bell music The carillon, the world's largest musical instrument, originated in the 16th century when inhabitants of the Low Countries started to produce music on bells in church and city towers. Today, carillon music still fills the soundscape of cities in Belgium and the Netherlands. Since the First World War, carillon music has become popular in the United States, where it adds a spiritual dimension to public parks and university campuses. *Singing Bronze* opens up the fascinating world of the carillon to the reader. It tells the great stories of European and American carillon history: the quest for the perfect musical bell, the fate of carillons in times of revolt and war, the role of patrons such as John D. Rockefeller Jr. and Herbert Hoover in the development of American carillon culture, and the battle between singing bronze and carillon electronics. Richly illustrated with original photographs and etchings, *Singing Bronze* tells how people developed, played, and enjoyed bell music. With this book, a fascinating history that is yet little known is made available for a wide public.

Warrior Poet Alexis De Veaux 2006 During her lifetime, Audre Lorde (1934-1992) created a mythic identity for herself. Drawing from the private archives of the poet's estate and interviews, this work demystifies Lorde's iconic status, charting her conservative childhood in Harlem; her early marriage to a white, gay man; and her canonisation as a seminal poet of American Literature.

iGovernment D. Broeders 2011 The authors of this incisive study explore the problems of the ongoing digitization of government, such as the creeping loss of data quality, and how citizens and officials must respond to these complications in the coming years. The iGovernment is running full speed on information networks and digitization, but it is also seriously out of step with existing bureaucracies. iGovernment offers an accurate picture of how the digital technologies are shaping modern governments, and also a powerful corrective for the dissonance between technology and organizational management. "This book will be a valuable resource for researchers and scholars seeking to understand the possibilities, dilemmas, and challenges of bringing the Internet and related technologies to center stage in government and public services"—Helen Margetts, University of Oxford

Sister Outsider Audre Lorde 2019-07-04 The woman's place of power within each of us is neither white nor surface; it is dark, it is ancient, and it is deep The revolutionary writings of Audre Lorde gave voice to those 'outside the circle of this society's definition of acceptable women'. Uncompromising, angry and yet full of hope, this collection of her essential prose - essays, speeches, letters, interviews - explores race, sexuality, poetry, friendship, the erotic and the need for female solidarity, and includes her landmark piece 'The Master's Tools Will Never Dismantle the Master's House'. 'The truth of her writing is as necessary today as it's ever been' Guardian

Psychology and the Conduct of Everyday Life Ernst Schraube 2015-08-11 Psychology and the Conduct of Everyday Life moves psychological theory and research practice out of the laboratory and into the everyday world. Drawing on recent developments across the social and human sciences, it examines how people live as active subjects within the contexts of their everyday lives, using this

as an analytical basis for understanding the dilemmas and contradictions people face in contemporary society. Early chapters gather the latest empirical research to explore the significance of context as a cross-disciplinary critical tool; they include a study of homeless Māori men reaffirming their cultural identity via gardening, and a look at how the dilemmas faced by children in difficult situations can provide insights into social conflict at school. Later chapters examine the interplay between everyday life around the world and contemporary global phenomena such as the rise of the debt economy, the hegemony of the labor market, and the increased reliance on digital technology in educational settings. The book concludes with a consideration of how social psychology can deepen our understanding of how we conduct our lives, and offer possibilities for collective work on the resolution of social conflict.

Soundscapes of the Urban Past Karin Bijsterveld 2013 We cannot simply listen to our urban past. Yet we encounter a rich cultural heritage of city sounds presented in text, radio and film. How can such "staged sounds" express the changing identities of cities? This volume presents a collection of studies on the staging of Amsterdam, Berlin and London soundscapes in historical documents, radio plays and films, and offers insights into themes such as film sound theory and museum audio guides. In doing so, this book puts contemporary controversies on urban sound in historical perspective, and contextualises iconic presentations of cities. It addresses academics, students, and museum workers alike. With contributions by Jasper Aalbers, Karin Bijsterveld, Carolyn Birdsall, Andrew Crisell, Andreas Fickers, Annelies Jacobs, Evi Karathanasopoulou, Patricia Pisters, Holger Schulze, Mark M. Smith and Jonathan Sterne.

The Wretched of the Earth Frantz Fanon 2019-12-23 A distinguished psychiatrist from Martinique who took part in the Algerian Nationalist Movement, Frantz Fanon was one of the most important

theorists of revolutionary struggle, colonialism, and racial difference in history. Fanon's masterwork is a classic alongside Edward Said's *Orientalism* or *The Autobiography of Malcolm X*, and it is now available in a new translation that updates its language for a new generation of readers. *The Wretched of the Earth* is a brilliant analysis of the psychology of the colonized and their path to liberation. Bearing singular insight into the rage and frustration of colonized peoples, and the role of violence in effecting historical change, the book incisively attacks the twin perils of postindependence colonial politics: the disenfranchisement of the masses by the elites on the one hand, and intertribal and interfaith animosities on the other. Fanon's analysis, a veritable handbook of social reorganization for leaders of emerging nations, has been reflected all too clearly in the corruption and violence that has plagued present-day Africa. *The Wretched of the Earth* has had a major impact on civil rights, anticolonialism, and black consciousness movements around the world. *Literary Paternity, Literary Friendship* Stanley Corngold 2002 *Literary Paternity, Literary Friendship: Essays in Honor of Stanley Corngold*

Aesthetics and World Politics R. Bleiker 2009-08-28 This book presents one of the first systematic assessments of aesthetic insights into world politics. It examines the nature of aesthetic approaches and outlines how they differ from traditional analysis of politics. The book explores the potential and limits of aesthetics through a series of case studies on language and poetics.

Playthings in Early Modernity Allison Levy 2017-02-22 An innovative volume of fifteen interdisciplinary essays at the nexus of material culture, performance studies, and game theory, *Playthings in Early Modernity* emphasizes the rules of the game(s) as well as the breaking of those

rules. Thus, the titular "plaything" is understood as both an object and a person, and play, in the early modern world, is treated not merely as a pastime, a leisurely pursuit, but as a pivotal part of daily life, a strategic psychosocial endeavor.

Routledge Handbook of Internet Politics Philip N. Howard 2010 The politics of the internet has entered the social science mainstream. From debates about its impact on parties and election campaigns following momentous presidential contests in the United States, to concerns over international security, privacy and surveillance in the post-9/11, post-7/7 environment; from the rise of blogging as a threat to the traditional model of journalism, to controversies at the international level over how and if the internet should be governed by an entity such as the United Nations; from the new repertoires of collective action open to citizens, to the massive programs of public management reform taking place in the name of e-government, internet politics and policy are

continually in the headlines. The Routledge Handbook of Internet Politics is a collection of over thirty chapters dealing with the most significant scholarly debates in this rapidly growing field of study. Organized in four broad sections: Institutions, Behavior, Identities, and Law and Policy, the Handbook summarizes and criticizes contemporary debates while pointing out new departures. A comprehensive set of resources, it provides linkages to established theories of media and politics, political communication, governance, deliberative democracy and social movements, all within an interdisciplinary context. The contributors form a strong international cast of established and junior scholars. This is the first publication of its kind in this field; a helpful companion to students and scholars of politics, international relations, communication studies and sociology.

Surrealist Women Penelope Rosemont 2000-12-01 Surrealist Women displays the range and significance of women's contributions to surrealism. Penelope Rosemont, affiliated with the Paris Surrealist Group in the 1960s and now a Chicago poet and painter, has assembled nearly three hundred texts by ninety-six women from twenty-eight countries. She opens the book with a succinct summary of surrealism's basic aims and principles, followed by a discussion of the place of gender in the origins of the movement. The texts are organised into historical periods ranging from the 1920s to the present, with introductions describing trends in the movement for each period; and each surrealist's work is prefaced by a brief biographical statement. Authors include El Allailly, Bruna, Cunard, Carrington, Cesaire, Gauthier, Giovanna, van Hirtum, Kahlo, Levy, Mansour, Mitrani, Pailthorpe, Joyce Peters, Rahon, Svankmajerova, Taub, Zangana

A History of American Literature and Culture of the First World War Tim Dayton 2021-02-04 In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of the international movement we call Modernism. At the same time a vast amount of non-

and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. *A History of American Literature and Culture of the First World War* explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.

A global history of early modern violence Erica Charters 2021-01-26 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This is the first extensive analysis of large-scale violence and the methods of its restraint in the early modern world. Using examples from Asia, Africa, the Americas and Europe, it questions the established narrative that violence was only curbed through the rise of western-style nation states and civil societies. Global history allows us to reframe and challenge traditional models for the history of violence and to rethink categories and units of analysis through comparisons. By decentring Europe and exploring alternative patterns of violence, the contributors to this volume articulate the significance of violence in narratives of state- and empire-building, as well as in their failure and decline, while also providing new means of tracing the transition from the early modern to modernity.

Adult Language Education and Migration James Simpson 2015-03-27 *Adult Language Education and Migration: Challenging Agendas in Policy and Practice* provides a lively and critical examination of policy and practice in language education for adult migrants around the world, showing how opportunities for learning the language of a new country both shape and are shaped by policy

moves. Language policies for migrants are often controversial and hotly contested, but at the same time innovative teaching practices are emerging in response to the language learning needs of today's mobile populations. This book: analyses and challenges language education policies relating to adult migrants in nine countries; provides a comparative study with separate chapters on policy and practice in each country; focuses on Australia, Canada, Spain (Catalonia), Finland, France, Ireland, the Netherlands, the UK and the US. Adult Language Education and Migration is essential reading for practitioners, students and researchers working in the area of language education in migration contexts.

Narratives of Low Countries History and Culture Jane Fenoulhet 2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future. Divided into three parts - The Uses of Myth and History, The Past as Illumination of Cultural Context, and Historiography in Focus - this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations. It reflects on the history of historiography and looks critically at the products of the historiographic process, such as Dutch and Afrikaans literary history. The chapters cover a range of disciplines and approaches: some authors offer a broad view of a particular period, such as Jonathan Israel's contribution on myth and history in the ideological politics of the Dutch Golden Age, while others zoom in on specific genres, texts or

historical moments, such as Benjamin Schmidt's study of the doolhof, a word that today means 'labyrinth' but once described a 17th-century educational amusement park. This volume, enlightening and home to multiple paths of enquiry leading in different directions, is an excellent example of what a past-present doolhof might look like.

Mystifying the Monarch Jeroen Deploige 2006 The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

Sex and Drugs Before Rock 'n' Roll Benjamin Roberts 2012 *Sex and Drugs Before the Rock 'n' Roll* is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age. Here, well-known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms. This study reveals how these young men rebelled, breaking from previous generations: letting their hair grow long, wearing colorful clothing, drinking excessively, challenging city guards, being promiscuous, smoking, and singing lewd songs. Cogently argued, this study paints a compelling portrait of the youth culture of the Dutch Golden Age, at a time when the rising popularity of print made dissemination of new cultural ideas possible, while rising incomes and liberal attitudes created a generation of men behaving badly.

Sovereignities in Question Jacques Derrida 2005 This book brings together five encounters. They

include the date or signature and its singularity; the notion of the trace; structures of futurity and the "to come"; language and questions of translation; such speech acts as testimony and promising; the possibility of the impossible; and the poem as addressed and destined beyond knowledge.

Cultural Techniques Bernhard Siegert 2015-05-01 In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that reproduce, displace, process, and reflect the distinctions fundamental for a given culture. *Cultural Techniques* aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word *Kultur*. *Cultural Techniques* comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from first-order to second-order techniques, from the technical to the artistic, from object to sign, from the natural to the cultural, from the operational to the representational. *Cultural Techniques* ranges from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and

American postcybernetic discourses.

Walking with the Earth Amélé Adamavi-Aho Ekué 2022-02 It is commonly believed that considering nature different from us, human beings (qua rational, cultural, religious and social actors), is detrimental to our engagement for the preservation of nature. An obvious example is animal rights, a deep concern for all living beings, including non-human living creatures, which is understandable only if we approach nature, without fearing it, as something which should remain outside of our true home. "Walking with the earth" aims at questioning any similar preconceptions in the wide sense, including allegoric-poetic contributions. We invited 14 authors from 4 continents to express all sorts of ways of saying why caring is so important, why togetherness, being-with each others, as a spiritual but also embodied ethics is important in a divided world.

Novel Translations Bethany Wiggin 2011-06-15 Many early novels were cosmopolitan books, read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and other European languages. In *Novel Translations*, Bethany Wiggin charts just one of the paths by which newness—in its avatars as fashion, novelties, and the novel—entered the European world in the decades around 1700. As readers across Europe snapped up novels, they domesticated the genre. Across borders, the novel lent readers everywhere a suggestion of sophistication, a familiarity with circumstances beyond their local ken. Into the eighteenth century, the modern German novel was not German at all; rather, it was French, as suggested by Germans' usage of the French word *Roman* to describe a wide variety of genres: pastoral romances, war and travel chronicles, heroic narratives, and courtly fictions. Carried in large part on the coattails of the Huguenot diaspora, these romans, nouvelles, amours secrets, histoires galantes, and histories scandaleuses shaped German literary culture to a previously unrecognized extent. Wiggin contends

that this French chapter in the German novel's history began to draw to a close only in the 1720s, more than sixty years after the word first migrated into German. Only gradually did the Roman go native; it remained laden with the baggage from its "French" origins even into the nineteenth century.

The 'Black Horror on the Rhine' Iris Wigger 2017-11-24 This book explores the 'Black Horror' campaign as an important chapter in the popularisation of racialised discourse in European history. Originating in early 1920s Germany, this international racist campaign was promoted through modern media, targeting French occupation troops from colonial Africa on German soil and using stereotypical images of 'racially primitive', sexually depraved black soldiers threatening and raping 'white women' in 1920s Germany to generate widespread public concern about their presence. The campaign became an international phenomenon in Post-WWI Europe, and had followers throughout Europe, the US and Australia. Wigger examines the campaign's combination of race, gender, nation and class as categories of social inclusion and exclusion, which led to the formation of a racist conglomerate of interlinked discriminations. Her book offers readers a rare insight into a widely forgotten chapter of popular racism in Europe, and sets out the benefits of a historically reflexive study of racialised discourse and its intersectionality.

Late Colonial Sublime G. S. Sahota 2018-01-15 Taking cues from Walter Benjamin's fragmentary writings on literary-historical method, *Late Colonial Sublime* reconstellates the dialectic of Enlightenment across a wide imperial geography, with special focus on the fashioning of neo-epics in Hindi and Urdu literary cultures in British India. Working through the limits of both Marxism and postcolonial critique, this book forges an innovative approach to the question of late romanticism and grounds categories such as the sublime within the dynamic of commodification. While G. S.

Sahota takes canonical European critics such as Theodor Adorno and Max Horkheimer to the outskirts of empire, he reads Indian writers such as Muhammad Iqbal and Jayashankar Prasad in light of the expansion of instrumental rationality and the neotraditional critiques of the West it spurred at the onset of decolonization. By bringing together distinct literary canons—both metropolitan and colonial, hegemonic and subaltern, Western and Eastern, all of which took shape upon the common realities of imperial capitalism—Late Colonial Sublime takes an original dialectical approach. It experiments with fragments, parallaxes, and constellational form to explore the aporias of modernity as well as the possible futures they may signal in our midst. A bold intervention into contemporary debates that synthesizes a wealth of sources, this book will interest readers and scholars in world literature, critical theory, postcolonial criticism, and South Asian studies.

Choosing the Better Part M.P. de Baar 2012-12-06 Anna Maria van Schurman was in more than one aspect an unconventional woman in her own lifetime. As a gifted scholar in many foreign and ancient languages, as well as in philosophy and theology, she corresponded with other learned men and women all over Europe. She achieved international renown for her own defence of scholarly activity of women. Life and work of this Dutch femme savante of the 17th Century has thus far been studied by theologians, philosophers, literary scholars, historians, pedagogues and art historians, each concentrating on specific aspects of Van Schurman's biography or work. A rather fragmented image of this scholar was the result. This interdependent collection of essays describes the life and work of Anna Maria van Schurman from an interdisciplinary - or rather multidisciplinary - approach and will outline a more integrated yet at the same time subtly differentiated picture. Nine contributions - from the disciplines of philosophy, theology, Dutch language and literature, intellectual and art history, and women's studies - partly based on new source material, shed light on

Van Schurman's ideas on erudition and femininity, ethics and philosophy, as well as on her religious beliefs, within the context of the early modern intellectual community to which she belonged.

Audience: This collection of essays will therefore command the interest not only of historians, but also of scholars and students in theology, philosophy, art history, and women's studies.

The Dada Painters and Poets Robert Motherwell 1989 Presents a collection of essays, manifestos, and illustrations that provide an overview of the Dada movement in art, describing its convictions, antics, and spirit, through the words and art of its principal practitioners.

Auld Lang Syne M. J. Grant 2021-12-03 In *Auld Lang Syne: A Song and its Culture*, M. J. Grant explores the history of this iconic song, demonstrating how its association with ideas of fellowship, friendship and sociality has enabled it to become so significant for such a wide range of individuals and communities around the world. This engaging study traces different stages in the journey of *Auld Lang Syne*, from the precursors to the song made famous by Robert Burns to the traditions and rituals that emerged around the song in the nineteenth and early twentieth centuries, including its use as a song of parting, and as a song of New Year. Grant's painstaking study investigates the origins of these varied traditions, and their impact on the transmission of the song right up to the present day. Grant uses *Auld Lang Syne* to explore the importance of songs and singing for group identity, arguing that it is the active practice of singing the song in group contexts that has made it so significant for so many. The book offers fascinating insights into the ways that *Auld Lang Syne* has been received, reused and remixed around the world, concluding with a chapter on more recent versions of the song back in Scotland. This highly original and accessible work will be of great interest to non-expert readers as well as scholars and students of musicology, cultural and social history, social anthropology and Scottish studies. The book contains a wealth of illustrations and

includes links to many more, including manuscript sources. Audio examples are included for many of the musical examples. Grant's extensive bibliography will moreover ease future referencing of the many sources consulted.

Phantom Formations Marc Redfield 2018-03-15 Marc Redfield maintains that the literary genre of the Bildungsroman brings into sharp focus the contradictions of aesthetics, and also that aesthetics exemplifies what is called ideology. He combines a wide-ranging account of the history and theory of aesthetics with close readings of novels by Goethe, George Eliot, and Gustave Flaubert. For Redfield, these fictions of character formation demonstrate the paradoxical relation between aesthetics and literature: the notion of the Bildungsroman may be expanded to apply to any text that can be figured as a subject producing itself in history, which is to say any text whatsoever. At the same time, the category may be contracted to include only a handful of novels, (or even none at all), a paradox that has led critics to denigrate the Bildungsroman as a phantom genre.

The Rise of the Dutch New Right Merijn Oudenampsen 2020-09-13 In the past 20 years, a wave of right-wing populist movements has swept over Europe, changing the face of European politics. The Netherlands has been one of the more iconic countries to partake in this shift. Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows, formed an integral part of a broader conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that

occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

Where Europe Begins: Stories Yoko Tawada 2007-05-17 A gorgeous collection of fantastic and dreamlike tales by one of the world's most innovative contemporary writers. Chosen as a 2005 Times Literary Supplement Book of the Year, *Where Europe Begins* has been described by the Russian literary phenomenon Victor Pelevin as "a spectacular journey through a world of colliding languages and multiplying cities." In these stories' disparate settings—Japan, Siberia, Russia, and Germany—the reader becomes as much a foreigner as the author, or the figures that fill this book: the ghost of a burned woman, a traveler on the Trans-Siberian railroad, a mechanical doll, a tongue, a monk who leaps into his own reflection. Through the timeless art of storytelling, Yoko Tawada discloses the virtues of bewilderment, estrangement, and Hilaritas: the goddess of rejoicing.

Living with Paradoxes Karolin Eva Kappler 2011-10-06 How do women who have survived traumatic sexual violence cope with and manage their everyday lives? Karolin Eva Kappler analyses the everyday life of victims of sexual violence, combining the normalcy of their daily life with the overwhelming experience of rape and sexual abuse. Based on a qualitative study, the author detects five patterns which characterize the victims' everyday coping practices and strategies. The grounded analysis of the interview material shows the fragility of the victims' lives, depending on paradoxes which reduce their freedom of choice and which explain the individual and social invisibility of sexual violence. The book is valuable reading for academics and practitioners working in the fields of sociology, psychology, medicine, social work, and education.
