A Woman'S Guide to the Male Mind - Sam

Geraldo 2011-01-14

A Womans Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 How Do You Tell If a Guy Fancies You? The article was so popular, receiving more than 70 replies from women with lots more questions, that I launched my web site www.seducemen.co.uk. Since then, most of the advice Ive given in hundreds of published articles was based on my own experiences and those of my friends. To write the book, however, I adopted a more scientific approach. I performed a significant amount of research into recent discoveries by anthropologists, sociologists, psychologists and biochemists on topics ranging from basic sexual attraction to personality type and male/female communications strategies. Its my belief, therefore, that A Womans Guide to the Male Mind features the best of two worlds: common sense opinions backed by solid empirical evidence. By helping ladies understand the male point of view with regard to sex, dating and

Once you understand a few fundamentals about the male mind and male behaviour, you will stop thinking of men as inscrutable blockheads and primitive misfits. You will no longer regard them as you would a small, nasty child or an alien race. Arming yourself with the wisdom in this book, you'll increase your odds of finding happiness and harmony in romantic relationships, and you will help ensure that this bliss lasts a lifetime. By the time a man reaches maturity, he has passed through four evolutionary stages in his attitude toward women and relationships. It's very important to understand and identify these four stages, because it will save you from wasting time on guys who aren't ready for serious romance.

as many beautiful women as they possibly can. I know you're probably shocked at this astonishing revelation, but don't be alarmed. It's not your fault, and it's nothing to hide or be ashamed of. In fact, if your ancestors didn't feel the same way, you wouldn't be here. It's important to add that most honorable men in a relationship generally restrain themselves from acting on this primal desire mostly because of love and respect and to avoid hurting their partners. However, that doesn't mean this powerful urge still doesn't exist. To this day learning to control this instinctive impulse tends to be the ultimate male dilemma. Guess what? Women desire and crave sex too. The problem is, too many guys are either too passive and conceal their sexual interest in women, or they act like aggressive idiots and drive them away. There is a very cool and natural way to approach and attract women so they become interested in you first, and I'm going to show you how to do it. There's no doubt that women want to be sexually

attractive and wanted by men. They are actively looking for those men who have the ability to unlock the code to their natural instinctive desires. This book is going to teach you how to develop those traits and skills that tap into a woman's primal needs and desires. You will become in so many words - simply irresistible. Attraction is not a choice. These are natural biological reactions embedded in our DNA developed over tens of thousands of years. Just as men have these responses to attractive women, so do women have similar reactions when they observe men with certain masculine traits. We often think of the male as competing with other males for the prize of mating with the female, but women, of course, also compete for the opportunity to mate with the male who has the most desirable traits. I'm going to teach you what those masculine traits are and how you can develop and use them so that you become more attractive and irresistible to women. I'm happy to report that some of you guys will be very

Do you want to know how to start a conversation and instantly attract women mastering your conversation skills and your body language? If yes, then keep reading... Actions speak louder than words. There is a great deal of truth to this saying. Some people say that they're not scared or anxious, but by simply seeing the look on their face or in the way their legs fidget, you can tell that they aren't being entirely truthful.

People, after you have hurt them by something you have said but have since apologized for, will tell you that they are already okay, but their refusal to look at you straight in the eye while talking to you tells you that in reality, they aren't okay, at least not yet. When it comes to dating, attracting, and flirting with women successfully, the ability to accurately read women's body language can spell the difference between going home disappointed and going home with her.

That is how important it is to have the ability to read women really well. And trust me, I've been around long enough to know! In this book, I will be sharing with you how to read women's body language so that you can experience significantly more success in attracting them, flirting with them, and dating them. And I'm doing this under fear for my life because frankly speaking, what I'm doing for you here in this book is tantamount to treason, so don't be surprised to find me in the news one of these days in the obituary! All kidding aside, you will learn how to decode the many different body language signals that most women give out when they're attracted to you and when they're not. But wait, there's more! What use is the ability to read body language if you can't use what you read? How To Analyze People. Body Language. - Edward Collins

Imagine being able to know what the people you interact with are thinking without them having to tell you, knowing if they are lying to you, understanding their true intentions, if someone likes you or not, if they have a positive or negative opinion of you, and even anticipating what someone is about to do. As incredible as it may seem, these and many other things can be achieved if you know how to read and interpret people's non-verbal language. This is possible.

Body Language Signs That A Woman Is Attracted To You

With the right knowledge, you can begin to develop this ability, especially due to the difficulty of simulating and having complete control over body language, such as gestures, postures, and actions that we make with our bodies. The practical benefits of knowing how to read non-verbal language are enormous. Not only does it allow you to deduce people's thoughts, feelings, intentions, and attitudes, but it also helps you to be more aware of your own use of non-verbal language and thus be able to

optimize it to become a more effective communicator, more confident, and even use it to your advantage. Normally, we don't pay attention to what our bodies reflect, and for that same reason, we don't have the ability to read others. I invite you to explore this powerful idea and to recognize the huge potential that this knowledge can bring to your life.
