Sanaaq - Mitiarjuk Nappaaluk 2014-01-01

Sanaaq is an intimate story of an Inuit family negotiating the changes brought into their community by the coming of the qallunaat, the white people, in the mid-nineteenth century. Composed in 48 episodes, it recounts the daily life of Sanaaq, a strong and outspoken young widow, her daughter Qumaq, and their small semi-nomadic community in northern Quebec. Here they live their lives hunting seal, repairing their kayak, and gathering mussels under blue sea ice before the tide comes in. These are ordinary extraordinary lives: marriages are made and unmade, children are born and named, violence appears in the form of a fearful husband or a hungry polar bear. Here the spirit world is alive and relations with non-humans are never taken lightly. And under it all, the growing intrusion of the qallunaat and the battle for souls between the Catholic and Anglican missionaries threatens to forever change the way of life of Sanaaq and her young family.

The Complete Book of Children's Play - Ruth Edith Hartley 1963

Canada's Legal Pasts - Lyndsay Campbell 2020-04-15

Canada's Legal Pasts presents new essays on a range of topics and episodes in Canadian legal history, provides an introduction to legal methodologies, shows researchers new to the field how to locate and use a variety of sources, and includes a combined bibliography arranged to demonstrate best practices in gathering and listing primary sources. It is an essential welcome for scholars who wish to learn about Canada's legal pasts--and why we study them. Telling new stories--about a fishing vessel that became the subject of an extraordinarily long diplomatic dispute, young Northwest Mounted Police constables subject to an odd mixture of police discipline and criminal procedure, and more--this book presents the vibrant evolution of Canada's legal tradition. Explorations of primary

sources, including provincial archive records that suggest how Quebec courts have been used in interfamilial conflict, newspaper records that disclose the details of bigamy cases, and penitentiary records that reveal the details of the lives and legal entanglements of Canada's most marginalized people, show the many different ways of researching and understanding legal history. This is Canadian legal history as you've never seen it before. Canada's Legal Pasts dives into new topics in Canada's fascinating history and presents practical approaches to legal scholarship, bringing together established and emerging scholars in collection essential for researchers at all levels.

Gender Reversals and Gender Cultures - Sabrina Petra Ramet
2002-11-01

Gender Reversals and Gender Cultures is a collection of specially commissioned essays taking a cross cultural and cross historical perspective on the subject. The book documents the universality of gender reversals, with chapters ranging from early Christianity up to the present. It examines how gender reversals are bound up with taboo, and how this underlies various religious and ritual activities. Gender Reversals and Gender Cultures also shows how attitudes to gender-reversal can reveal much about a particular culture. Choisir le sexe ...et plus - Jean-Jacques Perrut
2019-07-31T00:00:00+02:00

Depuis des millénaires, la sélection du sexe des enfants à-naître a intrigué et passionné nos prédécesseurs qui, au fil du temps, n'ont pas

manqué d'élaborer des hypothèses et de proposer des solutions pour concevoir garçons et filles à volonté. L'auteur montre l'évolution sociétale passant par les infanticides et abandons, le génocide silencieux du sexe féminin pour des motifs socio-économico-culturels, la revendication du droit à l'enfant, de la liberté de procréer « quand on veut, comme on veut », ou celle de la défense de l'égalité des genres et des sexes. Il insistera surtout sur l'avancée des sciences, plus rapide que l'évolution de la société, qui permet désormais, avant la nidation, outre la prévention des maladies génétiques, la sélection du sexe, bien sûr, mais aussi de bien d'autres caractéristiques... Diverses manipulations, aux relents transhumanistes, vont permettre la naissance d'enfants « augmentés et améliorés », dont le ou les parents auront choisi le sexe et d'autres traits physiques ou intellectuels. Face à la vulnérabilité de la personne humaine et à sa marchandisation, il est de notre responsabilité de veiller à ce que la technicisation de la procréation, la dissociation de la sexualité et de la reproduction n'entraînent pas des dérives eugéniques et sociétales conduisant à la perte de notre humanité.

Transsexualism - Sics Editore 2014-10-01

Transsexualism refers to the most extreme form of incongruity between an individual's gender identity and anatomic sex. In 1994, the diagnosis of transsexualism was replaced with "gender identity disorder" by the DSM-IV committee. Transsexualism is associated with distress because the individual, due to his/her physical characteristics, is not treated as a representative of the gender he/she identifies with and cannot therefore live in a gender role with which he/she identifies. The sexual anatomy of the body also feels alien and inappropriate. Transsexualism that causes distress is treated with sex reassignment therapy. The aim is to alter body characteristics and anatomy closer to those of the target gender as well as to facilitate the integration into the social role of the opposite sex. Investigations and surgery are often only available in specialist centres.

International Scientific Committee for the Drafting of a General History of Africa 1999

A history of Africa from the 16th to the 18th centuries, this study concentrates on the continuing evolution of African states and cultures, the increase in external trade, and the consequences of the slave trade. The series is co-published in Africa with seven publishers, in the United States and Canada by the University of California Press, and in association with the UNESCO Press.

Life During Growth - William Easterly 1999

The progress of life during growth is surprisingly uneven. This paper reaches this conclusion with a panel dataset of 95 indicators covering up to 4 time periods (1960, 1970, 1980, and 1990). The indicators cover 7 subjects: (1) individual rights and democracy, (2) political instability and war, (3) education, (4) health, (5) transport and communications, (6) inequality across class and gender, and (7) "bads". Virtually all of these indicators show quality of life across nations to be positively associated with per capita income. However, when country effects are removed using either fixed effects or an estimator in first differences, I find that the effects of growth on "life" are uneven and often nonexistent. Moreover, exogenous time shifts are more important than growth effects in the majority of indicators. With the fixed effects estimator, growth has an impact on the quality of life that is significant, positive, and more important than exogenous shifts for 12 out of 95 indicators. With a first-differences IV estimator, growth has a causal impact on the quality of life that is significant, positive, and more important than exogenous shifts for 7 out of 79 quality of life. The conclusion speculates about such

explanations for the uneven results as (1) the long and variable lags that may come between growth and changes in the quality of life, and (2) the possibility that world growth is more important than home country growth for many quality of life indicators.

Comment choisir le sexe de son enfant ? Avec 97% de réussite - Roberte de Crève Coeur 2011-06-16

Choisir le sexe de son bébé est donc maintenant à la portée de tous les couples. Roberte en apporte la preuve grâce à sa méthode entièrement naturelle, sans régime ni médicament, qui repose uniquement sur une corrélation entre cycle menstruel et dates du calendrier. Une méthode qui, correctement appliquée, est fiable à 97 %. Vous trouverez, dans cet ouvrage, la description de cette technique avec, en annexe, le calendrier mensuel pour les « bébés filles » et pour les « bébés garçons » jusqu'en décembre 2012. Vous aimeriez avoir une petite fille ou préféreriez-vous un petit garçon ? Rien de plus simple, laissez-vous guider... Une méthode 100% naturelle sans régime ni médicament.

The Exploited Child - Bernard Schlemmer 2000-07

Ethnomethodology - Alain Coulon 1995-04-20

Ethnomethodology is a research strategy that systematically examines the everyday interactions between people. In the past three decades, an impressive body of work has been created under this label by such noted scholars as Garfinkel, Sacks, Cicourel, Schlegloff, Mehan, and Emerson. In this volume, Alain Coulon demystifies the ethnomethodological tradition and its often arcane nomenclature. Coulon explains its history, its major features, and the major criticisms leveled at it in terms that are accessible to students and novices. Covering both the theoretical notions and main ethnomethodological practices and replete with examples of key work in the area, Ethnomethodology is the first accessible, brief introduction to this important qualitative research tradition.

Shamanism - Graham Harvey 2003

This is an essential tribute to the vitality and breadth of shamanic tradition both amongst the most distant tribes of America and Asia, and within seemingly ordinary aspects of modern western culture.

Every child counts: new global estimates on child labour - 2002
[Introduction] This document presents the results of ILO research on the global magnitude of child labour. It introduces new global estimates for economic activity by children and child labour in the sense of ILO Conventions Nos 138 and 182. There are no national data to be found in this document. The lowest aggregate level presented are the major world regions. All estimates are for the benchmark year 2000. Child labour is a sensitive subject and numbers on its magnitude play an important role in global policy-making and advocacy efforts. The research was conducted in acute awareness of this responsibility and used well-proven statistical methodologies in an attempt to keep error margins to a minimum. All sources, underlying definitions and methodological steps are explained in detail. The document is divided into three main sections. Section 1 presents the main findings. Sections 2 and 3 introduce definitions and methodologies. Data are presented in tables and charts
