Riverfinger Women - Elana Dykewomon 2014-01-14

Award-winning author Elana Dykewomon's "wonderful" debut novel about lesbian life in America during the social upheaval of the late 1960s and early 1970s (Adrienne Rich). Written when she was just twenty-four years old, *Riverfinger Women* is Elana Dykewomon's beloved, intimate coming-of-age novel about Inez and her circle of friends—the Riverfinger women—struggling to find themselves amid the changing social mores of the Civil Rights era. Inez has known she was a lesbian since childhood, and while moving between Highland, her boarding school, and her friends' Greenwich Village apartment, she experiences longing and

disappointment, friendship and romance, and her first real relationship, with schoolmate Abby. Along with their experimental and outgoing friend Peggy, Inez and Abby graduate from Highland and move into adulthood, confronting the prejudices of the larger world as they go. Told in an engrossing interweaving narrative, *Riverfinger Women* explores the characters' brushes with sexual violence, prostitution, drugs, love, and, ultimately, happiness amid the thrills and challenges of lesbian life during the second women's liberation movement. Originally published in 1974, this groundbreaking novel was honored with the 2018 Lee Lynch Classic Award.

Cook and the Carpenter - June Davis Arnold 2012-01-01

Women's liberation sought to transform every sector of U.S. society--its educational system, culture, language, politics, and, importantly, the delivery of social services. To enable this movement, women all over the country began to establish women's centers. In New York City, women from almost every local women's liberation group took over an

abandoned building in lower Manhattan on New Year's Eve, 1970. They named the building The Fifth Street Women's Building and renovated it to feed, clothe, shelter, and educate women in need. The take-over was a huge success, attracting hundreds of activists and community members. Thirteen days later, the New York City Tactical Police stormed the building, expelled the women, and ended the action. The City then tore the building down and built a parking lot on the site. June Arnold was one of the original planners and an active participant in this episode. When she got out of jail, she went home and wrote this novel about what happened. *The Cook and the Carpenter*, which quickly gained fame for its use of a non-gendered language, remains one of the best representations of the time period that birthed modern feminism and paved the way for lesbian communities.

Immoral Memories - Sergei Eisenstein 2014

"Sergei Eisenstein (1898-1948), creator of such masterpieces as Battleship Potemkin, Alexander Nevsky and Ivan the Terrible, was perhaps the greatest of all film directors. He wrote his autobiography in 1946, two years before his death, and it is a work of major importance in the light it sheds on his personality and mercurial genius. Vivid, eccentric and free-ranging, Immoral Memories is written in a style reminiscent of the brilliant visual effects of montage and dynamic progression that characterize its author's film-making technique. He recounts his life in Russia from the time of the Revolution, during which he served in the Bolshevik army as a volunteer, his travels in the West and his encounters with a remarkable medley of individuals during his long career. He gives us unique insights, too, into his triumphs and tribulations. His disappointments and despair were exemplified by the

banning of the film Ivan the Terrible, Part II, which was not released until fifteen years after his death. And he never expected his autobiography to be published in Russia. Yet in answer to his query "Has there been life" he replied that there had been "life lived acutely, joyously, tormentedly, at times even sparkling, unquestionably colourful, and such a life that, I suppose, I would not exchange for another" -- Publisher's description.

Hollywood Highbrow - Shyon Baumann 2018-06-05

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would

have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.
