A "smoking hot"* erotic romance novel that will have you up all night... Erin Coffey has been a nurse for years, but nothing's prepared her for the physical and emotional demands of her new position. Needing to move closer to her dysfunctional family, she takes a dangerous job at Larkhaven Psychiatric Hospital, where she quickly learns that she needs protection—and she meets the strong, over-confident coworker who's more than willing to provide it. Kelly Robak is the type of guy that Erin has sworn she'd never get involved with. She's seen

firsthand, via her mess of a sister, what chaos guys like him can bring into a woman's life. But she finds herself drawn to him anyway, even when he shows up at her door, not eager to take no for an answer. What Erin finds even more shocking than Kelly's indecent proposal is how much she enjoys submitting to his every command. But he can't play the tough guy indefinitely. If they want to have more than just an affair, both will have to open up and reveal what they truly need. we live in - who wants to be a terrible place of hunger and things falling apart?' Darling and her friends live in a shanty called Paradise, which of course is no such thing. It isn't all bad, though. There's mischief and adventure, games of Find bin Laden, stealing guavas, singing Lady Gaga at the tops of their voices. They dream of the paradises of America, Dubai, Europe, where Madonna and Barack Obama and David Beckham live. For Darling, that dream will come true. But, like the thousands of people all over the world trying to forge new lives far from home, Darling finds this new paradise brings its own set of challenges - for her and also for those she's left behind. The Doctor in Literature - Solomon Posen 2005

Posen, a retired physician and a former English major, has indexed 1500 passages from approximately 600 novels, short stories and plays describing physicians. He also analyzes several persistent themes in literature, such as doctors' fees, lack of time, bedside manner and social status. Posen's extensive research has uncovered a resentment of doctors and a discontent with the medical profession that transcends time and place. Psychoanalytic Perspectives on Puberty and Adolescence - Gertraud Diem-Wille 2020-12-30
Puberty is a time of tumultuous transition from childhood to adulthood activated by rapid physical changes, hormonal development and explosive activity of neurons. This book explores puberty through the parent-teenager relationship, as a "normal state of crisis", lasting several years and with the teenager oscillating between childlike tendencies and their desire to become an adult. The more parents succeed in

recognizing and experiencing these new challenges as an integral, ineluctable emotional transformative process, the more they can allow their children to become independent. In addition, parents who can also see this crisis as a chance for their own further development will be ultimately enriched by this painful process. They can face up to their own aging as they take leave of youth with its myriad possibilities, accepting and working through a newfound rivalry with their sexually mature children, thus experiencing a process of maturity, which in turn can set an example for their children. This book is based on rich clinical observations from international settings, unique within the field, and there is an emphasis placed by the author on the role of the body in self-awareness, identity crises and gender construction. It will be of great interest to psychoanalysts, psychotherapists, parents and carers, as well as all those interacting with adolescents in self, family and society.

Medical Rape - Lars G Petersson 2011-06-01
DescriptionFrom age 17 German young men, no matter if they enlist or are conscripted to serve their country, are legally obliged to subject themselves to repeated, humiliating medical examinations carried out mainly by female staff. Military regulations and old perverted habits demand they strip, present testicles, pull foreskin back, turn, bend forward and spread their buttocks for inspection. What once was seen as a suitable induction to Hitler's tyrannical army and conducted by medics of dubious repute has today, 65 years later, been turned into a bizarre manifestation of 'gender equality' at work.... Mental suffering due to these abusive

'health' interventions is widespread throughout the country, but nobody accepts responsibility. Even medical boards are silent and pass the buck. 'So is the law.' 'We just follow orders and regulations.' Last time such excuses were heard on a broader scale was in Nuremberg.

MUSTERUNG discloses a huge state-sanctioned, sadomasochistic scandal which until now only has been protected by its status as taboo. About the Author Lars G Petersson is a 58 year old Swedish-born Londoner, activist and free-lance writer with special interest in peace, mental health, social justice and human rights. He is the author of a large number of articles and three books: DESERTERS (Danish Resistance Museum Publishing, 2005), ABUSE UK (Chipmunkpublishing, 2010) and MUSTERUNG (Chipmunkpublishing 2010) . Trained as a nurse - specialising in mental health, social issues and addiction - Lars G Petersson has persistently used his insider knowledge to disclose matters otherwise hidden from public

scrutiny. In a number of cases this has led to serious public debate and major improvements for vulnerable people. In one case criticism of serious maltreatment of (non criminal) Iran/Iraq war deserters in a Copenhagen prison (Amnesty International Report 1991) led to significant improvements in the treatment of refugees in Denmark. In another, Petersson's disclosures from a psychiatric unit under the Danish Ministry of Defence led to major reforms in military 'training methods' of recruits. As a conscripted soldier Lars G Petersson served in the Swedish air forces. He has gathered extensive knowledge about German politics and society ever since the early seventies when he worked as a massage therapist in the state of Hesse.

Female Masculinity - Judith Halberstam 1998
Masculinity without men. In *Female Masculinity* Judith Halberstam takes aim at the protected

status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian"

a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs,

including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.
