[Biology for the IB Diploma Exam Preparation Guide](#) - Brenda Walpole 2015-06-25

Biology for the IB Diploma, Second edition covers in full the requirements of the IB syllabus for Biology for first examination in 2016.

New Star Science - 2003-01-24

New Star Science contains flexible unit packs from Foundation through to Year 6 with all the resources you need to teach Primary Science as you choose or in line with the QCA Scheme of Work. And with new Assessing Pupils' Progress support and BBC Active software, it's the most comprehensive yet flexible science resource in the UK.

Teacher book - David Sang 2004

Bring your science lessons to life with Scientifica. Providing just the right proportion of 'reading' versus 'doing', these engaging resources are differentiated to support and challenge pupils of varying abilities.

Ascent! 1 - Louise Petheram 2002

This series is focused on delivering custom materials which are designed and presented to meet the needs of enthusiastic and committed students. The resources are written at an average reading ability level, but with full and proper use of scientific terminology throughout. Ascent! has its own text-linked website: www.nelsonthornes.com/ascent

Edutainment Technologies. Educational Games and Virtual Reality/Augmented Reality

Applications - Maiga Chang 2011-09-02

This book constitutes the refereed proceedings of the 6th International Conference on E-learning and Games, Edutainment 2011, held in Taipei, Taiwan, in September 2011. The 42 full papers were carefully reviewed and selected from 130 submissions. The papers are organized in topical sections on: augmented and mixed reality in education; effectiveness of virtual reality for education; ubiquitous games and ubiquitous technology & learning; future classroom; e-reader and multi-touch; learning performance and achievement; learning by playing; game design and development; game-based learning/training; interactions in games; digital museum and technology, and behavior in games; educational robots and toys; e-learning platforms and tools; game engine/rendering/animations; game-assisted language learning; learning with robots and robotics education; e-portfolio and ICT-enhanced learning; game-based testing and assessment; trend, development and learning process of educational mini games; VR and edutainment.

Integrated Tasks - John Stringer 2005

Covering English, Mathematics and Science, Integrated Tasks is a brand new series designed to help you embed ICT into your core curriculum planning.

The Ecology of a Garden - Jennifer Owen 1991-07-18

Many suburban gardens are recognized as being rich in wildlife. Published accounts of their natural history, however, are largely anecdotal with little quantitative basis. This is, therefore, a unique documentation of the wildlife that existed in the author's Leicestershire garden over a fifteen-year period between 1972 and 1986. After an introduction to urban wildlife, gardens, and the natural history of Leicestershire, the author describes her garden and the techniques employed for trapping, collecting, and recording of species. In total, the diversity, abundance and yearly fluctuations of 1757 species of animal and 422 species of plant were recorded. It is clear that the author views the suburban garden as an ecological habitat, and one of the most important conclusions reached by Dr. Owen is that with increasing despoliation of the countryside, gardens will have considerable significance for conservation.

Longman Science Biology 10 - Tewari Akhilesh 2008-09

Tried and True - National Science Teachers Association 2010

A compilation of popular Tried and True columns originally published in Science Scope, this new book is filled with teachers best classroom activities time-tested, tweaked, and engaging. These ageless activities will fit easily into your middle school curriculum and serve as go-to resources when you need a tried-and-true lesson for tomorrow. --from publisher description.

YCC resource guide - Youth Conservation Corps (U.S.). 1978

Essential Primary Science - Alan Cross 2014-09-16

If you are teaching - or learning - to teach primary science, this is the toolkit to support you! Highly respected and widely used, Essential Primary Science 2E blends essential subject knowledge with a vast array of teacher activities. Updated and revised throughout to reflect the requirements of the new National Curriculum, it covers the essential knowledge and understanding that you need; plus it offers over 200 great ideas for teaching primary science at KS1 and KS2 - so no more late nights thinking up creative new ways to teach key concepts! Written in a friendly and supportive style this new edition offers: Over 200 original and new activities to complement the new curriculum, ready for you to try out in the classroom Tips on how to ensure each lesson includes both practical and investigative elements Suggestions on how to make your lessons engaging, memorable and inclusive How to deal with learners' common scientific misconceptions in each topic Two new chapters on working scientifically and how to tackle assessment New up-to-date web links to quality free resources Drawing on their own extensive teaching experience and understanding of the new National Curriculum, the authors provide the essential guide to teaching primary science for both trainee teachers and qualified teachers who are not science specialists.

Nelson Modular Science - Paul Collison 2003-06

The Nelson Modular Science series is made up of three books divided into single, double and triple award modules presented in an accessible format. Book 1 covers the six single award and one coursework modules; Book 2 contains six double award modules; and Book 3 covers the six triple award modules. Each module is covered in self-contained units. This teacher's file includes practical support sheets and addresses Sc1 investigations. Works sheets are provided to integrate the use of ICT throughout science. Additional GCSE-style questions and modular tests should enhance learning and recall of information. [Voyage of Adventure. Annotated Teacher's Edition](#) - 1986

The Science Teacher's Activity-A-Day, Grades 5-10 - Pam Walker 2010-10-05

A hands-on and fun-filled resource for teaching science to middle and high school students New in the 5-Minute Fundamentals Series, The Science Teacher's Activity-A-Day, Grades 6-12, includes 180 easy, five-minute hook or sponge activities to capture learners' attention and introduce lessons. Divided into three units, Physical Science, Life Science, and Earth and Space Science; the activities cover topics based on the National Science Education Standards. All the book's activities can be done with materials that are inexpensive and easy to find Includes quick and fun "sponge" activities that are designed to engage students All the activities take about 5 minutes to complete The Science Teacher's Activity-a-Day is an ideal resource for middle and high school science teachers.

Cambridge Primary Science Stage 6 Teacher's Resource Book with CD-ROM - Fiona Baxter 2014-05-22

Cambridge Primary Science is a flexible, engaging course written specifically for the Cambridge Primary Science curriculum framework. This Teacher's Resource for Stage 6 contains guidance on all components in the series. Select activities and exercises to suit your teaching style and your learners' abilities from the wide range of ideas presented. Guidance includes suggestions for differentiation and assessment, and supplementing your teaching with resources available online, to help tailor your scheme of work according to your needs. Answers to questions from the Learner's Book and Activity Book are also included. The material is presented in editable format on CD-ROM, as well as in print, to give you the opportunity to adapt it to your needs.

Spotlight Science - Keith Johnson 2000

Topic Outlines show parts of the PoS to be covered, the relationship of the topic to aspects of KS2 and KS4 and warn of equipment that may need special preparation time in advance. Topic Maps are provided for students. Lesson Notes relating to each double page spread in the students' book offer objectives, ideas for each lesson, detailed references to the PoS, level descriptions, safety points with references to CLEAPPS HAZCARDS, ICT support, cross-curricular links and equipment lists. Answers to all questions in the students' book are also provided. Additional support material provide: Homework Sheets, Help and Extension Sheets to optimise differentiation (Sc1), Sc1 Skill Sheets, 'Thinking about....' activities to improve integration of CASE activities with Spotlight Science, Revision Quizzes and Checklists, etc. Extra Help Sheets for each topic extend the range of support for Sc1 and Sc2-4. Challenge Sheets for each topic provide a variety of enrichment activities for more able students. They consist of a variety of challenging activities which will present students with opportunities to develop problem-solving, thinking, presentational and interpersonal skills. Technician's Cards include help to prepare lessons, equipment requirements and CLEAPPS HAZCARD references. For more information visit the website at

Teaching Primary Science Constructively - Keith Skamp 2017-09-05

Teaching Primary Science Constructively helps readers to create effective science learning experiences for primary students by using a constructivist approach to learning. This best-selling text explains the principles of constructivism and their implications for learning and teaching, and discusses core strategies for developing science understanding and science inquiry processes and skills. Chapters also provide research-based ideas for implementing a constructivist approach within a number of content strands. Throughout there are strong links to the key ideas, themes and terminology of the revised Australian Curriculum: Science. This sixth edition includes a new introductory chapter addressing readers' preconceptions and concerns about teaching primary science.
