**How to Attract Women** - Leonardo Bustos  
2015-09-10

How to Attract Women Attract more women with humor by reading this wildly funny and entertaining book! You will be taken through a step by step formula that will help you to easily develop the high status humor skills and alpha male body language habits that women are subconsciously attracted to at a primal level. You will discover how fun and exciting it is to confidently approach practically any woman, anytime, anywhere and instantly have a fun and humorous connection with her. I'll show you a guaranteed foolproof method that has allowed me to engage attractive women in deep and thoughtful rapport by asking the right questions that cause her to become emotionally aroused. Men are aroused more by visual cues. A man looks at a woman searching for sexual stimuli like a jeweler looks for perfection in a flawless gem. Visual cues convey information about a woman's health, fertility, and youth. Women are aroused more by psychological cues. A woman looks at a man much like a detective would a suspected criminal who is about to commit another crime. The visual cues a woman looks for are status, resources, commitment, kindness, stability, and humor. Just as you are attracted to a beautiful face, ass, and breasts, so are women attracted to "male cleavage," or the attractor factors that include high status humor. I'm going to show you how to develop those psychological cues that women can't help but be attracted. With a little practice, you'll start to notice that women will begin to smile at you more when you stimulate the emotional part of their brains that make them laugh. You'll especially notice how they will start engaging you more in a playful manner and will then want to start spending more time with you. Women want men to pursue them for sex. The problem is, too many guys are either too passive and conceal their sexual interest in women, or they act like aggressive idiots and drive them away. Luckily for you, there is a very cool and natural way to approach and attract women so they become interested in you first, and I'm going to show you how to do it.

There is no doubt that women want to be sexually attractive and desired by men. They are actively looking for those men who have the ability to unlock the code to their natural instinctive desires. This book is going to teach you how to develop those traits and skills that tap into a woman's primal needs and desires. You grew up with a modern "female blueprint" and I'm going to show you how to record over it. I'm happy for the women's liberation movement and equality, but along with it became the feminization of American society. The Equal Rights Movement for women in the 60's has caused role reversals and gender confusion that contradicts the conditioning of tens of thousands of years of customary male-female roles. Male and female blueprints that took around 200,000 years to evolve upended suddenly over the last 50. That is a 4,000 to 1 ratio! That's like starting on less than the 1-inch line on a football field of a hundred yards. It's no wonder the modern male population is so confused. One of the primary reasons so many feminized males (often referred to as wusses) are unsuccessful in attracting women is they act like women themselves. It won't work! You can't reverse a few hundred thousand years of conditioning over a 50-year period and expect different results. The methods you're about to learn were scientifically tested and proven to work in social experiments. This information has been carefully researched and documented from experts in the fields of evolutionary psychology, sociology, neuroscience, evolutionary biology, anthropology, and many other fields too numerous to mention. This book can change your life!

**Secrets of "Men are from Mars, Women are from Venus" - PAUL CARNEGIE 2019-11-25**

Reading through the book Men Are From Mars, Women Are From Venus which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book Men Are From Mars, Women Are From Venus, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its

eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's Men Are From Mars, Women Are From Venus. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance, genuine love and

loyalty in a long term relationship. Well, based on the concept that men and women are living on different "planets," this book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The author deliberately lays big emphasis placed on love - since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, Men Are From Mars, Women Are From Venus, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to Men Are From Mars, Women Are From Venus, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. How To Improve Communication In A Relationship There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as

direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. How to make communication work The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate

more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depends on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communication lines free and open. You Should Learn To Show Appreciation So much of Men Are From Mars, Women Are From Venus is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like Men Are From Mars, Women Are From Venus, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your

romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

is a built in psychological mechanism to test your resolve and for them to know the stuff you are made of. Sometimes the test is a sign of emotional weakness or insecurities on the part of the girl. But for majority of other girls, they know and understand what you are; a pick up artist. They know the name of the game and if they do enjoy it then they are going to test you. 1- Do you have what it takes to truly love and care for them? 2- Are you mentally, psychologically and emotionally secure to love them like a real man. 3- Do you essentially have a back bone to make tough calls as need be? 4- Do you know how to play at their level without losing your man-hood? 5- Can you take the lead in tough situations and own up if you make mistakes? Believe it or not, these are some of the things that real women want from REAL MEN. If you would like to know the rest, then you just have to read this book. HOW TO UNDERSTAND WHEN A WOMAN IS TESTING YOU AND PASS THE TEST WITHOUT EVEN BLINKING Just as some women are not aware that they are testing men, so it is that most men are not aware that they are being tested. And if this is you, then grab a can of beer if you do drink, take a seat and get ready for the journey of your life.

WITHIN THIS BOOK YOU WILL ALSO DISCOVER: 1- How women test men 2- What to expect when any woman is testing you 3- How To connect with any woman who is testing you 4- How you can earn her trust and respect 5- How to pass the test with flying colors and give her what she wants and even have her begging for more. And because love is a two way street and it takes two to tango: 6- How to test a woman even when she is testing you

### **What Women Want When They Test Men -**

Bruce Bryans 2021-04-22

Discover What Women Want in a Man and How They Secretly Test You For it If you pay close enough attention to what really attracts women, you'll find that what women want is a man with a backbone. Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like...a man.

Unfortunately, a lot of men have difficulty accepting the truth that many women prefer to be with a man who isn't afraid to stand up to them, who challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure - men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process. How to Understand Women and Pass Their Tests With Unshakeable Confidence Men around the world have no idea that the women they know and love are testing them. These men go about their lives interacting with the opposite sex in absolute darkness, ignorant to the fact that they're being judged, appraised, approved, and rejected based on their subconscious reactions to female testing. If you had no idea that women test men and why they have to, you're about to take a journey onto a road less traveled - the more mysterious side of female psychology and how women think.

Attract Women Through Authenticity and Be the Strong Man a Woman Wants For a Relationship

It's important for a man to learn how to walk that thin line between caring, thoughtful lover and firm, assertive leader. The man who masters the art of being the perfect gentleman and a strong alpha male is the ideal specimen to a high-quality woman. This is what you're going to learn in this book. So if you're dating or in a relationship and women constantly create drama, lose interest in you, or manipulate you, it's time you finally got some advice from one of the only relationship books for men that won't turn you into a doormat. Here's what you're going to learn inside: How to be radically honest with a woman and why this makes her MORE attracted to you. The reason why women test men CONSISTENTLY and how to use this knowledge to deepen a woman's desire. (Hint: This is the key to female psychology and how women think.) How to be confident with difficult women. What women want in a man and how to give it to them. How to make a woman happy without becoming a complete doormat of a man. How to seduce your wife and get her in the mood by responding like a MAN whenever she "pokes the bear." How to be firm and say "No" to the woman you love without destroying intimacy. How to keep a woman interested in you by doing the ONE thing MOST men are deathly afraid of doing. How to avoid unnecessary arguments, fights, and drama with a woman by using a simple communication technique. The best way to secretly test a woman's level of romantic interest in you before making a long-term commitment. How to stop living in fear of what a woman might think, say, or do if she disagrees with or disapproves of you in any way. And much, much more... Would You Like to Know More?
