The Spectacle of Intimacy - Karen Chase

2009-08-15

Love of home life, the intimate moments a family peacefully enjoyed in seclusion, had long been considered a hallmark of English character even before the Victorian era. But the Victorians attached unprecedented importance to domesticity, romanticizing the family in every medium from novels to government reports, to the point where actual families felt anxious and the public developed a fierce appetite for scandal. Here Karen Chase and Michael Levenson explore how intimacy became a spectacle and how this paradox energized Victorian culture between 1835 and 1865. They tell a story of a society continually perfecting the forms of private pleasure and yet forever finding its secrets exposed to view. The friction between the two conditions sparks insightful discussions of authority and sentiment, empire and middle-class politics. The book recovers neglected episodes of this mid-century drama: the adultery

trial of Caroline Norton and the Prime Minister, Lord Melbourne; the Bedchamber Crisis of the young Queen Victoria; the Bloomer craze of the 1850s; and Robert Kerr's influential treatise, celebrating the ideal of the English Gentleman's House. The literary representation of household life--in Dickens, Tennyson, Ellis, and Oliphant, among others--is placed in relation to such public spectacles as the Deceased Wife's Sister Bill of 1848, the controversy over divorce in the years 1854-1857, and the triumphant return of Florence Nightingale from the Crimea. These colorful incidents create a telling new portrait of Victorian family life, one that demands a fundamental rethinking of the relation between public and private spheres.

The New Woman as Librarian - Clare Beck
2006-08-31

At the time of her death, it seemed that Adelaide Hasse would simply pass from memory and be forgotten. However, by the turn of the century, American Libraries would sanctify her as one of its hundred library leaders of the twentieth century, one of only thirty women given this honor.

Changing Roles...Taking care of Mom - N.D. Gulley 2020-03-01

After eight years of taking care of my aging mother who had suffered a stroke, the onset of Alzheimer's, and the likelihood of schizophrenia, I dare you not to lose your mind amid the drama-queen antics and the constant need for immediate gratification. What makes this book different from others like it is the inescapable fact my mother had a gift. She was a psychic medium with a proven track record that helped a lot of people. On the other hand, her endless

psychic channeling and nonstop conversations with the supernatural world made it very challenging for doctors and nurses to do their jobs. Living with Mom was a roller-coaster ride filled with physical, mental, and emotional challenges. It was a journey filled with aimlessness frustration and numerous events that were beyond belief. I will share with you situations that will require you to think fast on your feet. Things you can't learn from books. Little solutions that will help you save money and a few big things to watch out for so you don't lose everything. But that's not the only thing this book is about. I will reintroduce you to something that you have already experienced many times in your life and took it for granted. A secret of the universe that God had given to each of us. This is something that is instinctive to all animals, religions teach it, and scientists are close to finding its true origin.

Losing the Woman Within - Linda Parkinson-Hardman 2007-11-01

Losing the Woman Within explores the emotional impact that a hysterectomy may have on a woman; on her sense of self and her significant relationships. It covers the things that can create emotional distress after surgery, the types of emotions a hysterectomy can invoke and the effects these can have on such things as sexuality. It then goes on to offer simple suggestions to help a woman manage if it does occur. And throughout it is illustrated with the authors own story. It can also be used as a personal journal and has a number of activities included within it that may help someone suffering after a hysterectomy come to terms with their experience and move on in a more peaceful and self accepting way.

Virtue and Venom - Glenda McLeod 1991

"Virtue and Venom 'traces a general history of ., . the catalog of women - focusing especially on ... the close of the Middle Ages' (1). McLeod defines catalogs of women as 'lists - sometimes found in other works, sometimes found alone - enumerating pagan and (sometimes) Christian heroines who jointly define a notion of femineity'. The assumption that the women included in catalogs 'define a notion of femineity, ' a term she uses to rid her book of the connotations of 'femininity', is central to McLeod's study. ...

The Story Behind the Mail - M. J. Washington
2022-08-01

Sweet Mother of Christ, Hallelujah! Seems like an avalanche has rolled up to my door. The mailbox was stuffed with letters from several

different organizations and a couple of catalogs, and being a Tuesday, there was also a wad of junk mail. Remembering the thick manila envelope, I received from the VFW (Veterans of Foreign Wars) in mid-January with an assortment of gifts: a nice tablet-size calculator, all-occasion cards, address labels, a couple of notepads, a calendar, even a gift-bag. My conscience just wouldn't let me rest after receiving all these cool little gifts. I just had to send a donation to help with postage and handling. I think that's what caused the avalanche of mail that landed at my door. Deciding right then to keep a count of all incoming mail, I began to write down the names and contents of each envelope, thinking it couldn't possibly be too many more after this shipment. Boy was I ever wrong. I started receiving cards of all kind, prayer booklets, prayer relics, rosaries, crucifixes, and medals. Besides the letters, the phone calls started, so I started listing them too. Within a

couple of weeks, I had accumulated several pages of organizations requesting help either by phone or postal service. And the brain being the peculiar organ that it is, my brain anyway, it gets restless at times for more activity. Firing up the computer, I started a real list of all the charitable organizations I hear

from daily and decided to make my list an open project.
