Women in the Digital World - Anya Schiffrin 2023-04-04

Women's existence in the digital world has been closely studied by scholars and attracted the attention of activists worldwide. Women, like men, early on saw the Internet as a potentially powerful and liberating tool that would help them find groups or communities with similar aims and interests. Today there is more awareness of the deleterious effects of unconstrained online speech such as online violence, ridicule, silencing, and threats against women. Women in the Digital World brings together the latest academic research on women online and includes chapters on political speech, gendered online violence, dealing with sexual assaults, marginalization of women politicians, and how women participate (or don't) via online environments. The interdisciplinary research in this volume brings together communications studies, gender studies, sociology, politics, and computer science and is essential reading for those seeking to understand a growing field. The book should be of interest also for activists and NGOs who seek to deepen their knowledge on the place of females online. It was originally published as a special issue of the journal Information, Communication & Society.

This book examines the initial impact of the coronavirus pandemic on global sport and the varying consequences of the sport shutdown on all levels of society. It also considers the many lessons that have been learnt so that sport stakeholders can successfully adjust and operate under the "new normal." Featuring authors, cases and examples from around the world, the book explores the impact of COVID-19 on sport at all levels, from community sport - where local clubs, gyms and development programmes had to find ways to survive with pitches closed and projects cancelled - to the major professional sport leagues and sport mega-events, with events postponed and teams playing in empty stadia. It considers the economic, social and developmental impacts of the pandemic, including physical, mental and social wellbeing, and looks at how key professional and community sport organizations have reacted to the crisis, reflecting on the lessons learnt and preparations for future pandemics and challenges of similar size and significance. With COVID-19 now endemic in the global population, this is an essential reference for anybody working in sport, from students and researchers to managers, policymakers and development officers.

"A sparkling debut."—Emily Giffin, #1 New York Times Bestselling Author From a compelling new voice in women's fiction comes a mother-daughter story about three generations of women who struggle to define themselves as they pursue their dreams. Simran Mehta has always felt harshly judged by her mother, Nandini, especially when it comes to her little "writing hobby." But when a charismatic and highly respected journalist careens into Simran's life, she begins to question not only her future as a psychologist, but her engagement to her high school sweetheart. Nandini Mehta has strived to create an easy life for her children in America. From dealing with her husband's demanding family to the casual racism of her patients, everything Nandini has endured has been for her children's sake. It isn't until an old colleague makes her a life-changing offer that Nandini realizes she's spent so much time focusing on being the Perfect Indian Woman, she's let herself slip away. Mimi Kadakia failed her daughter, Nandini, in ways she'll never be able to fix—or forget. But with her granddaughter, she has the chance to be supportive and offer help when it's needed. As life begins to pull Nandini and Simran apart, Mimi is determined to be the bridge that keeps them connected, even as she carries her own secret burden.

Gender and Sexuality Justice in Asia - Joseph N. Goh 2020-12-15

This book brings together a group of innovative scholars examining the contemporary issue of effecting gender and sexuality justice in the context of Asia, consonant with engendering a just, equitable and sustainable development for all. These grassroots initiatives are woven through three complementary sections of the book: gender justice in Asia, sexuality justice in Asia, and finding resolutions through conflict. The book foregrounds strategies that aim to call out and challenge existing gender and sexuality injustices with regard to women and the LGBTIQ+ community by: assessing the efficacy of gender mainstreaming policies through micro-credit schemes for women in East Java, Indonesia; proliferating the signifiers of the hijab (veil) by postmodern Malay-Muslim women or 'Hijabistas' within the consumerist culture of Malaysia; making visible the injustices of the Syariah legal system for non-Muslim women, and ground-breaking legislation that could potentially recognise same-sex marriages in Thailand; privileging the narratives of gay women diplomats within the highly masculinised field of diplomacy in the Asia-Pacific region; foregrounding the narratives of Filipino gay men, intimate partner violence among young Indonesian Christian young people, masculine-identifying lesbians in Singapore, young LGBT people in rural Vietnam, and a Chinese-Muslim Malaysian female-to-male transgender person; and proposing new ways of becoming an inclusive church through the radical act of befriending persons living with HIV and AIDS in Southeast Asia. This book celebrates diverse and inclusive voices and strategies of gender and sexual agents of change in envisioning and bringing to fruition a just and transformative society for all. It is of interest to students and scholars researching gender and sexuality in areas of development studies, international relations, socio-legal studies, and literary studies.

Digital Platforms and the Global South - Philippe Bouquillion 2023-12-01

This book addresses the issues raised by digital platforms in the Global South, with an emphasis on the cultural stakes involved. It brings together an interdisciplinary team of researchers – including political economists, socio-economists, geographers, media sociologists or anthropologists – who each explore these issues through an insightful case study at a local, national, regional or international scale. While studying the strategies of some of the main US-based Big Tech platforms or video streaming platforms towards the Global South, the chapters also consider the often-neglected active role local or regional actors play in the expansion of those Western digital players, and highlight the existence of a constellation of local or regional platforms that have emerged in Africa, Asia, Latin America or the Middle East. In addition to analysing the complex relationships of competition, collaboration or dependence between these diverse actors, this volume examines the ways in which the rise of these digital platforms has generated new forms of cultural entrepreneurship and participated in the reconfiguring of the conditions in which cultural contents are produced and circulated in the Global South. This volume will appeal to readers interested in the transnationalisation of cultural industries or in the social, political, economic, cultural and geopolitical dimensions of digital transformations and will be an important resource for students, teachers and researchers in media, communication, cultural studies, international relations and area studies programmes.

The Bodies of Mothers - Jade Beall 2014

A Beautiful Body Project: The Bodies of Mothers First in a series of books with a strong media platform of truthful photographs and stories to celebrate the irreplaceable beauty of women and the body positive movement happening all over the world. A Beautiful Body Project is an upcoming series of book volumes and an online media platform dedicated to women and body image, celebrated through the sharing stories about motherhood, aging, cancer, stillbirths, miscarriages, weigh-gain, weight-loss, dysmorphia, and beyond. Founder Jade Beall has been a photographer, a massage therapist, and an inspiring dance teacher for women for over a decade. Her work is touching thousands of lives around the world. This book, along with all subsequent volumes, will feature my signature non-digitally-augmented & no-air-brushing images of women, just as they are. This is the heart of the project, to reshape images of women in mass media, to celebrate us as us, nothing more, nothing less. The Beautiful Body Pledge - which in turn sums up the purpose of the book series - is as follows: I want to join the movement and agree to love my body more and more each day, to use kind words towards myself and towards other women, to be a role-model for future generations of mothers, and to choose to be empowered knowing that I am not alone, and that by coming together, we can reshape body image in mass-media, build self-esteem, and explore vulnerability as a collective. Jade Beall is a world-renowned Photographer specializing in truthful images of women to inspire feeling irreplaceably beautiful as a counter-balance to the airbrushed photo-shopped imagery that dominates mainstream media. Her recent work A Beautiful Body Project has touched 100,000's of women's lives and garnered global attention from media outlets including the BBC, The Huffington Post & beyond. Jade's book series and media platform feature untouched photos of women alongside their stories of their journeys to build self-esteem in a world that thrives off women feeling insecure. Jade's dream is to inspire future generations of women to be free from the unnecessary self-suffering and embrace their beauty just as they are.

Maintaining Social Well-Being and Meaningful Work in a Highly Automated Job Market - Hai-Jew, Shalin 2020-04-03

In mainstream media, there has been wide discussion on what the world will look like when the artificial intelligence (AI) and robotics incursions into traditional human work result in fewer jobs in manufacturing, service industries, and other domains. Turning to automation is a practical endeavor for corporations because of the efficiencies and

increased performance it fosters, but these changes have a major impact on humanity. The resulting lack of work has been linked to social ills and human failure to thrive. *Maintaining Social Well-Being and Meaningful Work in a Highly Automated Job Market* is a pivotal reference source that explores how the world will re-shape as one with less demand for human labor and how to potentially balance how people engage as part-workers and as consumers of others' creations. Additionally, the book looks at how people will co-create meaningful lives at micro, meso, and macro levels. While highlighting topics such as mobile technology, positive psychological capital, and human capital, this book is ideally designed for technologists, AI designers, robotics designers, policymakers, social engineers, CIOs, politicians, executives, economists, researchers, and students.
