Twelve Years A Slave, Illustrated Edition - Solomon Northup 2014-04-08
Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

[Incidents in the Life of a Slave Girl](#) - Harriet A. Jacobs 2009-01-01
"Slavery is terrible for men, but it is far more terrible for women," Harriet Jacobs states plainly in this riveting account of her life as a slave, and then sets out to recount, in chilling detail, the particular horrors for women caught in that terrible snare. Published in 1861 under the pseudonym Linda Brent, **Incidents** was the first account of slavery to explore the sexual abuse female slaves endured... in Jacobs' case, a catalog of harassment she suffered while working in the home of a doctor known to have sold children he'd fathered with slave women. Long believed to have been written by a white author as a fictional novel, **Incidents in the Life of a Slave Girl** rings with a ghastly truth that still has the power to haunt modern readers.

The Jungle - Upton Sinclair 2010-08-19

A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are

described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

Incidents in the Life of a Slave Girl - Harriet Ann Jacobs 1861

Reader be assured this narrative is no fiction. I am aware that some of my adventures may seem incredible; but they are, nevertheless, strictly true. I have not exaggerated the wrongs inflicted by Slavery; on the contrary, my descriptions fall far short of the facts. I have concealed the names of places, and given persons fictitious names. I had no motive for secrecy on my own account, but I deemed it kind and considerate towards others to pursue this course. I wish I were more competent to the task I have undertaken. But I trust my readers will excuse deficiencies in consideration of circumstances. I was born and reared in Slavery; and I remained in a Slave State twenty-seven years. Since I have been at the North, it has been necessary for me to work diligently for my own support, and the education of my children. This has not left me much leisure to make up for the loss of early opportunities to improve myself; and it has compelled me to write these pages at irregular intervals, whenever I could snatch an hour from household duties.

NICOMACHEAN ETHICS - Aristotle 2017-04-20

◆ EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned. ◆
