Its pages allow the contemporary reader to become immersed in the words, sights, and wisdom of this powerful mystical wing of Islam. Here is the world of whirling dervishes; of mysterious alleyways where chanting is heard all day long; and of a young poet named Rumi, who writes impassioned love songs to God. Constructed as a conference of Sufis who gather in a great hall to answer the questions of a seeker, In Search of the Hidden Treasure is illustrated with more than a hundred previously unpublished works of Islamic art, and portraits of the Sufi Pirs, or enlightened teachers, drawn by the author's wife, Mary Inayat Khan. January 1928. Amélia sets sail with Emy on the first ship to Bombay, to reunite with her husband Thomas, captain in the army at Khalapur, in Rajasthan. But the reunion leaves much to be desired. Thomas seems to have changed unless it is Amélia who cannot handle the suffocating heat of the Thar desert. With economy and style, Dr. Robert Allison brings Boston history alive, from the Puritan theocracy of the seventeenth century to the Big Dig of the twenty-first. His book includes a wealth of illustrations, a lengthy chronology of the key events in four centuries of Boston history, and twenty short profiles of exceptional Bostonians, from founder John Winthrop to heavyweight champion John L. Sullivan, from "heretic" Anne Hutchinson to Russian-American author Mary Antin. Says the Provincetown Arts, "A first-rate short history of the city, lavishly illustrated, lovingly written, and instantly the best book of its kind." "

**Tarkovsky's Horses and Other Poems** Pia Tafdrup 2010 Pia Tafdrup is one of Denmark's leading poets, the winner of the Nordic Prize - Scandinavia's most prestigious literary award - for her collection *Queen's Gate*, published in English by Bloodaxe in 2001. This new translation of her work combines two more recent collections, *The Whales in Paris* and *Tarkovsky's Horses*, which comprise the first and second parts of a quartet written over ten years: the third and fourth parts are *The Migrant Bird's Compass* and *Salamander Sun* (published in English by Bloodaxe in 2015 as *Salamander Sun* and other poems). The poems of *The Whales in Paris* span the moment of conception to eternity. Life is seen as a confrontation with what is bigger than oneself: love, desire and death, primordial forces that are present even in our very modern civilisation. Those great forces of existence form the territory of *The Whales in Paris*: above all, desire and death, illuminated with motifs from childhood, the relation to parents, family, mythical figures from the Bible. Time, dreams and meditation also play their part. Pia Tafdrup writes: 'Tarkovsky's Horses is about loss in a double sense. The themes of the poems are my father's increasing forgetfulness, his loss of his faculties and then my loss of a father. The book is a poetic portrayal of the course of an illness for which science has few words - my father begins to suffer from dementia, and then he has to go into a nursing home, where he dies. Disintegration of identity and its inexorable progress are followed through every phase, in a concrete and naked form that makes use of the myth of Orpheus and Eurydice. The poems about a father who forgets more and more are set in a border landscape which is also not without its comical aspects. The poems narrate the drama of what it is to be a human being.'

Dr. Freud, Fish Whisperer Marion Muller-Colard 2017-09-15 At its most basic, philosophy is about learning how to think about the world around us. It should come as no surprise, then, that children make excellent philosophers! Naturally inquisitive, pint-size scholars need little prompting before being willing to consider life's big questions, however strange or impractical. Plato & Co. introduces children--and curious grown-ups--to the lives and work of famous philosophers, from Socrates to Descartes, Einstein, Marx, and Wittgenstein. Each book in the series features an engaging--and often funny--story that presents basic tenets of philosophical thought alongside vibrant color illustrations. Sprawled in his favorite armchair, Dr. Freud notices a peculiar phrase in pages of his notebook: "preaching to the fishes." What could he have meant by this? If there's one thing he has learned working as a psychoanalyst, it's that the best way to make sense of yourself is through your dreams--and so he settles down for a nice long nap. But no sooner does his head hit the pillow than he begins to hear voices! A frightened fish with a childhood memory lodged in its throat coaxes Dr. Freud into the cold water, where his ideas come to life through an unforgettable cast of characters, including a loquacious carp and three frogs--Id, Ego, and Superego--locked in fierce competition for a single waterlily.

City Indian Rosalyn R. LaPier 2015-05-01 In *City Indian*, Rosalyn R. LaPier and David R. M. Beck tell the engaging story of American Indian men and women who migrated to Chicago from across America. From the 1893 World's Columbian Exposition to the 1934 Century of Progress Fair, American Indians in Chicago voiced their opinions about political, social, educational, and racial issues. *City Indian* focuses on the privileged members of the American Indian community in Chicago who were doctors, nurses, business owners, teachers, and entertainers. During the Progressive Era, more than at any other time in the city's history, they could be found in the company of politicians and society leaders, at Chicago's major cultural venues and events, and in the press, speaking out. When Mayor "Big Bill" Thompson declared that Chicago public schools teach "America First," American Indian leaders publicly challenged him to include the true story of "First Americans." As they struggled to reshape nostalgic perceptions of American Indians, these men and women developed new associations and organizations to help each other and to ultimately create a new place to call home in a modern American city.

Hacking the Academy Daniel J. Cohen 2013-05-13 On May 21, 2010, Daniel J. Cohen and Tom Scheinfeldt posted the following provocative questions online: "Can an algorithm edit a journal? Can a library exist without books? Can students build and manage their own learning management platforms? Can a conference be held without a program? Can Twitter replace a scholarly society?" As recently as the mid-2000s, questions like these would have been unthinkable. But today serious scholars are asking whether the institutions of the academy as they have existed for decades, even centuries, aren't becoming obsolete. Every aspect of scholarly infrastructure is being questioned, and even more importantly, being hacked. Sympathetic scholars of traditionally disparate disciplines are canceling their association memberships and building their own networks on Facebook and Twitter. Journals are being compiled automatically from self-published blog posts. Newly minted PhDs are forgoing the tenure track for alternative academic careers that blur the lines between research, teaching, and service. Graduate students are looking beyond the categories of the traditional CV and building expansive professional identities and popular followings through social media. Educational technologists are

“punking” established technology vendors by rolling out their own open source infrastructure. Here, in *Hacking the Academy*, Daniel J. Cohen and Tom Scheinfeldt have gathered a sampling of the answers to their initial questions from scores of engaged academics who care deeply about higher education. These are the responses from a wide array of scholars, presenting their thoughts and approaches with a vibrant intensity, as they explore and contribute to ongoing efforts to rebuild scholarly infrastructure for a new millennium.

**The Color of Modernity** Barbara Weinstein 2015-02-04 In *The Color of Modernity*, Barbara Weinstein focuses on race, gender, and regionalism in the formation of national identities in Brazil; this focus allows her to explore how uneven patterns of economic development are consolidated and understood. Organized around two principal episodes—the 1932 Constitutionalist Revolution and 1954’s IV Centenário, the quadricentennial of São Paulo’s founding—this book shows how both elites and popular sectors in São Paulo embraced a regional identity that emphasized their European origins and aptitude for modernity and progress, attributes that became—and remain—associated with “whiteness.” This racialized regionalism naturalized and reproduced regional inequalities, as São Paulo became synonymous with prosperity while Brazil’s Northeast, a region plagued by drought and poverty, came to represent backwardness and São Paulo’s racial “Other.” This view of regional difference, Weinstein argues, led to development policies that exacerbated these inequalities and impeded democratization.

*Understanding and Teaching the Age of Revolutions* Ben Marsh 2017 Designed for university and secondary school history teachers, this volume combines up-to-date scholarship, classroom-tested techniques, and an exciting variety of pathways to introduce students to the complex era of 18th- and 19th-century revolutions in Europe and the Americas.

Raised in a refugee camp called Baddawi in northern Lebanon, Ahmad is just one of the thousands of Palestinians who fled their homeland after the war in 1948 established the state of Israel. In this visually arresting graphic novel, Leila Abdelrazaq explores her father's childhood in the 1960s and '70s from a boy's eye view as he witnesses the world crumbling around him and attempts to carry on, forging his own path in the midst of terrible uncertainty.

**The World Is Not Enough** Zoé Oldenbourg 1973 A chronicle of the life and love of Ansiau and Alis in 12th century France. Set in the time of the Third Crusade, Zoe Oldenbourg's novel (a translation of ARGILE ET CENDRES) is powerfully compelling and a true classic, capturing the strength and brutality, squalor and beauty, faith and ignorance, pageantry and agony of Europe's Middle Ages. **Of the People** James Oakes 2013 *Of the People: A Concise History of the United States, Second Edition*, not only tells the history of America--of its people and places, of its dealings and ideals--but it also unfolds the story of American democracy, carefully marking how this country's evolution has been anything but certain, from its complex beginnings to its modern challenges. This comprehensive survey focuses on the social and political lives of people--some famous, some ordinary--revealing the compelling story of America's democracy from an individual perspective, from across the landscapes of diverse communities, and ultimately from within the larger context of the world. The Concise Second Edition tells the same great story, but with fewer words and images. Maintaining the structure, the features, and maps of the comprehensive edition, this concise version has been thoughtfully condensed--paragraphs now contain trimmed sentences and a reduced number of examples--thus leaving the book's core content and compelling narrative unchanged. The second edition includes 75 percent fewer margin quotations and 60 percent fewer images than in the comprehensive edition.
