Literature Suppressed on Sexual Grounds, Fourth Edition

- Dawn Sova 2019-08-01

When Tolstoy's *The Kreutzer Sonata* was banned from distribution through the mail (except for first class) in 1890, New York street vendors began selling it from pushcarts carrying large signs reading "Suppressed!" In 1961, the United States Supreme Court pondered whether D.H. Lawrence's *Lady Chatterley's Lover* was lewd or literary. In 1969, the novel was required reading in many college

[American Criminal Law](#) - Paul H. Robinson 2022-08-12

This coursebook offers an exciting new approach to teaching criminal law to graduate and undergraduate students, and indeed to the general public. Each well-organized and student-friendly chapter offers historical context, tells the story of a principal historic case, provides a modern case that contrasts with the historic, explains the legal issue at the heart of both cases, includes a

unique mapping feature describing the range of positions on the issue among the states today, examines a key policy question on the topic, and provides an aftermath that reports the final chapter to the historic and modern case stories. By embedding sophisticated legal doctrine and analysis in real-world storytelling, the book provides a uniquely effective approach to teaching American criminal law in programs on criminal justice, political science, public policy, history, philosophy, and a range of other fields.

Feminist Literary and Cultural Criticism - Java Singh 2022-06-19

Feminist Literary and Cultural Criticism explores interdisciplinary connections across Cultural Anthropology, Geography, Psychology, and feminist literary criticism to develop a theoretical framework for spatial criticism. Using the spatial gynocritics framework developed in the book, it analyzes selected texts from five different

genres—short-story, novel, film, cartoons, and OTT series, created by women. The creators discussed in the book constitute a transnational collectivity of women that shares common concerns about gender, environment, technology, and social hierarchies. They comprise a geographically and linguistically diverse group from India, Uruguay, Spain, Argentina, and the USA. The book offers immense potential for a comparative study on numerous aspects, among which the present work concentrates on the treatment of Space, demonstrating that spatial logic and grammar are essential elements of the feminist praxis. The book reveals the unexamined potential in the women creators' praxis of destabilizing, decentring, and destroying the ascribed centres around which social arrangements are structured. Moreover, the book offers valuable analytic tools that add to scholarship in literary theory, comparative cultural

studies, comparative literature, gender studies, feminist criticism, and interdisciplinary humanities. It is an indispensable aid to students and faculty in these areas of study, enabling them to critique texts from a fresh perspective.
